**Comics in French** Mar 24 2021 Whereas in English-speaking countries comics are for children or adults "who should know better," in France and Belgium the form is recognized as the "ninth art" and follows in the path of poetry, architecture, painting, and cinema. The bande dessinée [comic strip] has its own national institutions, regularly obtains front-page coverage, and has received the accolades of statesmen from De Gaulle onwards. On the way to providing a comprehensive introduction to the most francophone of cultural phenomena, this book will consider national specificity as relevant to an anglophone reader, whilst exploring related issues such as text/image expression, historical precedents, and sociological implication. To do so it will present and analyse priceless manuscripts, a Franco-American rodent, Nazi propaganda, a museum-piece urinal, intellectual gay porn and a prehistoric warrior who's really Zinedine Zidane.

The System of Comics Aug 29 2021 The System of Comics by Thierry Groensteen translated by Bart Beaty and Nick Nguyen. This edition of Thierry Groensteen's The System of Comics makes available in English a groundbreaking work on comics by one of the medium's foremost scholars. In this book, originally published in France in 1999, Groensteen ranges broadly through the history of comics to explain clearly the subtle, complex workings of the medium and its unique way of combining visual, verbal, spatial, and chronological expressions. The System of Comics uses examples from a wide variety of countries including the United States, England, Japan, France, and Argentina. It describes and analyzes the properties and functions of speech and thought balloons, panels, strips, and pages to examine methodically and insightfully the medium's fundamental processes. From this, Groensteen develops his own coherent, overarching theory of comics, a "system" that he builds on existing studies of the "word and image" paradigm while adding innovative approaches of his own. Examining both meaning and appreciation, the book provides a wealth of ideas that will challenge the way scholars approach the study of comics. By emphasizing not simply "storytelling techniques" but also the qualities of the printed page and the reader's engagement, the book's approach is broadly applicable to all forms of interpreting this evolving art. Thierry Groensteen is a comics scholar born in Brussels, Belgium, the founding publisher of Editions de l'An 2, and the curator of the Angoulême Comics Museum in Angoulême, France. Bart Beaty is associate professor of communication and culture at the University of Calgary. Nick Nguyen is an archivist at Library and Archives Canada in Ottawa, Ontario.

*The Phantom 18-28 (1966) King Comics* Feb 03 2022 Probably the best known of all Phantom comics in the U.S.A., this series of 73 colour comics was published between Nov 1962 and Jan 1977, under three different publishers. The series began under the Gold Key label, published by K.K.Publications as a quarterly 12c comic. With issue #11 in 1965, the series changed to a bi-monthly. In 1966, the release schedule returned to a quarterly basis, and only lasted two more issues before the first change of publisher occurred. In total, there were 17 Phantom comics with the Gold Key label. All sported beautiful painted covers by George Wilson. Three of these covers are reported to have

