**700,000 former prisoners who rejoin society each year. *On the Outside* examines the lives of twenty-two people—varied in race and gender but united by their time in the criminal justice system—as they pass out of the prison gates and back into the world. The book takes a clear-eyed look at the challenges faced by formerly incarcerated citizens as they try to find work, housing, and stable communities. Standing alongside these individual portraits is a quantitative study conducted by the authors that followed every state prisoner in Michigan who was released on parole in 2003 (roughly 11,000 individuals) for the next seven years, providing a comprehensive view of their postprison neighborhoods, families, employment, and contact with the parole system. *On the Outside* delivers a powerful combination of hard data and personal narrative that shows why our country continues to struggle with the social and economic reintegration of the formerly incarcerated. **Eighth-grader Alice has lots of questions about sex, relationships, prejudice, and change. From the passage of Bill C-10, with its punitive, tough-on-crime provisions, to sensationalist media accounts of dangerous ex-convicts, it is no wonder that Canada is perceived as a country increasingly taking a hard line on crime. In**

reality, the vast majority of prisoners who serve out their sentences will never see the inside of a prison cell again. **On the Outside** explores the post-carceral lives of men who have successfully resettled into the community after serving at least a decade in Canada's penitentiaries. Exploring the transition from imprisonment to the challenges of resettlement, this book will change the way you think about prisoners and open up the discussion on the perils of tough-on-crime legislation. From the hosts of Bravo's **Backyard Envy** comes a beautifully photographed guide to converting your outdoor space into an enviable oasis, whether you have a backyard, brownstone patio, or three-season porch. Dubbed the "plantfluencers" by the New York Times, Mel Brasier, Garrett Magee, and James DeSantis, owners of the Manscapers landscaping company, do more than plant, mulch, and manicure a garden; they look at the space just as interior designers do a room, considering the aesthetics and the way people live in it. Now they show you how to apply familiar interior design principles to your outdoors, including: Deciding on a concept to help direct the mood of your space "Zoning" your space into functional areas, such as for lounging, cooking, or entertaining Defining the areas with furniture and hardscaping like fencing, decking, pools, planters, pergolas, and pathways Bringing in the green, including plants

that are both functional (privacy shrubs and shade trees) and decorative (pretty perennials, climbers, and textural grasses) Adding the finishing touches: the pillows, throws, hurricane lanterns, and other details that will make you want to linger long after sunset Plus, you'll have information on hiring a contractor and landscaper and the specific materials and plants the Manscapers love to use in their designs. No matter how big or small your exterior space, this ultimate guide to landscape design will help you bring the comfort of the indoors outside. Lead from the Outside is a necessary guide to harnessing the strengths of being an outsider by Stacey Abrams, one of the most prominent black female politicians in the U.S. Leadership is hard. Convincing others—and often yourself—that you possess the answers and are capable of world-affecting change requires confidence, insight, and sheer bravado. Stacey Abrams's Lead from the Outside is the handbook for outsiders, written with the awareness of the experiences and challenges that hinder anyone who exists beyond the structure of traditional white male power—women, people of color, members of the LGBTQ community, and millennials ready to make a difference. In Lead from the Outside, Stacey Abrams argues that knowing your own passion is the key to success, regardless of the scale or target. From launching a company, to

**starting a day care center for homeless teen moms, to running a successful political campaign, finding what you want to fight for is as critical as knowing how to turn thought into action. Stacey uses her experience and hard-won insights to break down how ambition, fear, money, and failure function in leadership, while offering personal stories that illuminate practical strategies. Stacey includes exercises to help you hone your skills and realize your aspirations. She discusses candidly what she has learned over the course of her impressive career: that differences in race, gender, and class are surmountable. With direction and dedication, being in the minority actually provides unique and vital strength, which we can employ to rise to the top and make real change. "Strong on the Outside, Dying on the Inside is a wonderfully written tribute to faith, courage, hope and healing." Don't be fooled by the small size of this book. In it, Lisa Brown packs a powerful message of liberation: With the help of God and qualified professionals, Black women can break free from depression. A successful businesswoman in Washington, D.C., Lisa uses her own experience and the Biblical story of Hannah to shed light on the unspoken sadness that plagues so many Black women today. With the energy, humor and compassion of a close girlfriend, she describes the signs of depression and charts a way out.**

