A special field trip on the magic school bus gives a look at major parts of the body and how they work. The kids in Ms. Frizzle's class are getting ready for the Wild Weather Show. To prepare, they take a field trip to the Weatherama Amusement Park. The class finds out just how wild weather can be when they accidentally fly right into a powerful tornado. Bailey, Julie, and Kate are super excited! The three friends have turned eight years old, which means they can finally go to Miss Annie's Magic School, where they'll learn to fly on brooms, cast magic spells, and learn important lessons as they study to become witches. But Miss Annie's School isn't always easy. Bailey is worried that her classmates think she's the teacher's pet. When she gets teased on the playground, Bailey stops raising her hand in class and she doesn't find Miss Annie's School very much fun. Can Bailey face her problems, ignore the teasing, and be herself? Read all about it in this fun and magical book for kids aged 6-8. The Magic School for Girls Chapter Books are a collection of illustrated stories that can be read in any order. Rock collecting has never been quite like this! When the class forgets to do its homework, a fieldtrip through the Earth's crust, into the center of the Earth, and out through a volcano will teach them not to forget their assignments again. Once again, Ms. Frizzle gets her class right in the "thick" of things--this time, they're right in the thick ooze of an underwater volcano's magma chamber! As Arnold and Carlos watch from a raft above, the Magic School Bus "erupts" with the magma and lava, and lands atop a brand-

new island! Full color. Grab life by the horns! In a world where horns are the defining trait of magic beings, larger horns mean more powerful magic! Eru, a freshman at a school for magic, is self-conscious about how tiny his horns are compared to those of his new classmates -- Not only is his magic so weak it is barely noticeable, but things have a habit of going awry when he is around. He is the complete opposite of Rihito, one of the top students of their grade with exceptionally strong magic...who is Eru's roommate!? And already seems to hate him!? With their continued encounters, will Eru continue to discover just how inferior his strength is? Or maybe, he just might find some power of his own... In this book, I share with you an alternative to the 'school' of today. A way of creating the conditions for you to go on an adventure with children. Education should not be a predetermined journey with map already drawn, with no ability to leave the path or pause. It should be a co-adventure. This co-adventure can only take place when we take the first step into the unknown. This can feel daunting and can open us up to questions and uncertainty. However, once we do take that first step, an adventure lies ahead like no other – an adventure so magical that it can and will change everything. And the reason that this adventure is so special is that it will take you into the very soul of children and of yourself. In these pages, I offer you an invitation. It comes from my head and heart to speak to yours. It is not didactic. It is a way to create the conditions for the magic of children to thrive. - Greg

Determined to become a wizard, twelve-year-old Randal is delighted to be accepted into the famed School of Wizardry, but his apprenticeship is marred when he realizes that one of the master wizards is using evil spells to destroy the school and gain supreme power. When unusual powers kindle inside them, Conner, Lexa, and Melanie discover that their teachers are powerful magi too and the students are exhilarated to add fighting evil to their daily classes--until the dark forces of the Umbra kidnap Melanie's young sister as part of a grotesque experiment. Can an impoverished earl find treasure with the aid of a runaway bride and a ghost? Refusing to fill her drunken stepfather's coffers by marrying a wealthy American, Lady Iona Malcolm Ross flees her Highland estate for Wytan castle, a home for stray Malcolm females. She's quite content to tend her precious queen bee and hives there—until the day the

castle's owner returns. Unless Gerard, Earl of Ives and Wystan, can squeeze more income out of his estate, he'll have to close the family's deteriorating castle and evict the tenants. The sharp-tongued beekeeper who nearly kills him with her bees is simply another good reason. But lately, an artifact in his pocket weirdly whispers of treasure at Wystan, in the knowledgeable voice of a Roman soldier. A busy man with interests in law and archeology, Gerard isn't much inclined to believe that he's one of his family's psychic eccentrics. Until news of a ten-thousand pound reward for the return of Lady Iona, a runaway bride, introduces a whole new perspective to the word treasure. Even if he weren't allergic to Iona's bees, he needs to marry money, and she is penniless. But surely, between them, they can claim the reward and still turn her wicked stepfather's plot on its head—without endangering their lives or hearts.

