**Berichte** Sep 27 2020 **Proceedings of the Seventh International Congress on Rock Mechanics, Aachen, Germany, Sept. 1991.** The first two volumes address rock mechanics and environmental protection, rock mechanics based on description of geological conditions, stability of rock slopes, and underground construction in rock. V

**Byzantium, Pliska, and the Balkans** Mar 02 2021 **MILLENNIUM** pursues an interdisciplinary approach transcending historical eras. The editorial board and the advisory board represent a wide range of disciplines - contributions from art and literary studies are just as welcome as historical, theological and philosophical contributions on both the Latin and Greek and the Oriental cultures. The **STUDIES** present relevant monographs or collections of papers from across the whole range of topics. The **YEARBOOK** contains authoritative articles. As the links between the various articles are sketched out in a comprehensive editorial, their diversity is intended to encourage dialogue between the disciplines and national research cultures. **MILLENNIUM** does not publish individual reviews, but does on occasions produce literature surveys. The languages of publication are principally English and German, but articles in French, Italian and Spanish can also be accommodated.

**O ye Gentlemen: Arabic Studies on Science and Literary Culture** Oct 09 2021 **O ye Gentlemen** explores two permanent and vital strands in Arabic culture: the Greek tradition in science and philosophy and the literary tradition. More than thirty essays demonstrate that the strands freely interweave within the broader scope of Schrifttum.

**The Alps** Aug 19 2022 Stretching 1,200 kilometres across six countries, the colossal mountains of the Alps dominate Europe, geographically and historically. Enlightenment thinkers felt the sublime and magisterial peaks were the very embodiment of nature, Romantic poets looked to them for divine inspiration, and Victorian explorers tested their ingenuity and courage against them. Located at the crossroads between powerful states, the Alps have played a crucial role in the formation of European history, a place of intense cultural fusion as well as fierce conflict between warring nations. A diverse range of flora and fauna have made themselves at home in this harsh environment, which today welcomes over 100 million tourists a year. Leading Alpine scholar Jon Mathieu tells the story of the people who have lived in and been inspired by these mountains and valleys, from the ancient peasants of the Neolithic to the cyclists of the Tour de France. Far from being a remote and backward corner of Europe, the Alps are shown by Mathieu to have been a crucible of new ideas and technologies at the heart of the European story.

**Progress in the Competitive Agenda in the Postal and Delivery Sector** Aug 07 2021 Regulation continues to be an important issue in the postal and delivery sector of the global economy. This latest volume in the **Advances in Regulatory Economics** series reflects the latest research on trends and policies affecting the postal sector and progress made in the industry's competitive agenda. It is global in scope and covers a broad range of legal and economic issues from leading scholars, researchers, and policy makers. Topics covered include: service quality and price caps, the impact of price regulation on service quality, financing the USO, cost analysis and pricing of innovative postal products, postal demand studies, the effects of intermedia competition; mail order demand; Internet advertising, trends in direct mail, legal and regulatory issues related to the postal sector, competitive strategies in the parcel market, and environmental impacts of mail. The book also provides concrete analyses of the driving forces underlying restructuring, transformation and privatization strategies of postal operators. Scholars and practitioners in public sector economics and postal regulation will appreciate this in-depth treatment of their industry.

**Advances in Artificial Intelligence, Software and Systems Engineering** Jun 28 2023 This book focuses on emerging issues following the integration of artificial intelligence systems in our daily lives. It focuses on the cognitive, visual, social and analytical aspects of computing and intelligent technologies, highlighting ways to improve technology acceptance, effectiveness, and efficiency. Topics such as responsibility, integration and training are discussed throughout. The book also reports on the latest advances in systems engineering, with a focus on societal challenges and next-generation systems and applications for meeting them. It also discusses applications in smart grids and infrastructures, systems engineering education as well as defense and aerospace. The book is based on both the **AHFE 2018 International Conference on Human Factors in Artificial Intelligence and Social Computing, Software and Systems Engineering, The Human Side of Service Engineering and Human Factors in Energy**, July 21–25, 2018, Loews Sapphire Falls Resort at Universal Studios, Orlando, Florida, USA.