**Depression is an equal-opportunity illness. But Black women - especially those who consider themselves strong - are particularly reluctant to seek help: Only 12 percent of those affected receive treatment. Why this resistance? Citing contemporary experts, Lisa points to reasons rooted in African American culture: the widespread belief that depression is nothing more than a bad attitude, a case of the blues, or a sign of personal weakness. Emotional needs are not easily acknowledged by women who have been the backbone of their communities while enduring the harsh realities of slavery, bigotry and bias. What's more, many of these God-fearing, church-going women may resign themselves to depression, accepting their sadness as a fact of life that God, the church and their families expect them to bear. Lisa rejects that interpretation, reminding Black women that God offers them both joy and peace. She urges readers to draw on their inner strength not to deny depression, but to face and overcome it. Lisa calls herself "a living testimony to the value of good therapy and God's undeniable ability to heal depression." In these pages, she reaches out to strong Black women, inviting them to embrace the same blessing and recover a life of promise and purpose. **Eleven-year-old Ruby Danes has a real best friend for the first time ever, but agonizes over whether**

The record-holding two-time NBA champion and recently inducted hall-of-famer reflects on his work ethic, his on-the-court friendships and rivalries, the great teams he's played for, and what it takes to have a long and successful career in this thoughtful, in-depth memoir. Playing in the NBA for eighteen years, Ray Allen won championships with the Boston Celtics and the Miami Heat and entered the record books as the original king of the three-point shot. Known as one of the hardest-working and highest-achieving players in NBA history, this most dedicated competitor was legendary for his sharp shooting. From the Outside, complete with a foreword by Spike Lee, is his story in his words: a no-holds-barred look at his life and career, filled with behind-the-scenes stories and surprising revelations about the game he has always cherished. Allen talks openly about his fellow players, coaches, owners, and friends, including LeBron James, Kobe Bryant, and Kevin Garnett. He reveals how, as a kid growing up in a military family, he learned about responsibility and respect—the key to making those perfect free throws and critical three-point shots. From the Outside is the portrait of a gifted athlete and a

serious man with a strongly defined philosophy about the game and the right way it should be played—a philosophy that, at times, set him apart from colleagues and coaches, while inspiring so many others, and lead to the most pivotal shot of his career: the unforgettable 3-pointer in the final seconds of Game 6 of the 2013 NBA finals against the San Antonio Spurs. Throughout, Allen makes clear that success in basketball is as much about what happens off the court as on, that devotion and commitment are the true essence of the game—and of life itself. Essays at the intersection of philosophy and architecture explore how we understand and inhabit space. To be outside allows one a fresh perspective on the inside. In these essays, philosopher Elizabeth Grosz explores the ways in which two disciplines that are fundamentally outside each another—architecture and philosophy—can meet in a third space to interact free of their internal constraints. "Outside" also refers to those whose voices are not usually heard in architectural discourse but who inhabit its space—the destitute, the homeless, the sick, and the dying, as well as women and minorities. Grosz asks how we can understand space differently in order to structure and inhabit our living arrangements accordingly. Two themes run throughout the book: temporal flow and sexual specificity. Grosz argues that time, change, and emergence,

**traditionally viewed as outside the concerns of space, must become more integral to the processes of design and construction. She also argues against architecture's historical indifference to sexual specificity, asking what the existence of (at least) two sexes has to do with how we understand and experience space.**

**Drawing on the work of such philosophers as Henri Bergson, Roger Caillois, Gilles Deleuze, Jacques Derrida, Luce Irigaray, and Jacques Lacan, Grosz raises abstract but nonformalistic questions about space, inhabitation, and building. All of the essays propose philosophical experiments to render space and building more mobile and dynamic. Beautiful on the Outside looks at his journey from a homeschooled kid in Scranton, Pennsylvania, to a self-professed American sweetheart on the world stage and all the disasters and self-delusions it took to get him there. Yeah, it may be what's on the inside that counts, but life is so much better when it's beautiful on the outside. A memoir of a young woman, the product of a strict upbringing by conservative Indian parents, who decides to go on a Ram-Singha, her Indian version of the rumspringa, and learns how to dance, swim, drive, travel, and play in order to be happy. Rupinder Gill was raised under the strict rules of her parents' Indian upbringing. While her friends were practicing their pliés, having slumber parties, and spending their summers at camp, Rupinder was cleaning, babysitting her siblings, and watching hours on end of American television. But at age 30, Rupinder realized how much she regretted her lack of childhood adventure. Stepping away from an orderly life of tradition, Rupinder set out to finally experience the things she missed out on. From learning to swim and taking dance lessons, to going to Disney World, her growing to-do list soon became the ultimate trip down non-memory lane. What began as a desire to experience all that had been denied to her leads to a discovery of what it means to be happy, and the important lessons**

that are learned when we are at play.