An inept wizard-in-training is the only one who can save his classmates from the terrible sorcery that threatens to devour their magical school. Acclaimed master fantasist Jane Yolen imagines an academic world of wonders where paintings speak, walls move, monsters are made real, and absolutely anything can happen—as she introduces readers to a hero as hapless as the legendary Merlin is powerful. It was Henry's dear ma who decided to send him off to Wizard's Hall to study sorcery, despite the boy's apparent lack of magical talent. He has barely stepped through the gates of the magnificent school when he is dubbed Thornmallow ("prickly on the outside, squishy within"). Still, regardless of his penchant for turning even the simplest spell into a disaster, Thornmallow's teachers remain kind and patient, and he soon has a cadre of loyal, loving friends. But there is something that no one is telling the boy: As the 113th student to enroll in the wondrous academy, Thornmallow has an awesome and frightening duty to fulfill—and failure will mean the destruction of Wizard's Hall and everyone within its walls. Julie, Kate, and Bailey are super excited! The three friends have turned eight years old, which means they can finally go to Miss Annie's Magic School, where they'll learn to fly on brooms, cast magic spells, and learn important lessons as they study to become witches. Having discovered that Kinoe Tsukasa was behind the attack on Tatsuya, Honoka and her friends follow him--but it's a trap! With thoughts of Miyuki filling his head, will he emerge triumphant in this thrilling conclusion? Emily is a teenage girl pulled from our world into a world of magic and mystery by a necromancer who intends to sacrifice her to the dark gods. Rescued in the nick of time by an enigmatic sorcerer, she discovers that she possesses magical powers and must go to Whitehall School to learn how to master them. There, she learns the locals believe that she is a "Child of Destiny," someone whose choices might save or damn their world... a title that earns her both friends and enemies. A stranger in a very strange land, she may never fit into her new world... ..and the necromancer is still hunting her. If Emily can't stop him, he might bring about the end of days. Ms. Frizzle takes her kids on a whirlwind tour, from the Arctic to the equator so they can see telltale signs of climate change. Ms. Frizzle and her class visit the Hugh Mann Costume Company to learn all about skeletons: why we need them, what different bones are for, how doctors fix them when they're broken, and lots more. Illustrations. When Ms Frizzle's class can't find any bugs for their science fair project, they don't know what to do. After all, they can't learn about bugs if they can't see bugs. But Ms. Frizzle has the perfect solution: They can be bugs. The Magic School Bus gang finds out that there is a whole wide world to discover when it comes to bugs. Can a straitlaced engineer, three psychic children, and a lonely witch find love? The daughter of an earl, Lady Phoebe Malcolm Duncan has the ability to talk to animals. She longs to be a veterinarian, but

education requires more coin than she possesses. When the walls of her home come tumbling down, she has to take two steps back—to servitude. Inventor Andrew Blair keeps his nose to the grindstone, knowing his friends and family depend on his talent for turning machines into money. He is about to embark on his biggest investment yet—rebuilding crumbling tenements in Old Town Edinburgh—until his beleaguered cousin begs him to hide his precocious children from a killer. When the School of Malcolms sends Lady Phoebe as governess for his wards, Drew’s well-ordered beliefs are upended. Ladies don’t live in slum housing like the one he’s about to tear down, nor do they command ravens or encourage children to talk to dead mothers. It might take a vengeful ghost to show the disparate pair how to join forces, fight their fears and their enemies, and reveal a path to love. For use in schools and libraries only. Ms. Frizzle and her class take field trips to extraordinary places using their magic school bus. Illustrations by Bruce Degen.
