Grammar, Including Key

This is a book for reference and revision, especially for those in the early stages of studying the Persian language. It uses the official reformed spelling, and gives attention to handwriting, educated standard and educated colloquial pronunciation, and the important polite forms. The grammar is explained with copious examples, all shown both in Persian script and in Roman transliteration. The grammatical themes are grouped logically, and there are cross-references, appendices and a subject index to

facilitate the search for the right form. An introduction to Persian grammar, covering the rules of pronunciation, categories of word, Persian script, and “spoken” and “written” Persian, this book is ideal for all students of Persian and especially those who have no background in languages or linguistics. It is written in a non-academic style and does not use complex terminology or irrelevant grammatical categories. As a work of linguistics, it also describes the grammar of a lesser-taught language in an innovative and student-focused manner. No more

“articles”, “infinitives”, “irregular verbs”, “prepositions”, or “tenses”! Learn grammar the easiest, most efficient, and least time-consuming way possible with Persian Grammar. This work contains a wide range of common words and phrases for students studying contemporary and classical Persian literature. The grammar in this book is comprehensive, and contains all that is necessary for the student to become thoroughly familiar with the language. may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy. This book is the first authoritative survey of the historical developments of Persian grammar, from the first attested work some 200 years ago to the present day. It examines the development of Persian linguistic thought in five different periods, and analyses the underlying assumptions of the grammars belonging to each period in light of contemporary ideas on the nature of grammar and new frameworks for grammatical analysis. This

historical survey shows the profound influence of Arabic and Western linguistic thinking on the development of Persian grammar, as well as a dramatic shift of perspective from a traditional grammatical analysis to new and divergent procedures adopted by more recent schools of linguistics. The end result of this transition has culminated in less reliance on foreign influence and the emergence of more self-motivated, independent researchers in the uncharted territory of Persian grammar and its sub-components. The two comprehensive Persian and English glossaries at the

end of the book will enable readers to better understand the grammatical concepts covered here. Intermediate Persian: A Grammar and Workbook comprises an accessible grammar and related exercises in a single volume. Each of the fourteen units deals with a particular grammatical point and provides associated exercises to help learners reinforce and consolidate their knowledge. There are additionally four appendices covering colloquial, polite, literary and journalistic styles. Features include: clear, accessible format many useful language examples clear, jargon-free

explanations of grammar abundant exercises with full answer key units covering different levels of language a glossary of Persian-English terms that includes all Persian simple verbs and their roots subject index Intermediate Persian reviews many of the principle elements presented in its sister volume, Basic Persian, and introduces more advanced features and structures of the language. The two books form a compendium of the essentials of Persian grammar. User-friendly and engaging, Intermediate Persian is suitable for both class use and independent study, making it an ideal grammar

reference and practice resource for students and learners with some knowledge of the language. An Elementary Guide to Some Persian Grammatical Problems Mr Elwell-Sutton's book provides a simple grammatical framework for contemporary written Persian. It is based on the characteristic idiom and phraseology of the language as it is used in newspapers, magazines and

novels. The student is introduced to Persian script from the first lesson. Words are fully vocalized in the early lessons, but vowels are progressively discarded; they are, however, shown in the vocabulary. The letter-forms of printed Persian are used cursive scripts. Although the structure of the language is Mr Elwell-Sutton's immediate concern, he has given close attention to the

need for acquiring a workable vocabulary. The examples and exercises thus require only a limited vocabulary of words in fairly common use - about 1500 in all. The student is also given help with pronunciation; at the ends of lessons sample sentences from the exercises are printed with diacritics showing the intonation and stress of each syllable. At the end of the book there is a key to the lessons.