Reminiscent of Mindy Kaling, this is a warm funny memoir of the daughter of Indian immigrants learning to break free and find her own path. High school junior Kayla and her two best friends have always been close. Even after Kayla becomes a cheerleader with a basketball star boyfriend, Riley falls in with the skaters, and Evan loses himself in school, the three remain dedicated to their promise to each other: to remain friends no matter what. But when a disastrous prom ends with Kayla single and her best friends dating, the strength of their bond will be tested. Because, as Kayla soon realizes, her feelings for Riley are more than just friendly. Dating a girl is something that's never crossed her mind before, but more than that, she can't bring herself to hurt Evan. As tension between the two girls grows, Kayla is forced to grapple with the fact that she might be bisexual, in love with Riley, and about to break their friendship apart. Funny and gentle, John Candy was loved by millions of movie fans for playing true-to-life characters. Whether as the irrepressible bon vivant in *Splash*, the misunderstood slob in *Uncle Buck*, or the generous lonely salesman in *Planes, Trains, and Automobiles*, John Candy struck a perfect balance between self-deprecating humor and irresistible, emotional warmth. **-Katherine S. Newman "Doing Time on the Outside brings to life in a compelling way the human drama, and tragedy, of our incarceration policies. Donald Braman documents the profound economic and social consequences of the American policy of massive imprisonment of young African American males. He shows us the link between the broad-scale policy changes of recent decades and the isolation and stigma that these bring to family members who have a loved one in prison. If we want to understand fully the impact of current criminal justice policies, this book should be required reading." -Mark Mauer,**

**"Through compelling stories and thoughtful analysis, this book describes how our nation's punishment policies have caused incalculable damage to the fabric of family and community life. Anyone concerned about the future of urban America should read this book." -Jeremy Travis, The Urban Institute**

**In the tradition of Elijah Anderson's Code of the Street and Katherine Newman's No Shame in My Game, this startling new ethnography by Donald Braman uncovers the other side of the incarceration saga: the little-told story of the effects of imprisonment on the prisoners' families. Since 1970 the incarceration rate in the United States has more than tripled, and in many cities-urban centers such as Washington, D.C.-it has increased over five-fold. Today, one out of every ten adult black men in the District is in prison and three out of every four can expect to spend some time behind bars. But the numbers don't reveal what it's like for the children, wives, and parents of prisoners, or the subtle and not-so-subtle effects mass incarceration is having on life in the inner city. Author Donald Braman shows that those doing time on the inside are having a ripple effect on the outside-reaching deep into the family and community life of urban America. Braman gives us the personal stories of what happens to the families and communities that prisoners are**

taken from and return to. Carefully documenting the effects of incarceration on the material and emotional lives of families, this groundbreaking ethnography reveals how criminal justice policies are furthering rather than abating the problem of social disorder. Braman also delivers a number of genuinely new arguments. Among these is the compelling assertion that incarceration is holding offenders unaccountable to victims, communities, and families. The author gives the first detailed account of incarceration's corrosive effect on social capital in the inner city and describes in poignant detail how the stigma of prison pits family and community members against one another. Drawing on a series of powerful family portraits supported by extensive empirical data, Braman shines a light on the darker side of a system that is failing the very families and communities it seeks to protect. Chronicles the life of Elaine Bartlett, a woman who spent sixteen years in prison for selling cocaine, tracing her steps as she is released from prison and tries to reconstruct her life. Alice and Tally have ruled St. Cecilia's, their private boarding school just outside of London, for years. But when Dylan, the American girl Tristan summered with in the Hamptons, transfers to St. Cecilia's, high expectations dissolve into broken hearts, jealousies, and revenge plots that will change everything. Winner, CODE's 2016 Burt Award for First Nation, Inuit and Métis Literature In this important graphic novel, two brothers surrounded by poverty, drug abuse, and gang violence, try to overcome centuries of historic trauma in very different ways to bring about positive change in their lives. Pete, a young Indigenous man wrapped up in gang violence, lives with his younger brother, Joey, and his mother who is a heroin addict. One night, Pete and his mother's boyfriend, Dennis, get into a big fight, which sends Dennis to the morgue and Pete to jail. Initially, Pete keeps up ties to his crew, until a jail brawl forces him to realize the negative influence he has become on Joey, which encourages him to begin a process of rehabilitation that includes traditional Indigenous healing circles and ceremonies. Powerful, courageous, and deeply moving, The Outside Circle is drawn from the author's twenty years of work and research on healing and reconciliation of gang-affiliated or incarcerated Indigenous men. On The Outside Looking In springs from the heart of Akili Kumasi who shares much of what he learned while striving to be a good father. Although separated from his two sons because of the divorce from their mother, Akili remains an integral part of their lives. **Here be Monsters ] Why has there been so much interest in “surplus value” in recent years? In “The Outside Can't Go Outside”, artist Merlin Carpenter considers how this term has been inserted into contemporary art theory following the financial crisis of 2007/8. The book focuses on the idea that the value of art is located in unpaid mental, educational, and communicational labor that is gradually accrued and then exploited according to the logic of Marx's central thesis on exploitation. This much-hyped view is rejected in favor of a more rigorous Marxist interpretation of the nature of surplus value, and its role in a systematic law of value. Carpenter counterposes value to what exists outside of it—a dream, an imaginary, what he describes as a “trance” or the location of revolutionary thought and desires. The outside, however, is not proposed as a physical location, but as an outside inside the body that functions as a line of control within. Moreover, the author suggests that the new revolutionary subjects might be the new groups that form in order to push against control networks, in a reordering of class struggles. Death is an unwanted intruder that comes to every family at some time, and this book is an attempt to provide answers to questions that arise for those experiencing personal loss. The author and illustrator, Joan Summer, bases the narrative on events that occurred in her family, and her desire is that it might provide comfort and assurance to young readers. The Christian point of view regarding death is presented simply, at a child's level, in thoughtful prose and winsome drawings. This is a warm and timeless story written to give hope and inspiration to children and their parents as well. Deciding that she cannot stand to live with either of her estranged parents, teenage Tracey flees to New York City and finds work as a topless dancer in a series of sleazy bars. By the time Timber Marlow is fifteen years old, she has already killed three men. Despite the bloody and violent nature of their deaths, Timber is hardly a murderer, at least not in the traditional sense of the word. She has lived her entire life as a cannibal within a cult tucked away in the San Bernardino Mountains called the Divinity of Feminine Reproach. She watches rituals where Divinity members are tied down and beheaded by their leader, Daddy Marlow. The

