Excerpt from Fifty-Third Annual Report of the Board of School Directors of the City of Milwaukee: For the Year Ending June 30, 1912
During the year now ended, work was begun upon an addition to the North Division High School, which will be completed and ready for occupancy at the opening of school in September. At the South Division High School, the addition for manual training was completed in September, but we were compelled to make use of the added space for class room purposes. The new southeast wing is

being constructed and will doubtless be ready for occupancy this fall, making the manual training addition available for the purposes for which it was built. The addition to the Ninth Street School was completed in October and that of the Thirty-seventh Street School in February, and the work of constructing the Trade School for Boys is progressing with such rapidity that it will be ready for occupancy this fall, making it possible for the introduction of at least two new trades.
