Love, hatred and deception sweep them from terrorist conspiracies in Paris to full-tilt guerilla warfare in Afghanistan.

Jean-Pierre and Jane marry and go to work as doctors in the Valley of the Five Lions to help the rebels fighting for their freedom against the Russians. Trapped between extremes of violence, lust and danger, Jane desperately tries to get out of the line of fire. Help comes unexpectedly, from her husband's greatest enemy. They soon become the centre of the action, as treachery seeks its prey. Follett builds the menacing tension to breaking point, leading to a confrontation that echoes all our nightmares. Frank and funny, these stories written originally for the Bengali children's magazine Sandesh, are an essential read for all Ray enthusiasts as well as those who want to know Ray, the writer and film-maker, better. In this volume, Ray also shares some of his experiences while shooting Pather Panchali—his epic debut, and subsequent films, particularly for children. He describes how an entire field of kaash flowers was eaten up by cows before he could shoot his famous scene with the train in Pather Panchali; and how a circus tiger let loose in a bamboo grove chased away a group of curious onlookers in the blink of an eye. DICTIONARIES, FOREIGN LANGUAGE, BENGALI, SAMSAD - Revised, Enlarged 3rd edition. This book examines diverse literary writings in Bangla related to crime in late nineteenth and early twentieth century colonial Bengal, with a timely focus on gender. It analyses crime-centred fiction and non-fiction in the region to see how actual or imagined crimes related to women were shaped and fashioned into images and narratives for contemporary genteel readers. The writings have been examined within a social-historical context where gender was a fiercely contested terrain for publicly fought debates on law, sexual relations, reform, and identity as moulded by culture, class, and caste. Both canonized literary writings (like those of Bankim Chatterji) as well as non-canonical, popular writings (of writers who have not received sufficient critical attention) are scrutinised in order to examine how criminal offences featuring women (as both victims and offenders) have been narrated in early

manifestations of the genre of crime writing in Bangla. An empowered and thought-provoking study, this book will be of special interest to scholars of criminology and social justice, literature, and gender. aro jore pod maro, hoga maro, voda maro. **Conversations with the Universe: How the World Speaks to Us** by Simran Singh is the wake up call that we all need in order to listen to and understand what the Universe is saying to us. This New Translation Brings The Classic Tale Of Star-Crossed Lovers Alive For A New Generation Of Readers. The Classic Novel Brought To Life In A New, Lucid, Extremely Readable Translation. This book, first published in 1962, is an analysis of the history of the philosophy of a country that has never distinguished philosophy from religion. Indian philosophy is not merely metaphysical speculation, but has its foundation in immediate perception. This insistence upon immediate perception rather than abstract

reasoning is what distinguishes the Indian philosophy of religion from philosophy as Western nations know it. The present collection offers fresh perspectives on the lexicon-syntax interface, drawing on novel data from South Asian languages like Bangla, Hindi-Urdu, Kashmiri, Kannada, Malayalam, Manipuri, Punjabi, and Telugu. It covers different phenomena like adjectives, nominal phrases, ditransitives, light verbs, middles, passives, causatives, agreement, and pronominal clitics, while trying to settle the theoretical tensions underlying the interaction of the lexicon with the narrow syntactic component. All the chapters critically survey previous analyses in detail, suggesting how these may or may not be extended to South Asian languages. Novel explanations are proposed, which handle not only the novel data presented here, but also pave alternative ways to look at issues of minimalist architecture.

Smith, a University of Oxford athlete, witnesses strange things. Edward, a student in Egyptology, collects ancient artefacts, a mummy as well. Not only does he collect them, but Smith suspects that Edward is trying to reanimate the mummy. His suspicions grow bigger when he sees the mummy disappear and then reappear. Will Smith confront Edward and what will follow after that? Is it actually possible to reanimate an artefact or it is simply fruit of imagination? Who will make it out alive – Smith, Edward, or the mummy? "Lot No. 249" holds the answers.