**Divinity keeps itself isolated from the Outside, which is the mainstream society beyond its invisible borders. When the opportunity presents itself, Timber escapes into the Outside, bearing witness to some dark and unsettling truths about the world around her and the integral role she plays in it. But no matter how long she stays away, Timber finds out the past isn't as far away as she thinks it is. In this debut novel, laced with scenes of horrific violence and uplifting humanity, Martin Lastrapes has written a one-of-a-kind story about love, friendship, sacrifice and cannibalism. Caged in on the Outside is an intimate ethnographic exploration of the ways in which Minangkabau people understand human value. Minangkabau, an Islamic society in Indonesia that is also the largest matrilineal society in the world, has long fascinated anthropologists. Gregory Simon's book, based on extended ethnographic research in the small city of Bukittinggi, shines new light on Minangkabau social life by delving into people's interior lives, calling into question many assumptions about Southeast Asian values and the nature of Islamic practice. It offers a deeply human portrait that will engage readers interested in Indonesia, Islam, and psychological anthropology and those concerned with how human beings fashion and reflect on the moral meanings of their lives. Simon focuses on the tension between the values**

**of social integration and individual autonomy—both of which are celebrated in this Islamic trading society. The book explores a series of ethnographic themes, each one illustrating a facet of this tension and its management in contemporary Minangkabau society: the moral structure of the city and its economic life, the nature of Minangkabau ethnic identity, the etiquette of everyday interactions, conceptions of self and its boundaries, hidden spaces of personal identity, and engagements with Islamic traditions. Simon draws on interviews with Minangkabau men and women, demonstrating how individuals engage with cultural forms and refashion them in the process: forms of etiquette are transformed into a series of symbols tattooed on and then erased from a man's skin; a woman shares a poem expressing an identity rooted in what cannot be directly revealed; a man puzzles over his neglect of Islamic prayers that have the power to bring him happiness. Applying the lessons of the Minangkabau case more broadly to debates on moral life and subjectivity, Simon makes the case that a deep understanding of moral conceptions and practices, including those of Islam, can never be reached simply by delineating their abstract logics or the public messages they send. Instead, we must examine the subtle meanings these conceptions and practices have for the people**

**who live them and how they interact with the enduring tensions of multidimensional human selves. Borrowing a Minangkabau saying, he maintains that whether emerging in moments of suffering or flourishing, moral subjectivity is always complex, organized by ambitions as elusive as being “caged in on the outside.” Compared to the literature on the impact of post-secondary institutions on undergraduate institutions, the literature on the academic experiences of graduate students from underrepresented populations is comparatively meager. This book remedies this gap by gathering a rich collection of personal narratives and empirical research to provide a comprehensive account of the actual lived experiences of graduate students of color and their perception of the campus climate. This volume examines issues of access, retention, and transition; and explores the personal experiences of students of color in advanced-degree programs. The contributors cover issues such as financial aid; the culture, mission and racial climate at doctoral granting institutions; the transitional challenges STEM undergraduates face on entering graduate programs; mentoring; the distinct concerns and challenges that African, Asian and Latina/o students encounter in doctoral and professional programs; and the need to acknowledge and support their**

Franklin Tuitt concludes the book by summarizing the issues raised, and making recommendations to faculty, administrators, and directors of graduate programs about what they can do to promote the well-being and success of graduate students of color.
