***This book introduces important contributions in the humanities by a select group of traditional and modern Korean women, from the 15th through the 20th centuries. The literary and artistic works of these women are considered Korean classics, and the featured artists and writers range from a queen, to a courtesan, to a Buddhist nun, to unknown women of Korea. Although women's works were generally meant only to circulate among women, these creative expressions have caught the attention of literary and artistic connoisseurs. By bringing them to light, the book seeks to demonstrate how Korean women have tried to give their lives meaning over the ages through their very diverse, yet common artistic responses to the details and drama of everyday life in Confucian Korea. The stories of these women and their work give us glimpses of their personal views on culture, aesthetics, history, society, politics, morality, and more. Few objects are as universal and multi-functional as a jar – regardless of whether they contain food or drink, matter or a void, life-giving medicine or the ashes of the deceased. As ubiquitous as they may seem, such containers, storage vessels and urns are, as this book demonstrates, highly significant cultural and historical artefacts that mediate between content and environment, exterior worlds and interior enclosures, local and global, this-worldly and otherworldly realms. The contributors to this volume understand jars not only as household utensils or evidence of human civilizations, but also as artefacts in their own right. Asian jars are culturally and aesthetically defined crafted goods and as objects charged with spiritual meanings and ritual significance. Unhappy with his first effort, the potter dumps the unsightly jar in his yard. The long-abandoned jar eventually finds use as a pisspot, but is forgotten once again as the potter dies and his kiln crumbles into ruin. The jar spends years in anguish, longing for meaning and value in life. Finally, it is discovered by the potter's son, who returns to his father's kiln as a monk. Building a temple and bell pavilion on the ruins, the monk awards the jar its long-awaited purpose—it is buried under the bell as a resonance chamber, giving the bell a clear, ringing tone. One of the most important and celebrated works of premodern Korean prose fiction, *Kŏmo sinhwa* (New Tales of the Golden Turtle) is a collection of five tales of the strange artfully written in literary Chinese by Kim Sisŏp (1435–1493). Kim was a major intellectual and poet of the early Chosŏn dynasty (1392–1897), and this book is widely recognized as marking the beginning of classical fiction in Korea. The present volume features an extensive study of Kim and the *Kŏmo sinhwa*, followed by a copiously annotated, complete English translation of the tales from the oldest extant edition.***

***The translation captures the vivaciousness of the original, while the annotations reveal the work's complexity, unraveling the deep and diverse intertextual connections between the Kŏmo sinhwa and preceding works of Chinese and Korean literature and philosophy. The Kŏmo sinhwa can thus be read and appreciated as a hybrid work that is both distinctly Korean and Sino-centric East Asian. A translator's introduction discusses this hybridity in detail, as well as the unusual life and tumultuous times of Kim Sisŏp; the Kŏmo sinhwa's creation and its translation and transformation in early modern Japan and twentieth-century (especially North) Korea and beyond; and its characteristics as a work of dissent. Tales of the Strange by a Korean Confucian Monk will be welcomed by Korean and East Asian studies scholars and students, yet the body of the work—stories of strange affairs, fantastic realms, seductive ghosts, and majestic but eerie beings from the netherworld—will be enjoyed by academics and non-specialist readers alike. In the present book, a team of leading international scholars in the field take a balanced approach to this controversy, integrating different theoretical frameworks, combining both functional and formal linguistics, and showing that genealogical and areal approaches are in fact compatible with one another. In Part II, chapters provide individual structural overviews of the Transeurasian languages and the linguistic subgroups that they belong to, while Part III explores Transeurasian phonology, morphology, syntax, lexis, and semantics from a comparative perspective. Part IV offers a range of areal and genealogical explanations for the correlations observed in the preceding parts. Finally, Part V combines archaeological, genetic, and anthropological perspectives on the identity of speakers of Transeurasian languages. The Oxford Guide to the Transeurasian Languages will be an indispensable resource for specialists in Japonic, Koreanic, Tungusic, Mongolic, and Turkic languages and for anyone with an interest in Transeurasian and comparative linguistics more broadly.
