Three Things You Need to Know About Rockets Sep 21 2020 In this inspiring, delightful memoir, a young woman decides to escape the daily grind and turn her “what if” fantasy into a reality, only to find work—and a man—she loves in one fell swoop, all in a secondhand bookstore in a quaint Scottish town. Jessica Fox was living in Hollywood, an ambitious 26-year-old film-maker with a high-stress job at NASA. Working late one night, craving another life, she was seized by a moment of inspiration and tapped “second hand bookshop Scotland” into Google. She clicked the first link she saw. A month later, she arrived 2,000 miles across the Atlantic in Wigtown, on the west coast of Scotland, and knocked on the door of the bookshop she would be living in for the next month . . . The rollercoaster journey that ensued—taking in Scottish Hanukkah, yoga on Galloway’s west coast, and a waxing that she will never forget—would both break and mend her heart. It would also teach her that sometimes we must have the courage to travel the path less taken. Only then can we truly become the writers of our own stories.

Stuff You Should Know Apr 09 2022 From the duo behind the massively successful and award-winning podcast Stuff You Should Know comes an unexpected look at things you thought you knew. Josh Clark and Chuck Bryant started the podcast Stuff You Should Know back in 2008 because they were curious—curious about the world around them, curious about what they might have missed in their formal educations, and curious to dig deeper on stuff they thought they understood. As it turns out, they aren't the only curious ones. They've since amassed a rabid fan base, making Stuff You Should Know one of the most popular podcasts in the world. Armed with their inquisitive natures and a passion for sharing, they uncover the weird, fascinating, delightful, or unexpected elements of a wide variety of topics. The pair have now taken their near-boundless "whys" and "hows" from your earbuds to the pages of a book for the first time—featuring a completely new array of subjects that they’ve long wondered about and wanted to explore. Each chapter is further embellished with snappy visual material to allow for rabbit-hole tangents and digressions—including charts, illustrations, sidebars, and footnotes. Follow along as the two dig into the underlying stories of everything from the origin of Murphy beds, to the history of facial hair, to the psychology of being lost. Have you ever wondered about the world around you, and wished to see the magic in everyday things? Come get curious with Stuff You Should Know. With Josh and Chuck as your guide, there’s something interesting about everything (...except maybe jackhammers).

What White Parents Should Know about Transracial Adoption Mar 08 2022 The White Fragility for transracial adoption—practical tools for nurturing identity, unlearning white saviorism, and fixing the mistakes you don't even know you're making. If you're the white parent of a transracially or internationally adopted child, you may have been told that if you try your best and work your hardest, good intentions and a whole lot of love will be enough to give your child the security, attachment, and nurturing family life they need to thrive. The only problem? It's not true. *What White Parents Should Know About Transracial Adoption* breaks down the dynamics that frequently fly under the radar of the whitewashed, happily-ever-after adoption stories we hear so often. Written by Melissa Guida-Richards—a transracial, transnational, and late-discovery adoptee—this book unpacks the mistakes you don't even know you're making and gives you the real-life tools to be the best parent you can be, to the child you love more than anything. From original research, personal stories, and interviews with parents and adoptees, you'll learn: What parents wish they'd known before they adopted—and what kids wish their adoptive parents had done differently What white privilege, white saviorism, and toxic positivity are...and how they show up, even when you don't mean it How your child might feel and experience the world differently than you All about microaggressions, labeling, and implicit bias How to help your child connect with their cultural heritage through language, food, music, and clothing The 5 stages of grief for adoptive parents How to start tough conversations, work with defensiveness, and process guilt

