What If You Had Animal Teeth? Apr 12 2022 If you could have any animal's front teeth, whose would you choose? **WHAT IF YOU HAD ANIMAL TEETH?** takes children on a fun, informative, and imaginative journey as they explore what it would be like if their own front teeth were replaced by those of a different animal. Featuring a dozen animals (beaver, great white shark, narwhal, elephant,

rattlesnake, naked mole rat, hippopotamus, crocodile, and more), this book explores how different teeth are especially adapted for an animal's survival. At the end of the book, children will discover why their own teeth are just right for them. And they'll also get a friendly reminder to take good care of their teeth, because they're the only teeth they'll ever have. Each spread features a photograph of the animal using its specialized teeth on the left and a humorous illustrated image of a child using that animal's teeth on the right.

K-5 Lesson Plans Feb 08 2022 The Functional Approach to Character Education (FACE) Anti-bullying Curriculum is a K through 5th grade interactive model for alleviating the conditions that often cause students to intimidate other students,

including lack of respect for another's feelings, lack of appreciation for physical/behavioral differences, and poor self-esteem. Used by over 10,000 students dating back to 2001, this curriculum is now available via e-Book, both by individual grade or as a K through 5th grade package. Each of the 38 lessons includes a theme, classroom activity, discussion ideas, and takeaway points. Initially authored by Dr. Daniel Price, a licensed clinical psychologist, the curriculum has undergone revisions by grade level teachers since 2001, and modified to include activities that are fun and educational at the same time. Topics covered include: Responsibility, Respect, Caring, Fairness, Trustworthiness, and Citizenship.

Guided Math Lessons in Kindergarten Jul 28 2023 Guided Math Lessons in Kindergarten provides detailed lessons to help you bring guided math groups to life. Based on the bestselling Guided Math in Action, this practical book offers 16 lessons, taught in a round of three—concrete, pictorial and abstract. The lessons are based on the priority standards and cover fluency, word problems, counting and cardinality, and place value. Author Dr. Nicki Newton shows you the content as well as the practices and processes that should be worked on in the lessons, so that students not only learn the content but also how to solve problems, reason, communicate their thinking, model, use tools, use precise language, and see structure and patterns. Throughout the book, you'll find tools, templates and blackline masters so that you can instantly adapt the lesson to your specific needs and use it right away. With the easy-to-follow plans in this book, students can more work effectively in small guided math groups—and have loads of fun along the way! Remember that guided math groups are about doing the math. So throughout these lessons you will see students working with manipulatives to make meaning, doing mathematical sketches to show what they understand and can make sense of the abstract numbers. When students are given the opportunities to make sense of the math in hands-on and visual ways, then the math begins to make sense to them!

100 Days Smart Dec 09 2021 Karin Tramm's kindergarten class at DoDEA Vicenza Elementary School on Caserma Ederle Army Base, Italy, was counting up to a magic day—the 100th day of school—when students would be 100 days smart! “Mrs. Tramm, is that the last day of school?” a child asked. “Goodness no, there are a lot of numbers bigger than one hundred,” Mrs. Tramm explained, “and we will be in school for many more days after the hundredth day.” But then, on February 21, 2020, the 100th day of school, COVID-19 changed everything. From empty classrooms to kindergarten in the kitchen, teachers, parents, and students navigated uncharted waters as their world locked down in the epicenter of the Italian outbreak. For the next 100 days, residents of Vicenza learned to find joy in simplicity, country living, and community. In diary form, 100 Days Smart highlights their resilience, recognizing and remembering the fears and frustrations, humor and humanity of shared experiences on a new path forward.

Teaching Preschool and Kindergarten Math Dec 21 2022 Through an exciting multimedia format, Teaching Preschool and Kindergarten Math takes you into an early childhood classroom for a seeing is believing look at how to create a focused, successful mathematics program while simultaneously deepening your knowledge of the mathematical ideas that need to be developed at an early age. You'll find: * 26 video segments filmed in an actual classroom; * more than 150 lessons and investigations; * dozens of ideas for encouraging and supporting math talk with young children; * numerous formative assessment recommendations including videos of one-on-one interviews; * research-based strategies and insights to student misconceptions; * reproducibles (also available in a downloadable, printable format at www.mathsolutions.com/teachingpreschoolreproducibles), and more. The demands of the Common Core State Standards require students to have a stronger grounding in math concepts early on. In addition, research indicates that mastery of math concepts in early childhood is the most powerful predictor of later learning. These factors and more make Teaching Preschool and Kindergarten Math an essential go-to resource for the teaching and learning of early childhood mathematics.

Teach Your Child to Read in 100 Easy Lessons Oct 31 2023 A step-by-step program that shows parents, simply and clearly, how to teach their child to read in just 20 minutes a day.

Sight Words and Short Sentences Nov 27 2020 Lessons in this text are enough to get started teaching a child to read and write using simple sight words and other easy to read words to make sentences. Each lesson begins with sight words and easy words, then consists of printed text for reading and copying. Each section ends with a complete list of words for the student to review. Flash cards are included in the appendix to cut, laminate, and practice for word mastery. Perfect for guided reading and small-group reading instruction for developing reading proficiency.

SUGGESTIONS TO TEACHERSThis book may be used in teaching reading by any of the methods in common use; but it is especially adapted to the Phonics Method, the Word Method, or a combination of the two.

I. Phonics Method. First teach the elementary sounds and their representative, as they occur in the lessons; then, the formation of words by the combination of these sounds. For instance, teach the student to identify the characters a, o, n, d, g, r, and th, in Box B of Lesson 1, as the representatives of certain elementary sounds; then teach him to form the words in Box A of the lesson, then other words, as nag, on, and, etc. Use a similar method in teaching the succeeding lessons. After having read a few lessons in this manner, begin to teach the spelling of words, and require the groups, "a man," "the man," "a pen," to be read as a good reader would pronounce single words.

II. Word Method. Teach the student to identify at sight the words in Box A of the reading exercises, and to read these exercises without hesitation. After having read a few lessons in this manner, begin to teach the spelling of words.

III. Word Method and Phonics Method Combined.--Teach the student to identify words and read sentences, as above. Having read a few lessons in this manner, begin to use the Phonics Method, combining it with the Word Method, by first teaching the words in each lesson as words; then the elementary sounds, and spelling.

Language Use in the Two-Way Classroom Sep 25 2020 Based on an extended ethnographic study of a dual language (Spanish-English) Kindergarten, this book takes a critical look at children's linguistic (and non-linguistic) interactions and the ways that teaching design can help or hinder language development. With a focus on official "Spanish time", it explores the particular challenges of supporting the minority language use as well as the teacher's strategies for doing so. In

bilingual classrooms, teachers' goals include bilingualism as well as academic achievement for all. The children may share these interests, but have their own agendas as well. This book explores the linguistic and social interactions that may help, or hinder, these multiple and sometimes conflicting agendas. How can teachers design educational practice that takes into consideration broader forces of language hegemony as well as children's immediate interests?