**Globalization of Manufacturing in the Digital Communications Era of the 21st Century** Oct 21 2022 The International **PROLAMAT** Conference is an internationally well known event for demonstrating and evaluating activities and progress in the field of discrete manufacturing. Sponsored by the International Federation for Information Processing (IFIP), the **PROLAMAT** is traditionally held every three years and it includes the whole area of advanced software technology for Design and Manufacturing in Discrete Manufacturing. Past editions of the International **PROLAMAT** Conference have explored: - Manufacturing Technology, -Advances in CAD/CAM, -Software for Discrete Manufacturing, -Software for Manufacturing. The Eight International **PROLAMAT** held in 1992 (Tokyo), focused on the theme of Man in CIM. The 1995 **PROLAMAT** (Berlin), featured the theme of Life Cycle Modelling for Innovative Products and Processes. This past emphasis on human aspects and innovation provides a strong foundation for the next **PROLAMAT**. Under the

title: The globalization of manufacturing in the digital communications era of the 21st century: innovation, agility and the virtual enterprise, the 1998 conference expands the PROLAMAT scope to include teams and virtual enterprises which come together across space and time to develop new products and bring them to global markets. Manufacturing issues and information models have long been part of concurrent engineering; they are increasingly important in new product innovation and in the development of manufacturing plans and processes which span multiple companies along with multiple time zones.

**Aesthetic Dilemmas** Mar 26 2023 Hugo von Hofmannsthal (1874–1929) is frequently portrayed in cultural histories as an aloof writer with a precious style, out of step with modern sensibilities. In *Aesthetic Dilemmas* Marlo Burks reassesses Hofmannsthal's oeuvre and its place in twentieth-century European modernist aesthetics. Through an examination of a diverse range of Hofmannsthal's ekphrastic writings – including poetry, essays, opera libretti, fiction, and letters – Burks argues that Hofmannsthal's work aims to engage the consciousness and sensibility of readers, listeners, and viewers by way of dynamic encounters with works of art. *Aesthetic Dilemmas* thereby corrects a long-standing, flawed characterization of Hofmannsthal's work as escapist and demonstrates how his place in the Modernist movement has been misunderstood in most scholarship. The book is in dialogue with a broad range of critical voices and treats a variety of themes, from aestheticism to money, interpersonal relationships, suffering, poverty, labour, futurity, legacy, and hope. Translating numerous passages into English for the first time, *Aesthetic Dilemmas* gives English-speaking readers the chance to evaluate Hofmannsthal's literary merit and his contributions to the enduring conversation about art's relation to ethics.

**Advances in Life Cycle Engineering for Sustainable Manufacturing Businesses** Dec 31 2020 Life cycle engineering explores technologies for shifting industry from mass production and consumption paradigms to closed-loop manufacturing paradigms, in which required functions are provided with the minimum amount of production. This subject is discussed from various aspects: life cycle design, design for environment, reduce-reuse-recycle, life cycle assessment, and sustainable business models. This book collects papers from the 14th International CIRP Life Cycle Engineering Conference, the longest-running annual meeting in the field.

**Strategic Retail Management and Brand Management** Apr 26 2023 In this book a comprehensive coverage of major retailing topics and contemporary issues in retailing and branding is given, including many cases and practical examples. Besides introducing the topic strategic planning in retailing and fundamentals in the fields of the marketing mix in retailing, this book builds on e-tailing and digitalization. Moreover, trends and developments in consumer behavior and consumers' purchase decisions, especially in the fast moving consumer goods market, are explained. Furthermore, this book builds on the major topic strategic brand management and branding decisions in general and in particular within the retail landscape.

**Einstein from 'B' to 'Z'** Nov 29 2020 John Stachel, the author of this collection of 37 published and unpublished articles on Albert Einstein, has written about Einstein and his work for over 40 years. Trained as a theoretical physicist specializing in the theory of relativity, he was chosen as the founding editor of *The Collected papers of Albert Einstein* 25 years ago, and is currently Director of the Boston University Center for Einstein Studies. Based on a detailed study of documentary evidence, much of which was newly discovered in the course of his work, Stachel debunks many of the old (and some new) myths about Einstein and offers novel insight into his life and work. Throughout the volume, a new, more human picture of Einstein is offered to replace the plaster saint of popular legend. In particular, a youthful Einstein emerges from the obscurity that previously shrouded his early years, and much new light is shed on the origins of the special and general theories of relativity. Also discussed in some detail are Einstein's troubled relationship with his first wife, his friendships with other physicists such as Eddington, Bose, and Pauli, and his Jewish identity. The essays are grouped thematically into the following areas: \* The Human Side \* Editing the Einstein Papers \* Surveys of Einstein's Work \* Special Relativity \* General Relativity \* Quantum Theory \* Einstein and Other Scientists \* Book Reviews Because the essays are independent of one another, readers will be able to dip into this collection to satisfy varying interests. It will be of particular interest to historians of 20th century science, working physicists, and students, as well as to the many members of the general reading public who continue to be fascinated by aspects of Einstein's life and work.