been painted by another unknown artist (#5, #12, #13). Most of the stories were adaptations of original Lee Falk newspaper strip stories, with new artwork by Bill Lignante. King Features Syndicate became the new publisher of The Phantom comics, releasing their first issue in September 1966 under the King Comics label. They continued the numbering sequence from the Gold Key series, labelling this issue #18. It was published as a 12c bi-monthly until issue #23 in mid-1967 when it changed to a monthly schedule. Issue #28 was the last to be published under the King Comics label (cover price 15c), only 6 issues into the monthly schedule. Of the 11 Phantom comics published by King, all but one of the stories were illustrated by Bill Lignante. The first two issues contained adaptations of older Lee Falk stories, and thereafter, the stories were original. Issue #25 contained a story entitled The Cold Fire Worshippers which was reprinted from the Italian comics series American Adventures published by Fratelli Spada, and drawn by Senio Pratesi. The cover artwork on the first three of these comics were by Bill Lignante, while all others appear to have been lifted directly from panels of Sy Barry's newspaper strips. The reigns of The Phantom comic were picked up again over a year later (February 1969), by Charlton Press using the Charlton Comics label. They continued with the same numbering sequence but skipped #29 and began with #30. This first issue featured uncredited artwork, but the covers and all but two of the stories in the next year of bi-monthly issues were by Jim Aparo. Issue #33 was the first to contain a story by Pat Boyette, and Bill Lignante was brought back to illustrate his last Phantom story which appeared in #35. From issue #39 onwards (August 1970), the cover and story artwork was exclusively by Pat Boyette. With only a handful of exceptions, each issue then contained three 7-page stories. The art and stories during this period can best be described as woeful. Despite a considerable volume of negative feedback from readers, Charlton persisted with Pat Boyette until #59 in December 1973. The declining sales must have struck a nerve with Charlton (who'd changed their name to Charlton Publications after #56), and the comic was revived six months later in #60 as The New Phantom. In their search for new artists and writers, Charlton first relied on stories from the Italian publisher Fratelli Spada, before introducing us to the work of Don Sherwood and ... more notably ... Don Newton. In total, Don Newton contributed six beautifully illustrated 22-page stories (#67, #68, #70, #71, #73, #74) complete with painted cover artwork, plus the cover for #69. Sales improved, but not enough to save the flagging title. The last issue of The Phantom comic was #74, in January 1977. A complete index of the individual stories in each issue of Charlton Comics is available [HERE](#). An analysis of the circulation data and the cover price builds an interesting picture of how this series eventually failed. Cover price for the series commenced at 12c, and was raised to 15c from #34, 20c from #46, 25c from #60, and finally 30c from #70 -- this was common for all American comics at the time. At the same time, the number of comics being printed was gradually falling, but at a lesser rate than the number that were being sold. This graph shows what happened. By 1976, the paid circulation was less than 40%, compared with a peak of 65% in 1965. Not even the brilliant efforts of Don Newton were enough to save the title ... the damage had already been done. Simply put, the editors at Charlton were too slow to make the necessary corrections. The Phantom was subsequently absent from American newsstands, at least in comic book form, for the next 10 years. **Abstractions 6** Dec 21 2020 Leou's Abstractions spread on more than 1500 pages included in 8 comic books. This prodigal artwork remains unclassifiable and disconcerting by its complexity and the untamed freedom emanating from it. Original and alive, Abstractions creates an intimate diary, telling the story of Leou's art and thought, unfolding since 1996. He blows up comics by pushing it to its limits; thus, he creates a universal visionary language, close to that of the Egyptians and Mayas, in order to express the essence of beauty. Abstractions is a coherent self-reference system participating to the actualization of his creator's entelechy, using this subtle language as an awakening tool. He fiercely and uncompromisingly follows his inspiration, feeding on his experiences to make it visible in a style which is specific to him. Attentive observers will notice a subtle progression in Leou's language throughout the years, sustained by a strong desire to endlessly push his own limits. However, it should be underlined that the symbols and iconography which are typical of Abstractions have unfolded right from the start of the series and stabilized rapidly, one could almost say they had their proper existence and were waiting for the right moment to reveal themselves. Thus, readers shouldn't try to understand or interpret this artwork but instead feel it with the most subtle part of their being, letting go of the mind and sink within the flow of images and symbols.---

Les Abstractions de Leou s'étalent sur plus de 1500 pages réparties sur 8 albums. Cette oeuvre prodigue demeure inclassable et troublante par sa complexité et la liberté sauvage qui en émane. Originale et vivante, elle forme un journal qui rend compte du développement de la pensée et de l'art de Leou, de 1996 jusqu'à aujourd'hui. Il y fait éclater la bande-dessinée en la poussant sans ménagement à sa limite; l'illimitant, il crée un langage visionnaire universel, proche des hiéroglyphes égyptiens et mayas, capable d'exprimer l'essence même de la beauté. Abstractions forme un système cohérent d'auto-références participant à l'actualisation de l'entéléchie de son créateur qui utilise ce langage subtil comme un outil d'éveil. Il suit farouchement son inspiration, sans concession ni compromis, et se nourrit de ses expériences pour les rendre visibles dans un style qui lui est propre. Les observateurs attentifs remarqueront une progression subtile du langage de Leou au fil des albums, qui est soutenue par son désir ardent de repousser sans cesse ses propres limites. Toutefois il faut souligner que les symboles et l'iconographie qui caractérisent Abstractions se sont déployés dès les premières pages de cette série pour se stabiliser rapidement, comme s'ils avaient déjà une existence propre et n'attendaient que le bon moment pour se révéler. Le lecteur ne devrait donc pas chercher à comprendre ou interpréter cette oeuvre mais plutôt à la sentir avec les parties les plus subtiles de son être en se laissant porter par le flot des images et symboles.

