Shout to the Lord Jan 22 2023 How music makes worship and how worship makes music in Evangelical churches Music is a nearly universal feature of congregational worship in American churches. Congregational singing is so ingrained in the experience of being at church that it is often misunderstood to be synonymous with worship. For those who assume responsibility for making music for congregational use, the relationship between music and worship is both promising and perilous – promise in the power of musical style and collective singing to facilitate worship, peril in the possibility that the experience of the music might eclipse the worship it was written to facilitate. As a result, those committed to making music for worship are constantly reminded of the paradox that they are writing songs for people who wish to express themselves, as directly as possible, to God. This book shines a new light on how people who make music for worship also make worship from music. Based on interviews with more than 75 songwriters, worship leaders, and music industry executives, *Shout to the Lord* maps the social dimensions of sacred practice, illuminating how the producers of worship music understand the role of songs as both vehicles for, and practices of, faith and identity. This book accounts for the human qualities of religious experience and the practice of worship, and it makes a compelling case for how – sometimes – faith comes by hearing.

The 6 Marks of Progressive Christian Worship Music Jul 28 2023 Something about the lyrics of many of the hit contemporary Christian worship songs is at best problematic for many clergy persons in mainline denominations. Sometimes the songs are downright offensive theologically to the pastor. Often the problem is rooted in a theological nuance or doctrine that the pastor does not embrace. Sometimes these contemporary worship songs use too many Christian buzz words or clichés or phrases that the pastor deliberately avoids in every other aspect of the liturgy. Often the problem is that the new songs show no sensitivity at all to things like inclusive language or the theological challenges of doctrines like penal substitutionary atonement. Sometimes the pastors feel that most of these new songs lack substance, that they're too sugary, too individualistic, and too other-worldly. Sometimes there's an emotional tone to this contemporary worship music that might work well in another kind of church but which just doesn't feel authentic in a traditional or mainline congregation. Now I would imagine that at least some of you began to glaze over a bit as you attempted to read

those last few paragraphs. Or maybe you didn't fully understand some of the terms I just used. If so, don't worry that's why I wrote this book! If you have no idea what things like penal substitutionary atonement or inclusive language are about, this book will help you understand what these terms mean and why it's important to your pastors for you to know your way around these issues and concepts a bit as you seek new songs to bring into the worship life of your congregation. And I promise--I'll do my best to use down-to-earth language that you'll be able to easily understand without a seminary education!

Singing the Congregation Apr 12 2022 Contemporary worship music shapes the way evangelical Christians understand worship itself. Author Monique M. Ingalls argues that participatory worship music performances have brought into being new religious social constellations, or "modes of congregating". Through exploration of five of these modes--concert, conference, church, public, and networked congregations--Singing the Congregation reinvigorates the analytic categories of "congregation" and "congregational music." Drawing from theoretical models in ethnomusicology and congregational studies, Singing the Congregation reconceives the congregation as a fluid, contingent social constellation that is actively performed into being through communal practice--in this case, the musically-structured participatory activity known as "worship." "Congregational music-making" is thereby recast as a practice capable of weaving together a religious community both inside and outside local institutional churches. Congregational music-making is not only a means of expressing local concerns and constituting the local religious community; it is also a powerful way to identify with far-flung individuals, institutions, and networks that comprise this global religious community. The interactions among the congregations reveal widespread conflicts over religious authority, carrying far-ranging implications for how evangelicals position themselves relative to other groups in North America and beyond.

After his retirement Mr. Gary Turner made a commitment to the Lord that he would write a song for every week in the year. Songs To The Glory Of God Volume II is filled with 87 songs with divinely inspired lyrics and music. Larry Turner, an accomplished musician, arranged all the music in this hymn book. And Now Let's Move Into a Time of Nonsense Jun 26 2023 Have you ever felt frustrated with the words of the worship songs that we sing? Why are they so forgettable? Why are they filled with such weird language? Where have all the writers gone? Combining humour with strong argument, Nick Page analyses how worship song writers have bought into a disposable, 'pop-song' model; how they have filled their songs with a kind of semi-Biblical code and how songs suffer from poor technique and a lack of specialist lyric writers. Above all it encourages writers to really think about the words of their songs and whether they really communicate truth about God - truth which should lead to worship. Passionate, controversial and laugh-out-loud funny, this is essential reading for Christians today.