**Uniformity of Customs Administration in the European Union** Sep 07 2021 Uniform customs administration is of great importance for the EU and the competitiveness of EU businesses in global trade. However, the EU's so-called executive federalism raises the potential for the non-uniform application of EU customs law. This problem has already arisen in the European Communities – Selected Customs Matters WTO dispute settlement. Therefore, the central research question of this book concerns the challenge presented to executive federalism in the EU Customs Union by the WTO. It also examines those safeguard measures for uniform customs administration which are in operation. Valuable empirical analysis of the decision-making procedures and practices of the national customs authorities allows for the fullest understanding of the operation of the customs administration. An important feature of the exploration is its analysis of the reform of EU customs law and of the effectiveness of the European Union's strategies to enhance uniform customs administration. That analysis helps to identify potential weak points in the decentralised administration of EU customs law and suggests ways in which it might be improved. Scholarly, rigorous and timely, this important study will be required reading for all scholars of EU customs law.

**Advanced Planning in Fresh Food Industries** Jun 04 2021 Production planning in fresh food industries is a challenging task. Although modern Advanced Planning and Scheduling (APS) systems could provide significant support, APS implementation numbers in these industries remain low. Therefore, based on an in-depth analysis of three sample fresh food industries (dairy, fresh and processed meat), the author evaluates what APS systems should offer in order to effectively support production planning and how the leading systems currently handle the most distinguishing characteristic of fresh food industries, the short product shelf life. Starting from the identified weaknesses, customized software solutions for each of the sample industries are proposed that allow to optimize the production of fresh foods with respect to shelf life. The book thereby offers valuable insights not only to researchers but also to software providers of APS systems and professionals from fresh food industries.

**Die DNA der Generation Z - der direkte Weg in ihr Mindset** Aug 31 2023 Die Generation Z (sog. Zoomer) umfasst die zwischen 1995 und 2010 geborenen jungen Leute. Diese "Gen Z" stellt die Kund:innen und Arbeitnehmer:innen der Zukunft dar. Und damit die entscheidende Zielgruppe für Unternehmen als Absender von Marken und Anbieter von Arbeitsplätzen. Dieses Buch möchte Verständnis für die "Gen Z" schaffen, die bisher viel zu oft missverstanden wurde. Es beschreibt, wer die Gen Z ist, bietet Insights zu ihren Ansprüchen, Bedürfnissen und Erwartungen und gibt Einblick in ihr Informations- und Konsumverhalten. Dadurch können Produkte, Dienstleistungen und Kommunikation an ihr ausgerichtet und die eigene Marke für diese Zielgruppe attraktiv gebrandet werden. Inhalte: Wie die Gen Z die Welt sieht Systemsprenger und Snowflake: Warum die Gen Z so vielfältig und zwiegestaltet ist Markenbeeinflusser: Wie die Gen Z Marken sieht und wie sie von ihnen angesprochen werden will Arbeitnehmermacht: Wie die Gen Z Arbeit sieht und warum sie die Arbeitswelt verändern wird Best-Practice-Beispiele und Studien zur Gen Z als Gesellschafts-, Konsum- und Arbeitnehmendengruppe Meinungen: Interviews mit Expert:innen zur Gen Z Die digitale und kostenfreie Ergänzung zu Ihrem Buch auf myBook+: Zugriff auf ergänzenden Materialien und Inhalte E-Book direkt online lesen im Browser Persönliche Fachbibliothek mit Ihren Büchern Jetzt nutzen auf mybookplus.de.

**Energy Efficiency in Motor Driven Systems** Apr 02 2021 This book reports the state of the art of energy-efficient electrical motor driven system technologies, which can be used now and in the near future to achieve significant and cost-effective energy savings. It includes the recent developments in advanced electrical motor end-use devices (pumps, fans and compressors) by some of the largest manufacturers. Policies and programs to promote the large scale penetration of energy-efficient technologies and the market transformation are featured in the book, describing the experiences carried out in different parts of the world. This extensive coverage includes contributions from relevant institutions in the Europe, North America, Latin America, Africa, Asia, Australia and

New Zealand.
