The Black Tulip Sep 14 2022 The story begins with the 1672 lynching of the Dutch Grand Pensionary Johan de Witt and his brother Cornelis by a wild mob of their own countrymen, considered by many as one of the most painful episodes in Dutch history, described by Dumas with a dramatic intensity. The city of Haarlem, Netherlands, has set a prize of f100, 000 to the person who can grow a black tulip, sparking competition between the country's best gardeners to win the money, honor and fame. Only the city's oldest citizens remember the Tulip Mania thirty years prior, and the citizens throw themselves into the competition. The young and bourgeois Cornelius van Baerle has almost succeeded but is suddenly thrown into the Loevestein prison... **Alexandre Dumas, père (1802-1870)** was a French writer whose works have been translated into nearly 100 languages and he is one of the most widely read French authors. His most famous works are *The Count of Monte Cristo* and *The Three Musketeers*.

Vénus Noire Nov 16 2022 Even though there were relatively few people of color in postrevolutionary France, images of and discussions about black women in particular appeared repeatedly in a variety of French cultural sectors and social milieus. In *Vénus Noire*, Robin Mitchell shows how these literary and visual depictions of black women helped to shape the country's postrevolutionary national identity, particularly in response to the trauma of the French defeat in the Haitian Revolution. *Vénus Noire* explores the ramifications of this defeat in examining visual and literary representations of three black women who achieved fame in the years that followed. Sarah Baartmann, popularly known as the Hottentot Venus, represented distorted memories of Haiti in the French imagination, and Mitchell shows how her display, treatment, and representation embodied residual anger harbored by the French. Ourika, a young Senegalese girl brought to live in France by the Maréchal Prince de Beauvau, inspired plays, poems, and clothing and jewelry fads, and Mitchell examines how the French appropriated black female identity through these representations while at the same time perpetuating stereotypes of the hypersexual black woman. Finally, Mitchell shows how demonization of Jeanne Duval, longtime lover of the poet Charles Baudelaire, expressed France's need to rid itself of black bodies even as images and discourses about these bodies proliferated. The stories of these women, carefully contextualized by Mitchell and put into dialogue with one another, reveal a blind spot about race in

French national identity that persists in the postcolonial present.

True Black Magic /La Veritable Magie Noire Jun 11 2022 A classic grimoire, or source-work of magic. *Le Vritable Magie Noire*, or the book of True Black Magic, is an influential early printed grimoire, containing many interesting features. It is one of many variants of *The Key of Solomon* (*Clavicula Salomonis*), but printed as a chapbook, or example of *Bibliothèque bleue*. As such it was small, cheap, and easy to hide or carry as an amulet. All these were important factors that lead to its popularity and worldwide distribution. For those familiar with the edition of the *Key of Solomon* edited by the influential occultist S. L. Mathers, much of the content looks familiar. But it has some unique features that draw our attention. In particular, it preserves some older elements not included in the Mathers edition, including spells for love, and hindering romantic rivals. This new critical edition includes a new English translation, and complete French text. [Computer Vision for Visual Effects](#) Jan 18 2023 This book explores the fundamental computer vision principles and state-of-the-art algorithms used to create cutting-edge visual effects for movies and television. It describes classical computer vision algorithms and recent developments, features more than 200 original images, and contains in-depth interviews with Hollywood visual effects artists that tie the mathematical concepts to real-world filmmaking.

U.F.O. 517 Dec 17 2022 Innumerable explanations have been put forward for the phenomena, known popularly as U.F.O'S and Flying Saucers. Eminent psychologists explain them as purely mental phantasmagoria - symptomatic of mankind's age-old desire for "saviours from the sky". Enthusiastic arm-chair cosmonauts regard them as irrefutable proof that super intelligences from Out There are watching the Earth. A few un-scrupulous publicity seekers and practical jokers cash in on the public's curiosity and weird stories of little green men and pink ants go the rounds. Amateur military tacticians decide that the saucers are either out new secret weapons or the experimental weapons of some alien power. Interest rises and falls. The Great Debate continues. There are some other possibilities . . . and the implications of some are so horrifying that mere monsters from Beyond would be a pleasant anti-climax. This mature, challenging novel is not recommended for those who like to think of the everyday world in terms of permanence and security with humanity safely established at the head of creation. Elspeth Jermyn came dangerously close to the truth, and slowly but surely gathered a small group of helpers together. They worked in strictest secrecy against the Saucer Phenomena and the invidious menace behind it . . . if they failed, life would have no real meaning.

Understanding Video Game Music Feb 07 2022 **Understanding Video Game Music**

develops a musicology of video game music by providing methods and concepts for understanding music in this medium. From the practicalities of investigating the video game as a musical source to the critical perspectives on game music - using examples including Final Fantasy VII, Monkey Island 2, SSX Tricky and Silent Hill - these explorations not only illuminate aspects of game music, but also provide conceptual ideas valuable for future analysis. Music is not a redundant echo of other textual levels of the game, but central to the experience of interacting with video games. As the author likes to describe it, this book is about music for racing a rally car, music for evading zombies, music for dancing, music for solving puzzles, music for saving the Earth from aliens, music for managing a city, music for being a hero; in short, it is about music for playing.

