*Becoming Clara Schumann* Apr 20 2023 Well before she married Robert Schumann, Clara Schumann was already an internationally renowned pianist, and she concertized extensively for several decades after her husband's death. Despite being tied professionally to Robert, Clara forged her own career and played an important role in forming what we now recognize as the culture of classical music. *Becoming Clara Schumann* guides readers through her entire career, including performance, composition, edits to her husband's music, and teaching. Alexander Stefaniak brings together the full run of Schumann's concert programs, detailed accounts of her performances and reception, and other previously unexplored primary source material to illuminate how she positioned herself within larger currents in concert life and musical aesthetics. He reveals that she was an accomplished strategist, having played roughly 1,300 concerts across western and central Europe over the course of her six-decade career, and she shaped the canonization of her husband's music. Extraordinary for her time, Schumann earned success and prestige by crafting her own playing style, selecting and composing her own concerts, and acting as her own manager. By highlighting Schumann's navigation of her musical culture's gendered boundaries, *Becoming Clara Schumann* details how she cultivated her public image in order to win over audiences and embody some of her field's most ambitious aspirations for musical performance.

[The Englishwoman's Review of Social and Industrial Questions](#) Nov 22 2020 *The Englishwoman's Review*, which published from 1866 to 1910, participated in and recorded a great change in the range of possibilities open to women. The ideal of the magazine was the idea of the emerging emancipated middle-class woman: economic independence from men, choice of occupation, participation in the male enterprises of commerce and government, access to higher education, admittance to the male professions, particularly medicine, and, of course, the power of suffrage equal to that of men. First published in 1979, this twentieth volume contains issues from 1887. With an informative introduction by Janet Horowitz Murray and Myra Stark, and an index compiled by Anna Clark, this set is an invaluable resource to those studying nineteenth and early twentieth-century feminism and the women's movement in Britain.

*Accenting the Classics* Nov 03 2021 Brings new insights to the music of well-known European composers by telling a fascinating, little-known story about French music publishing, specifically through the lens of Jacques Durand's Édition Classique. French composers, performers and musicologists acted as editors of eighteenth- and nineteenth-century European 'classics', primarily for piano. Among these editors were Fauré, Saint-Saëns, Debussy, Ravel and Dukas; the objects of their enquiries included core works by Rameau, Bach, Mozart, Beethoven, Mendelssohn, Schumann and Chopin. Presenting six composer-editor case studies, the volume shows that the French 'accent', both musical and cultural, upon this predominantly Austro-German music was highly varied. Editorial responses range from scholarly approaches to those directed by performance or compositional agendas, and from pan-European to strongly patriotic stances. Intriguing intersections are revealed between old and new, and between French and cross-European canons. Beyond editing, the book explores the Édition's role in pedagogy and performance, including by pianists Robert Casadesus and Yvonne Loriod, and in the reassertion of contemporary French composition, especially regarding innovation around neoclassicism. It will interest a wide readership, including musicologists, performers and concert-goers, cultural historians and other humanities scholars.

**Johann Nepomuk Hummel** Aug 20 2020 Johann Nepomuk Hummel (1778-1837) was an influential teacher, composer, and musical innovator considered by many to be the greatest pianist of Europe in his lifetime. Hummel played a significant part in the transformation of musical style during the late eighteenth and early nineteenth centuries; he was one of the first professional musicians to take on multiple roles as both an artist and an entrepreneur--a model that continues to be followed to this very day. *Johann Nepomuk Hummel: A Musician's Life and World* is the first

English-language study of this important composer and performer. Its thirteen chapters focus on different aspects of Hummel's life, music, and career, such as his family and early years, his experiences living under the regime of the Habsburg monarchy, and his personal and musical relationships with important composers of both the classical and romantic periods, including Mozart, Haydn, Beethoven, Schumann, Liszt, and Chopin. Author Mark Kroll gives a survey of Hummel's legacy as a performer and composer, placing his life and works within the context of the social, political, economic, and cultural transformations occurring at the time. Kroll offers a complete picture of this pivotal juncture in music history and the role of the musician in that society as well as our own. Numerous musical examples are also included. An appendix providing the original language version of all translations, an exhaustive bibliography, and a complete, annotated list of Hummel's works conclude this invaluable treatise.