A Need to Know Mar 28 2021 UFOs remain essentially a military and intelligence problem - and one demanding unprecedented security and deception, with access to information on a strictly 'need to know' basis. As early as 1960 former CIA director Admiral Hillenkoetter confirmed that, 'Behind the scenes, high-ranking air force officers are soberly concerned about the UFOs. But through official secrecy and ridicule, many citizens are led to believe the unknown flying objects are nonsense.' The same could be said today. Based on many years of research by one of the world's most respected authorities on alien phenomena, *Need to Know* draws on top-secret documents, reports of encounters with large craft of unknown origin from pilots and personnel aboard aircraft carriers and destroyers and interviews with high-ranking military insiders. It is full of revelations, including the alarming escalation of aircraft accidents and the disappearance of hundreds of military aircraft during UFO encounters and recent near-misses with UFOs. The evidence is clear, balanced - and irrefutable. [Ten Global Trends Every Smart Person Should Know](#) Jun 11 2022 “I would say that learning this material ... has lifted some of the existential weight from me. Things aren’t as bad as they are trumpeted to be. In fact, they’re quite a bit better, and they’re getting better, and

so we’re doing a better job than we thought. There’s more to us than we thought. We’re adopting our responsibilities as stewards of the planet rapidly. We are moving towards improving everyone’s life.” —Jordan B. Peterson, *Beyond Order: 12 More Rules for Life* Think the world is getting worse? If so, you’re wrong. The world is, for the most part, actually getting better. But 58 percent of people in 17 countries who were surveyed in 2016 thought that the world was either getting worse or staying the same. Americans were even more glum: 65 percent thought the world was getting worse and only 6 percent thought it was getting better. The uncontroversial data on major global trends in this book will persuade you that this dark view of the state of humanity and the natural world is, in large part, badly mistaken. World population will peak at 8-9 billion before the end of this century, as the global fertility rate continues its fall from 6 children per woman in 1960 to the current rate of 2.4. The global absolute poverty rate has fallen from 42 percent in 1981 to 8.6 percent today. Satellite data show that forest area has been expanding since 1982. Natural resources are becoming ever cheaper and more abundant. Since 1900, the average life expectancy has more than doubled, reaching more than 72 years globally. Of course, major concerns such as climate change, marine plastic pollution, and declining wildlife populations are still with us, but many of these problems are already being ameliorated as a result of the favorable economic, social, and technological trends that are documented in this book. You can’t fix what is wrong in the world if you don’t know what’s actually happening. *Ten Global Trends Every Smart Person Should Know* will provide busy people with quick-to-read, easily understandable, and entertaining access to surprising facts that they need to know about how the world is really faring.

Need to Know Apr 21 2023 Justice is music to the Sisterhood's ears as they delve into the dark side of celebrity—from the #1 New York Times bestselling author of *Crash and Burn*. Through all their missions and adventures, the tightknit group of friends who make up the Sisterhood have learned one vital lesson: everybody has a weak spot. In the case of Yoko Wong's dear friend Garland Lee, the multimillion-selling performer known as America's beloved songbird, that weak spot was trusting her lawyer, Arthur Forrester. For years, he's taken advantage of her faith in him to amass a secret fortune. And now, in the deepest betrayal yet, he's dragged her into a lawsuit that could cost her everything. The Sisterhood know they can't let that happen. Forrester has some of the country's top judges in his pocket, and a list of influential and ruthless friends—not to mention knowledge of all the ways the law can be corrupted to work in his favor. But he doesn't have the Vigilantes' deep-seated loyalty and determination. And all his years of underhanded dealings won't prepare him for the type of creative payback that the Sisters have made their specialty . . . As he conveys his profound awe at experiencing all the "firsts" that fill him with wonder and catch him completely unprepared, Fredrik Backman doesn't shy away from revealing his own false steps and fatherly flaws, tackling issues both great and small, from masculinity and mid-life crises to practical jokes and poop. In between the sleep-deprived lows and wonderful highs, Backman takes a step back to share the true story of falling in love with a woman who is his complete opposite, and learning to live a life that revolves around the people you care about unconditionally. Alternating between humorous side notes and longer essays offering his son advice as he grows up and ventures out into the world, Backman relays the big and small lessons in life, including: -How to find the team you belong to -Why airports explain everything about religion and war -The reason starting a band is crucial to cultivating and keeping friendships -How to beat Monkey Island 3 -Why, sometimes, a dad might hold onto his son's hand just a little too tight This is an irresistible and insightful collection, perfect for new parents and fans of Backman's "unparalleled understanding of human nature" (*Shelf Awareness*). As he eloquently reminds us, "You can be whatever you want to be, but that's nowhere near as important as knowing that you can be exactly who you are."