Sir Arthur Conan Doyle (1859-1930) was born in Scotland and studied medicine at the University of Edinburgh. After his studies, he worked as a ship's surgeon on various boats. During the Second Boer War, he was an army doctor in South Africa. When he came back to the United Kingdom, he opened his own practice and started writing crime books. He is best known for his thrilling stories about the adventures of Sherlock Holmes. He published four novels and more than 50 short-stories starring the detective and Dr Watson, and they play an important role in the history of crime fiction. Other than the Sherlock Holmes series, Doyle wrote around thirty more books, in

genres such as science-fiction, fantasy, historical novels, but also poetry, plays, and non-fiction. **Electronic Genie** takes its readers on a two-century journey that begins with Antoine Lavoisier's prediction of the existence of silicon as an element. It traces the emergence of silicon as key to the development of most forms of today's electronics and its role in making possible the revolutionary digital computer. Loaded with information about such original thinkers as Lavoisier, John Bardeen, Bill Gates, Patrick Haggerty, Gordon Moore, and many more, the volume traces the use of silicon in metallurgy, as a diode rectifier in wireless and radio, and ultimately as a nonlinear element for heterodyne mixing in radar during World War II. **Electronic Genie** will appeal to students of science and technology as well as to anyone interested in the history of these fields. This book highlights emerging trends and new themes in South Asian history. It covers issues broadly related to religion, materiality and nature from differing perspectives and methods to offer a kaleidoscopic view of Indian history until the late eighteenth century. The essays in the volume focus on understanding questions of premodern religion, material culture processes and their spatial and environmental contexts through a study of networks of commodities and cultural and religious landscapes. From the early history of coastal regions such as Gujarat and Bengal to material networks of political culture, from temples and their connection with maritime trade to the importance of landscape in influencing temple-building, from regions considered peripheral to mainstream historiography to the development of religious sects, this collection of articles maps the diverse networks and connections across regions and time. The volume will be of great interest to scholars and researchers of history, archaeology, museum and heritage studies, religion, especially Hinduism, Sufism and Buddhism, and South Asian studies. **THE DISNEY PRINCESSES** come together in one collection of early readers! Featuring Belle, Cinderella, Snow

White, Sleeping Beauty, and Jasmine in their own special stories, this paperback bind-up includes five Step into Reading titles.

Winner of the Sahitya Akademi Award An award-winning novel that uses both vast panoramic views and lovingly reconstructed detail to provide an unforgettable picture of nineteenth-century Bengal. The Bengal Renaissance and the 1857 uprising form the backdrop to *Those Days*, a saga of human frailties and strength. The story revolves around the immensely wealthy Singha and Mukherjee families, and the intimacy that grows between them. Ganganarayan Singha's love for Bindubasini, the widowed daughter of the Mukherjees, flounders on the rocks of orthodoxy even as his zamindar father, Ramkamal, finds happiness in the arms of the courtesan, Kamala Sundari. Bimbabati, Ramkamal's wife, is left to cope with her loneliness. A central theme of the novel is the manner in which the feudal aristocracy, sunk in ritual and pleasure, slowly awakens to its social obligations. Historical personae interact with fictional protagonists to enrich the narrative. Ishwar Chandra Vidyasagar, the reformer; Michael Madhusudan Dutt, the poet; the father and son duo of Dwarkanath and Debendranath Tagore; Harish Mukherjee, the journalist; Keshab Chandra Sen, the Brahmo Samaj radical; David Hare and John Bethune, the English educationists—these and a host of others walk the streets of Calcutta again, to bring alive a momentous time. This study includes a larger scope previously not seen in any other critical work about Indian Science Fiction. The reader will get an overarching notion of Science Fiction in India—not just in one particular language. It is a detailed examination of the history of Science Fiction in India. The reader will receive a comprehensive idea of the emergence and development of Science Fiction in India over the last two centuries across various languages, including discussion on major trends, major texts, and major authors. A timeline of major events is included. It is a comparative examination of Science Fiction texts and films from multiple languages (e.g. Assamese,

