"In this must-read book, Robert Fried shows us that playing the game of school day after day is an intolerable waste of time, and while we are told it will lead to a decent paying job, it actually stupefies us for life's challenges—including being a decent citizen. He shows why we simply cannot keep doing this to our intellectually feisty youngsters, or to their teachers. Fried has it right in theory and detail, and he shows us, in his lively, poignant, often funny stories from the field, how teachers, parents, and, yes, kids, too, can begin to change this dreadful and unnecessary game." —DEBORAH MEIER, founding principal and director, New Ventures, Mission Hill School "This critically important book plumbs the depths of productive vs. unproductive learning and finds a seemingly normal, yet insidious, 'game' at its core. Our schools' failure to engage young minds is explained through vivid portraits of teachers who buck the trend. Fried is not a nihilist who sees only the dark side. Far from it. He has the courage to describe the Game of School such that readers can accept the metaphor as a tool without which educational reform will continue to be ineffectual." —SEYMOUR B. SARASON, professor of psychology emeritus, Yale University and author of And What Do You Mean by Learning? How to Play the Game provides a basic understanding of the legal issues surrounding sports. It is the go-to source for anyone interested in getting into the field of sports law. A baby book supporting parents to read, learn and play with their children. Games allow players to experiment and play with subject positions, values and moral choice. In game worlds players can take on the role of antagonists; they allow us to play with behaviour that would be offensive, illegal or immoral if it happened outside of the game sphere. While contemporary games have always handled certain problematic topics, such as war, disasters, human decay, post-apocalyptic futures, cruelty and betrayal, lately even the most playful of genres are introducing situations in which players are presented with difficult ethical and moral dilemmas. This volume is an investigation of "dark play" in video games, or game play with controversial themes as well as controversial play behaviour. It covers such questions as: Why do some games stir up political controversies? How do games invite, or even push players towards dark play through their design? Where are the boundaries for what can be presented in a games? Are these boundaries different from other media such as film and books, and if so why? What is the allure of dark play and why do players engage in these practices? All of my hard work has paid off and now I have a family to call my own - my best friend Avery and my three boyfriends; Harley, Ash, and Blaise.But with more people depending on me, the stakes have never been higher.I've stepped out from the shadow of the Jackal. Porchlight's Best Leadership & Strategy Book of The Year An inspiring memoir from the CEO of DICK's Sporting Goods that is “not only entertaining but will be of great value to any entrepreneur” (Phil Knight, New York Times bestselling author of Shoe Dog), this book shows how a trailblazing business was created by giving back to the community and by taking principled, and sometimes controversial, stands—including against the type of weapons that are too often used in mass shootings and other tragedies. It's How We Play the Game tells the story of a complicated founder and an ambitious son—one who transformed a business by making it about more than business, conceiving it as a force for good in the communities it serves. In 1948, Ed Stack's father started Dick's Bait and Tackle in Binghamton, New York. Ed Stack bought the business from his father in 1984, and grew it into the largest sporting goods retailer in the country, with 800 locations and close to \$9 billion in sales. The transformation Ed wrought wasn't easy: economic headwinds nearly toppled the chain twice. But DICK's support for embattled youth sports programs earned the stores surprising loyalty, and the company won even more attention when, in the wake of yet another school shooting—at Marjory Stoneman Douglas High School in Parkland, Florida—it chose to become the first major retailer to pull all semi-automatic weapons from its shelves, raise the age of gun purchase to twenty-one, and, most strikingly, destroy the assault-style-type rifles then in its inventory. With vital lessons for anyone running a business and eye-opening reflections about what a company owes the people it serves, It's How We Play the Game is “a compelling narrative...In a genre that can frequently be staid, Mr. Stack's corporate biography is deeply personal...[Features] surprising openness [and] interesting and humorous anecdotes” (Pittsburgh Post-Gazette).
