This book guides language teachers in planning and teaching activities that promote the development of speaking and listening skills at all levels of target language proficiency, for teachers of any modern language. Kathleen M. Bailey draws on her extensive experience as a language teacher, teacher educator, and language learner to interweave practical activities with the research and theory that support their use. Activities include the use of pictures, songs, drama techniques, tasks, and projects to promote the development of speaking and listening skills. The author shares reflections of her own and encourages readers to reflect on their own experiences and become aware of their existing mental constructs through multiple reflection tasks and discussion questions. Each chapter provides focusing questions. The systematic chapter structure scaffolds the readers' understanding of the concepts explored, which include communication strategies, interactive and non-interactive listening, speaking anxiety, accentedness and intelligibility, and much more. Through its companion website this book provides access to resources that enable readers to continue their own professional development as teachers of listening and speaking in second and foreign language contexts. Written by eminent linguist David Nunan, this concise text immerses readers in the complex, curious and continually evolving phenomenon that is at the centre of everything we do: language. It can be fascinating, puzzling and entertaining – and sometimes all of these at the same time. Featuring entertaining anecdotes and interesting

examples throughout, this book introduces readers to the foundations of language, namely its sounds, words and grammar, before illustrating how language is used in different ways in a variety of contexts. Fully updated and revised for the second edition, it covers a wide range of topics, including language variation and culture, second language acquisition and bilingualism. Students, teachers and non-specialists alike will enjoy this engaging and 'un-put-down-able' introduction to language and linguistics. Assuming no prior knowledge of applied or theoretical linguistics, it will appeal to anyone with an interest in language. New to this Edition: - Illustrated with examples taken from a range of different languages - New content on language and culture, language variation, second language acquisition, bilingualism and the impact of globalization on language use Perfect for summer school, before/after school intervention, community-based English tutoring programs, and dual-language instruction programs, GO FOR IT! develops students' school survival vocabulary and language skills through its lively pace, engaging topics, and variety of activities. Practical English Language Teaching Series: Grammar Practical English Language Teaching is designed as a special interest core text for teacher training courses offering numerous tips and techniques in the areas of teaching listening, speaking, reading, grammar, and young learners. Each title in the series offers vital background information and a wealth of helpful teaching strategies and techniques. This volume presents case studies of language learning beyond the classroom. The studies draw on a wide range of contexts, from North and South America to Europe and the Asia-Pacific region. Each provides principled links between theory, research and practice. While out-of-class learning will not replace the classroom, ultimately all successful learners take control of their own learning. This book shows how teachers can help learners bridge the gap between formal instruction and autonomous language learning. Although English is the primary focus of most chapters, there are studies on a range of other languages including Spanish and Japanese. This carefully crafted collection provides a snapshot of the evolution of David Nunan's theoretical and empirical contributions to the field of second language

education over the last 40 years. The volume focuses on the development of his work on second language curricula, and in particular, the work for which he is best known: learner-centered education and task-based learning and teaching. David Nunan has been a language teacher, researcher and consultant for 40 years. He has lived and worked in many countries, principally in the Asia-Pacific region, but also in the Americas, Europe and the Middle-East. Practical examples of how to develop teaching materials and tasks from sound principles provide rich illustrations of theoretical constructs. The content is presented through a lively variety of different textual genres including classroom vignettes showing language teaching in action, question and answer sessions, and opportunities to 'eavesdrop' on small group discussions among teachers and teachers in preparation. Readers get involved through

engaging, interactive pedagogical features and opportunities for reflection and personal application. Each chapter follows the same format so that readers know what to expect as they work through the text. Key terms are defined in a Glossary at the end of the book. David Nunan's own reflections and commentaries throughout enrich the direct, up-close style of the text. This guide is a collection of practical ideas for teaching listening skills to learners of a second language. Most are contributed by teachers of English as a Second Language, but the activities may be appropriate for other languages. Each idea is described briefly, with information given about appropriate proficiency level(s), specific aims, class time requirements, preparation time, needed resources, procedures, and caveats and options. The first section focuses on development of cognitive strategies: listening to the main idea; listening for details; and predicting. Section 2 contains activities that demonstrated the interlinked nature of listening with speaking, pronunciation, and vocabulary. The third section provides ideas for teaching aspects of stress, intonation, and register, particularly as they relate to pronunciation. A subsequent section deals with the use of technology in the listening classroom, and the next with listening for academic purposes, especially at the higher education level, where instruction is often provided in a second language. The final section draws together disparate tasks that deal with affective aspects of the listening process, using songs and relaxation techniques. An addendum includes tasks for dealing with problems in the listening classroom.
