[Paper Made!](#) Jan 28 2021 Announcing the biggest, best, most innovative book ever on paper craft. Even better, this is not about how to use costly, artsy paper, but how to turn stuff around the house—magazines and shopping bags, candy wrappers and paint sample cards, wrapping paper, old maps, and paper towel tubes—into stunning jewelry, gifts, home decor, party favors, and much more. Chances are you've seen the author's cutting-edge work in the windows of Anthropologie, where she is the chain's merchandising manager. An inveterate crafter who creates projects and styles photo shoots for magazines like Parents and Vogue Knitting, Kayte Terry takes the most versatile of materials and the most basic of crafts (remember snipping valentines out of construction paper?), and creates something completely transformative. Turn a sheaf of any white or graph paper into an amazing Scrap Happy Globe Lantern for the dining room. Fashion colored tissue paper into Songbird Votives, leftover raffle tickets into a Prizewinning Bowl, that out-dated pile of holiday catalogs into a picture frame. There's a necklace made of playing cards, a gum wrapper bracelet, and barrettes made by quilling—a paper technique that goes back to the Renaissance. Every project is photographed in full color, and includes step-by-step illustrations and instructions. Truly a book that shows how to think outside the (cardboard) box.

Accomplished library media specialist and arts instructor Kristin Fontichiaro discusses how drama, shadow puppetry, and podcasting can be used as tools to meet curriculum objectives in the K-8 media center. By concentrating on the process of creating a piece of drama or

puppetry or a podcast, as opposed to the goal of performance, and by infusing the arts with curriculum objectives in story or research, these techniques can intensify a child's learning and provide context for classroom curriculum objectives. A discussion of the affective and academic benefits of this process-based work as well as sample lessons are included. Photographs and examples of student work illustrate the techniques. Grades K-8.
