A collection of English and foreign documents referring to events in the history of Malta...during the years from 1792 to 1815. In accordance with Article 102 of the Charter and the relevant General Assembly Resolutions, every treaty and international agreement registered or filed and recorded with the Secretariat since 1946 is published in the United Nations Treaty Series. At present, the collection includes about 30,000 treaties reproduced in their authentic languages, together with translations into English and French, as necessary. The Treaty Series, where treaties are published in the chronological order of registration, also provides details about their subsequent history (i.e., participation in a treaty, reservations, amendments, termination, etc.). Comprehensive Indices covering 50-volume-lots are published separately. A Standing Order service is available for the Series and out-of-print volumes are available on microfiche. Each half-year consists of two volumes, *Partie médicale* and *Partie paramédicale*. "Fresh as the breezes of that ocean to which they owe their inspiration, the 'chanties' and songs here collected come to us as a most interesting and unique contribution to our literature of the sea. For this volume contains no mere study-compilation of more or less authentic sea ditties, mingled with the nautical effusions of landsmen. It is original in its conception and execution. With one or two trifling exceptions, it is a collection of what may be styled 'the genuine article'--not the creation of landsmen written for or about sailors, but the actual 'working songs' of the sea that were in use at the present time. Still further, this book contains not merely the ditties of our own Jack Tars, but a selection of the sea-songs of nearly all maritime nations, translated and ably commented on, from a literary, musical, and nautical point of view, together with a good deal of interesting information regarding them." --Introductory note.
