The title says it all: Five Practice Tests for the Upper Level ISEE. These tests are carefully calibrated to match the style, format, content and difficulty of the actual ISEE. Questions are based on specifications from the Educational Records Bureau, which administers the test (and does not endorse this book). Questions also adhere to standards established by the National Council of Teachers of Mathematics and the National Council of Teachers of English, both of which are identified by ERB as sources of ISEE material. Please note that unscored questions are not included on these tests. Since the actual ISEE contains some unscored questions, these tests are slightly shorter than the actual ISEE. Also, please note that answer explanations are not provided in the current edition. CREATED FOR THE REDESIGNED EXAM! To improve your memory you must increase the number and variety of your mental associations. When you learn new words, make sure you learn them in a context. It is far easier to remember a picture than an abstract concept. So the trick to remember an abstract word, is to turn it into a picture. And..... It is much easier to picture a sentence rather than picture a word in isolation. When you create the picture, make sure it meets one or more of the following criteria so that it 'sticks'. OUT OF PROPORTION - In all your images, try to distort size and shape. You can imagine things much larger than their normal size or conversely, microscopically small. SUBSTITUTION - You could visualise footballers kicking a television around a football pitch instead of a football, or pens growing on a tree instead of leaves. Substituting an out of place item in an image increases the probability of recall. EXAGGERATION - Try to picture a very large quantity in your images. MOVEMENT - Any movement or action is always easy to remember. HUMOUR - The funnier, more absurd and zany you can make your images, the more memorable they will be. Applying multiple combination of these five principles when forming your images will help make your mental associations truly outstanding and memorable. At first, you may find that you need to consciously apply one or more of the five principles in order to make your pictures sufficiently ludicrous. After a little practice however, you should find that applying the principles becomes an automatic and natural process. Some UNIQUE features of this book; -All the hard work done for you. Over 200 words converted into pictures utilizing the concepts above! -Focus on words likely to appear in the SSAT (Middle) & ISEE (Middle/Lower) Exams -Synonyms/Antonyms and Sentences for EACH word - Over 1500 high frequency SSAT/ISEE words in total! "As a mother of three, this book's practical road map for helping our kids learn independently is invaluable. This should be a must-read for all parents." --Jenna Bush Hager Drawing on extensive experience as classroom teachers and the directors of their highly regarded tutoring business, Abby and Brian address a range of common frustrations caused by homework. They answer the most pressing questions on every parent's mind: How much should I get involved, what does constructive help look like, and how can I help my child work independently? Taking the Stress out of Homework breaks down for parents exactly when and how to offer homework support. Whether your child's stress point is executive functioning--the ability to plan or organize--or a subject-specific struggle in math, reading, writing, or standardized test-preparation, Abby and Brian use real-life stories to provide individualized, actionable advice. At the center of Abby and Brian's philosophy is encouraging students to break free of the "let's get to the answer already so that we can be done with the assignment" mindset; they focus instead on a process-oriented approach that fosters engagement and self-sufficiency both in and out of school. Filled with expert tips about how to build executive functioning and content skills, Abby and Brian share stress-reducing best practices so homework not only supports what kids are learning, but also helps build confidence and skills that last a lifetime.