The Routledge Companion to Gender and Sexuality in Comic Book Studies Jun 14 2020

The Routledge Companion to Gender and Sexuality in Comic Book Studies is a comprehensive, global, and interdisciplinary examination of the essential relationship between Gender, Sexuality, Comics, and Graphic Novels. A diverse range of international and interdisciplinary scholars take a closer look at how gender and sexuality have been essential in the evolution of comics, and how gender and sexuality in comics demand that we re-frame and re-view comics history. Chapters cover a wide array of intersectional topics including Queer Underground and Alternative comics, Feminist Autobiography, re-drawing disability, Latina testimony, and re-evaluating the critical whiteness and masculinity of superheroes in this first truly global reference text to gender and sexuality in comics. Comics have always been an important place for the radical exploration of feminist and non-binary sexualities and identities, and the growth of non-normative comic book traditions as a field of inquiry makes this an essential text for upper-level undergraduates, postgraduates, and researchers studying Comics Studies, Women's and Gender Studies, Literary Studies, and Cultural Studies.

**Managing Cultural Festivals** Jan 22 2021 This book aims at renewing the attention on a niche field, Cultural Festivals, so important for valorizing cultural traditions and local heritage visibility as well as social well-being. Following the disruptive consequences of the COVID-19 pandemic, this fragile sector deserves more attention from public authorities and stakeholders at national and European levels with a suitable and dedicated plan of recovery and valorization. This book provides a comparative analysis of Cultural Festivals in Europe, taking insights from an international range of high-level scholarly contributors. Individual chapters highlight and analyse challenges around the organisation, management and economics of Cultural Festivals. As a whole, the book provides a comprehensive overview of scholarly research in this area, setting the scene for the future research agenda. Matters related to educational programs and new audience development, as well as challenges related to digitalization, are also included. The book employs a tradition versus innovation lens to help readers account for the consequences of the digital revolution, new audience development and an educational agenda. The result is a book which will be valuable reading for researchers, academics and students in the fields of event and cultural management and beyond. Chapters 4 and 9 of this book are available for free in PDF format as Open Access from the individual product page at [www.routledge.com](http://www.routledge.com). They have been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license.

**Linguistics and the Study of Comics** Jun 26 2021 Do Irish superheroes actually sound Irish? Why are Gary Larson's Far Side cartoons funny? How do political cartoonists in India, Turkey, and the US get their point across? What is the impact of English on comics

written in other languages? These questions and many more are answered in this volume, which brings together the two fields of comics research and linguistics to produce groundbreaking scholarship. With an international cast of contributors, the book offers novel insights into the role of language in comics, graphic novels, and single-panel cartoons, analyzing the intersections between the visual and the verbal. Contributions examine the relationship between cognitive linguistics and visual elements as well as interrogate the controversial claim about the status of comics as a language. The book argues that comics tell us a great deal about the sociocultural realities of language, exploring what code switching, language contact, dialect, and linguistic variation can tell us about identity – from the imagined and stereotyped to the political and real.

EARTH 2 VOL. 6: COLLISION collects issues #27-32.

*Postcolonial Comics* Jan 02 2022 This collection examines new comic-book cultures, graphic writing, and bande dessinée texts as they relate to postcolonialism in contemporary Anglophone and Francophone settings. The individual chapters are framed within a larger enquiry that considers definitive aspects of the postcolonial condition in twenty-first-century (con)texts. The authors demonstrate that the fields of comic-book production and circulation in various regional histories introduce new postcolonial vocabularies, reconstitute conventional "image-functions" in established social texts and political systems, and present competing narratives of resistance and rights. In this sense, postcolonial comic cultures are of particular significance in the context of a newly global and politically recomposed landscape. This volume introduces a timely intervention within current comic-book-area studies that remain firmly situated within the "U.S.-European and Japanese manga paradigms" and their reading publics. It will be of great interest to a wide variety of disciplines including postcolonial studies, comics-area studies, cultural studies, and gender studies.