Bangla, English, Hindi, Marathi etc.) An incisive look into the world's most innovative tech company and the man chosen to lead it. On 10 August 2015, an unassuming product expert who learnt his ropes at IIT Kharagpur was declared the next CEO of tech giant Google. Sundar Pichai's appointment was hardly an unexpected one. Pichai is a man known as much for his veritable Midas touch with every product he has developed or led for Google ? Chrome, Chrome OS and Android, to name just a few ? as for his superlative people skills and open-minded approach to innovation. Yet, the company's decision to restructure its product lines and appoint Pichai as the head of a leaner, more focused Google, has raised inevitable questions: ? What does Pichai's role augur for the future of the tech giant? ? Will Google consolidate its position for existing products or will they focus on creating new ones? ? And will Pichai transform the organization that Schmidt, Page and Brin created and led, or confirm the belief of a minority of naysayers that he is not yet ready for this daunting role? Pichai: The Future of Google provides answers to these questions while throwing light on Sundar Pichai's childhood and education; his entry into the tech world and quick rise up the ranks in Google; and his key contributions as a leader and tech-guru to Google's most successful properties. Timely and insightful, this book offers a rare glimpse into the fascinating ecosystem of a path-breaking company and shows us what it takes to be a dynamic leader in the 21st century. Songs of Kabir Rabindranath Tagore - Kabir lived in the 15th Century (1440-1518); born to Mohammadan parents; he came under the influence of the famous Hindu saint; Sri Ramananda and delved deep into the mysteries of Hindu mysticism. these songs of Kabir were translated into English by none other than Rabindranath Tagore; the mystic poet and the Noble Laureate; the first edition; published by The Macmillan Company; 1915; New York. Written in 1980, this novel by prize-winning Indian writer Mahasweta Devi, translated and introduced by Gayatri Chakravorty Sprivak, is remarkable for the way in which it touches on vital issues that have in subsequent decades grown into matters of urgent social concern. Written by one of India's foremost novelists, and translated by an eminent cultural and critical theorist. Ranges over decades in the life of Chotti – the central character – in which India moves from colonial rule to independence, and then to the unrest of the 1970s. Traces the changes, some forced, some welcome, in the daily lives of a marginalized rural community. Raises questions about the place of the tribal on the map of national identity, land rights and human rights, the 'museumization' of 'ethnic' cultures, and the justifications of violent resistance as the last resort of a desperate people. Represents enlightening reading for students and scholars of postcolonial literature and postcolonial studies.

The Sexual History of the Global South explores the gap between sexuality studies and post-colonial cultural critique. Featuring twelve case studies, based on original historical and ethnographic research from countries in Africa, Asia, and Latin America, the book examines the sexual investments underlying the colonial project and the construction of modern nation-states. Covering issues of heteronormativity, post-colonial amnesia regarding non-normative sexualities, women's sexual agency, the

policing of the boundaries between the public and the private realm, sexual citizenship, the connections between LGBTQ activism and processes of state formation, and the emergence of sexuality studies in the global South, this collection is of great geographical, historical, and topical significance. Technologies of Sexuality, Identity and Sexual Health highlights the complex ways in which sexuality is expressed and enacted through local ideologies, global identities and material cultures, and their influence on people's sexual health and well-being. Its impetus is the renewed interest in technology and the 'social life of things,' including pharmaceuticals, expanded sexual and related surgery, the growing exploitation of markets for sexual and contraceptive products, and the impact of these on sexual and health practices and outcomes. Organised loosely into three parts, the opening chapters concentrate on female contraception, its availability, and the varied cultural significance attached to the ability to control its use, exploring the politics of reproductive health and birth control, and the ties between technology and power. The middle section turns its attention to men, and the impact of traditional and contemporary concerns about masculinity, and the social and sexual roles of men. The final chapters look at the commonalities across cultural borders and sexual gendered identities – how products and procedures travel, not only through the formal channels of globalisation, but also informally, carried by individuals across cultural and social boundaries through sexual, social and commercial interactions. The volume brings together anthropologists, sociologists and cultural studies scholars, both senior and emerging, from around the globe. Offering an important and topical contribution to the developing global literature on sexuality, sexual identity, culture and health, it is of interest to researchers and advanced students in these areas. Maya Banks, the New York Times bestselling author of romance and romantic suspense has captivated readers with her steamy Scottish historical novels, perfect for fans of Julie Garwood. In

Fifteen outstanding writers answered editor Wendy Lesser's call for original essays on the subject of language—the one they grew up with, and the English in which they write. Despite American assumptions about polite Chinese discourse, Amy Tan believes that there was nothing

discreet about the Chinese language with which she grew up. Leonard Michaels spoke only Yiddish until he was five, and still found its traces in his English language writing. Belgian-born Luc Sante loved his French Tintin and his Sartre, but only in English could he find “words of one syllable” that evoke American bars and bus stops. And although Louis Begley writes novels in English and addresses family members in Polish, he still speaks French with his wife—the language of their courtship. As intimate as one’s dreams, as private as a secret identity, these essays examine and reveal the writers’ pride, pain, and pleasure in learning a new tongue, revisiting an old one, and reconciling the joys and frustrations of each. Arguably the oldest form of health care, Ayurveda is often referred to as the “Mother of All Healing.” Although there has been considerable scientific research done in this area during the last 50 years, the results of that research have not been adequately disseminated.