All Your Base Are Belong to Us May 30 2021 Through the stories of gaming's greatest innovations and most beloved creations, journalist Harold Goldberg captures the creativity, controversy--and passion--behind the videogame's meteoric rise to the top of the pop-culture pantheon. Over the last fifty years, video games have grown from curiosities to fads to trends to one of the world's most popular forms of mass entertainment. But as the gaming industry grows in numerous directions and everyone talks about the advance of the moment, few explore and seek to understand the forces behind this profound evolution. How did we get from Space Invaders to Grand Theft Auto? How exactly did gaming become a \$50 billion industry and a dominant pop culture form? What are the stories, the people, the innovations, and the fascinations behind this incredible growth? Through extensive interviews with gaming's greatest innovators, both its icons and those unfairly

forgotten by history, All Your Base Are Belong To Us sets out to answer these questions, exposing the creativity, odd theories--and passion--behind the twenty-first century's fastest-growing medium. Go inside the creation of: Grand Theft Auto * World of Warcraft * Bioshock * Kings Quest * Bejeweled * Madden Football * Super Mario Brothers * Myst * Pong * Donkey Kong * Crash Bandicoot * The 7th Guest * Tetris * Shadow Complex * Everquest * The Sims * And many more!

Galaxy 666 May 10 2022 They had reached the very limits of space. Nothing lay ahead except the evil planet, waiting to destroy. NOTES FROM CAPTAIN BRONET'S LOG: It looked like a lizard, or a snake with legs. It had a large flattish head, three eyes set in triangular formation, and a round food-intake in the centre of the "face." There was no chin. The head perched high on a mottled, leathery neck. The skin on its back was ribbed and corrugated. This creature was the first living thing we encountered on the sinister planet...

Rockstar Games and American History Apr 28 2021 For two decades, Rockstar Games have been making games that interrogate and represent the idea of America, past and present. Commercially successful, fan-beloved, and a frequent source of media attention, Rockstar's franchises are positioned as not only game-changing, ground-breaking interventions in the games industry, but also as critical, cultural histories on America and its excesses. But what does Rockstar's version of American history look like, and how is it communicated through critically acclaimed titles like Red Dead Redemption (2010) and L.A. Noire (2011)? By combining analysis of Rockstar's games and a range of official communications and promotional materials, this book offers critical discussion of Rockstar as a company, their video games, and ultimately, their attempts at creating new narratives about U.S. history and culture. It explores the ways in which Rockstar's brand identity and their titles coalesce to create a new kind of video game history, how promotional materials work to claim the "authenticity" of these products, and assert the authority of game developers to perform the role of historian. By working at the intersection of historical game studies, U.S. history, and film and media studies, this book explores what happens when contemporary demands for historical authenticity are brought to bear on the way we envisage the past -- and whose past it is deemed to be. Ultimately, this book implores those who research historical video games to consider the oft-forgotten sources at the margins of these games as importance spaces where historical meaning is made and negotiated.

The Red and the Black Aug 13 2022 The Red and the Black Stendhal - First published in 1830, The Red and the Black, is widely considered the masterpiece of 19th century French author Marie-Henri Beyle, known more commonly by his pen name, Stendahl. It follows the ambitions of Julien Sorel, a young man raised in the French countryside who wishes to rise above his provincial station by climbing the social ranks of Parisian society. Through a series of events, Juliens talent and hard work give way to deception and hypocrisy when he realizes the limitations for advancement of a sincere and honest man of humble origins. Although Julien achieves much which he aspires to, ultimately his pride gets the better of him when he commits a violent crime of passion, leading to his tragic downfall. Through the deep psychological introspection of Julien we see Stendhals unique literary genius, the remarkable way in which he allows readers to live in the minds of his characters. Set against the backdrop of the July Revolution of 1830, The Red and the Black is a narrative which embodies the rich social conflict of that time. This edition is translated with an introduction by Horace B. Samuel.

Sicily Herald and the Blazon of Colours (Renaissance Colour Symbolism I) Mar 28 2021 'Sicily Herald and the Blazon of Colours' brings together the original texts with original English translations of two closely related primary sources on Renaissance colour symbolism. 'Le Blason de toutes armes et scutz' (The blazon of all arms and shields) was completed about 1420 by Jean Courtois (c. 1375-1436), the Sicily Herald, and printed in Paris in 1495. The second, 'Le Blason des couleurs en armes, livrées, et devises' (The blazon of colours in arms, liveries and devices), by Gilles Corrozet (1510-68), was published in Paris in 1527 by Pierre Le Brodeur. They were first two books on colour to be printed in Europe, and are now available in English for the first time in five centuries. Roy Osborne is an artist, educator and historian, and author of books on colour. He was awarded the Turner Medal of the Colour Group (Great Britain) in 2003, and the Colour in Art, Design and Environment Medal of the International Colour Association in 2019.
