*Residential Tenancies* Jul 20 2023 Ireland is in a housing and rental crisis. With spiralling rents and a lack of supply comes new challenges for tenants and landlords. Along with this, the legislative changes to the Residential Tenancies Act 2004 are being made in a piecemeal fashion. With so many changes, Residential Tenancies is a much needed exposition of the current law. It provides a clear and comprehensive statement of the law regulating private and social leases of dwellings in Ireland and explains the dispute resolution mechanisms of the Residential Tenancies Board, appeals, and enforcement. At the centre of the book are the implications of the Residential Tenancies Act 2004, which was enacted to provide a simple and quick way to resolve disputes. However the provisions of the Residential Tenancies Act are technical, confusing, and give rise to what has been referred to repeatedly in the High Court as regrettable difficulties of interpretation. Residential Tenancies provides expert guidance and insight for practitioners and all those who have to navigate the provisions of the Residential Tenancies Act, 2004 (as amended). The text aims to 'see around corners' in the legislation, to answer particular difficulties that might prompt readers to turn to its pages. It gives practical help including step-by-step guidance to tackle the difficulties of interpretation and the wide range of changes and challenges, such as the obligations of landlords and tenants, changes in notice periods for termination and rent reviews, and dispute resolution. Along with this, the book also includes many useful resources including a comprehensive appendix, which includes a sample residential letting agreement, a range of sample notices of termination (to

deal with all permitted reasons for termination), and a sample rent review notice. These make it ideal for solicitors and barristers practicing in this area, as well as letting agents and members of the public, either landlords or tenants who wish to be well informed of their rights and obligations.

*Letters and the Body, 1700-1830* Jun 19 2023 This collection explores the multifaceted relationship between letters and bodies in the long eighteenth century, featuring a broad selection of women's and men's letters written from and to Britain, North America, Europe, India and the Caribbean, from the labouring poor to the landed elite. In eleven chapters, scholars from various disciplines draw on different methodological approaches that include close readings of single letters, social historical analyses of large corpora and a material culture approach to the object of the letter. This research includes personal letters exchanged among family and friends, formal correspondence and letters that were incorporated into published forewords and appendices, journals and memoirs. Part I explores the letter as a substitute for the absent body, the imagined physical encounters and performances envisaged by letter writers and the means through which these imagined sensations were conveyed. Part II examines the letter as a material object that served as a conduit for descriptions of the material body and as an instrument for embodied encounters. Part III focuses on how correspondents purposefully used their bodies in letters as a means to create intimacy, to generate social networks and build a 'body politic'. This interdisciplinary volume centred around letters will be of interest to scholars and students in a variety of fields including eighteenth-century studies,

cultural history and literature.

*Comparative and Transnational Dispute Resolution* Dec 01 2021 This edited volume presents research and policy insights into the theory and practice of dispute systems reform in diverse jurisdictions. It highlights how important extra-judicial mechanisms are for resolving cross-border disputes, as evidenced both by the breadth of scholarship dedicated to the issue and the proliferation of parties resorting to non-litigious dispute resolution mechanisms in recent years. Drawing on selected case studies, the book examines the impact of comparative research and policy analysis in advancing reform of dispute resolution institutions at both the regional and global levels. It explores the challenges and opportunities of understanding and assessing developments in systems of dispute resolution in diverse social and political contexts through comparative research. With a growing number of disputes which have come to involve cross-border issues, anyone interested in transnational and comparative dispute resolution will find this book a useful reference.

How to Raise Or Lower Child Support in California Dec 21 2020 Tens of thousands of parents who receive support are entitled to larger payments. And many parents who pay support qualify for a decrease due to changes in their income or in the other parent's financial status. How to Change Child Support in California shows parents on either side of the support issue how to go to court and get an existing order changed to the appropriate level. Recent changes in the law have made this process much simpler than it used to be, and it's now easier than ever to get your child support changed without a lawyer. The newly revised fourth edition incorporates all of these changes, and it provides the latest forms, with step-by-step instructions to compute new payments and request a change.

*ADVANCED TECHNICAL COMMUNICATION* Sep 10 2022 Businesses use technical writing extensively to communicate both within and outside the organization. And so, it is essential for an individual aspiring to be an executive to master the art of communication. This accessible and compact book on Advanced Technical Communication discusses how students can learn and master not only the basic skills of communication but also complex skills such as soft skills and skills required for preparing technical documents. The book begins with a discussion on the concept of technical communication and then it goes on to describe the differences between technical writing and general writing, and layout and format of business letters and résumé. What is more, it elaborates on technical documents such as technical proposals, reports, and specialized documents like theses, research papers and dissertations, differentiating them adequately. Finally, the text covers many of the soft skills required today, for example, presentation skills, interpersonal skills, and group discussion (GD) skills. This student-friendly book, suffused with practical examples, is primarily intended as a text for the first year students of Engineering (B.Tech.) of Uttarakhand Technical University for their course on Advanced Technical Communication. It will also be of immense benefit to undergraduate students in other universities and engineering colleges/institutes as well as technical professionals. KEY FEATURES : Provides comprehensive coverage of soft skills. Lays emphasis on corporate communication skills required

for technical writing and producing technical documents by engineers and managers. Gives a critical evaluation as well as text of George Orwell's Animal Farm.
