A brilliant transplant surgeon brings compassion and narrative drama to the fearful reality that every doctor must face: the inevitability of mortality. "Uncommonly moving ... A revealing and heartfelt book." —Atul Gawande, #1 New York bestselling author of *Being Mortal* When Pauline Chen began medical school, she dreamed of saving lives. What she could not predict was how much death would be a part of her work. Almost immediately, she found herself wrestling with medicine's most profound paradox—that a profession premised on caring for the ill also systematically depersonalizes dying. *Final Exam* follows Chen over the course of her education and practice as she struggles to reconcile the lessons of her training with her innate sense of empathy and humanity. A superb addition to the best medical literature of our time. Learn new language more effectively by reaching for this beautifully designed notebook which keep your new words and meaning in order always easy to find. The cantigas de amigo were love poems of the thirteenth and fourteenth century courts of Portugal and Galicia, in which women expressed their most intimate longings for their lovers. Although tradition makes male troubadours the authors and males the objects of desire, there is reason to believe that at least the earliest may have had female authorship, and some of the objects may also have been female. Schantz (Spanish, DeSales U.) explores these possibilities along with the incidence of patriarchy and even misogyny she finds, as well as the prevalence of the female voice in these love poems that were in direct defiance of male authority. She includes responses to the poetry by critics and a very interesting take on the confinements of courtly love. Annotation :2004 Book News, Inc., Portland, OR (booknews.com). The Going Romance conferences are a major European annual discussion forum for theoretically relevant research on Romance languages. This volume assembles a selection of the papers that were presented at the 27th edition of Going Romance, which was organized by the University of Amsterdam in November 2013. The papers present the theoretical analysis of subjects that cover three main themes of interest within current Romance linguistics: word order, the verb, and the DP. The range of languages discussed is broad, and includes not only standard continental but also non-continental Romance languages, and not only standard languages, but also dialectal variation. Furthermore Romance is analyzed not only from a synchronic perspective (including acquisition), but also from a diachronic point of view. In *Creative Transformations*, Krista Brune brings together Brazilian fiction, film, journalism, essays, and correspondence from the late nineteenth to the early twenty-first centuries. Drawing attention to the travels of Brazilian artists and intellectuals to the United States and other parts of the Americas, Brune argues that experiences of displacement have had a significant influence on their work. Across Brazilian literary and cultural history, translation becomes a way of navigating and representing the resulting encounters between languages, interactions with Spanish Americans, and negotiations of complex identities. While *Creative Transformations* engages extensively with theories of translation from different national and disciplinary contexts, it also constructs a vision of translation uniquely attuned to the place of Brazil in the Americas. Brune reveals the hemispheric underpinnings of works by renowned Brazilian writers such as Machado de Assis, Sousândrade, Mário de Andrade, Silviano Santiago, and Adriana Lisboa. In the process, she rethinks the dynamics between cosmopolitan and national desires and between center and periphery in global literary markets. *Miracle Dogs of Portugal* leads children on a voyage of discovery to 15th century Portugal, with the almost-true story of Henry the Navigator. When Henry was just a boy he summoned his own courage to take a surprising journey where he meets a delightful cast of characters - Milagro the Miracle Dog, Diego the fisherman, a cadre of sea creatures - and discovers his own dream. This almost-true story of historical figure Henry the Navigator and the history of the Portuguese Water Dog is the first in a historical fiction series for children that explains the periods and characters of world history using dogs as the ambassador to learning. The Miracle Dog series is appropriate for ages 5-10.

Though the stories are fiction, the historical accuracy and context is designed to give children both the framework and the motivation to seek out more information about the character and the period in which the story is set, while inspiring them to make miracles in their own lives. This book presents the elements of everyday Portuguese, stressing European Portuguese, but also giving information on Brazilian Portuguese. Covering grammatical topics, vocabulary, and practice sentence material, this book is a solid, well-organized approach to Portuguese that anyone interested in the language will find highly useful. Pronunciation is very clearly explained first, and it is followed by twenty-five well-proportioned, progressive lessons that cover all the main points of contemporary grammar: gender, present indicative, formation of plural, agreement and position of adjectives, definite and indefinite article, use of *ser* and *estar*, commands, personal pronouns, imperfect indicative, reflexive pronouns and reflexive verbs, present subjunctive, future and imperfect subjunctive, conditional, negatives, infinitive, pluperfect and perfect indicative, and much more. An Appendix gives conjugations of regular verbs, orthographic-changing verbs, radical-changing verbs, and irregular verbs, while a Portuguese-English Vocabulary, an English-Portuguese Vocabulary, and an Index complete the book. This book is suitable for self-study outside of class, for refresher, and for reference. It is particularly useful as a supplement to phrase and conversational study. "This collection brings together textual commentaries on thirty representative works of literature in Portuguese - either complete poems or extracts from longer works - ranging from the medieval lyric of the 13th century, through the poetry and drama of the Portuguese Renaissance, the great Realist novels of the nineteenth century, early twentieth century Modernism and post-1974 writings through to the present day, while also including examples of 19th- and 20th- century Brazilian literature. The authors chosen - poets, dramatists and novelists - are generally regarded as iconic writers, and the three most famous canonical Portuguese authors (Luis de Camoes, Fernando Pessoa, Jose Saramago) are featured, but the texts selected for commentary strike a balance between a focus on well-known and lesser-studied works. All the primary texts are reproduced in Portuguese, sometimes in original editions, with English translations added for the majority. The contributors variously explicate and contextualise the works they present, some focusing on hidden meaning, others on philological aspects of editing, others on their historical, intellectual and philosophical context, and others still on the process of translation itself. All, however, aim to develop the art of reading, for the benefit of scholars and students alike. Stephen Parkinson and Claudia Pazos Alonso are members of the Sub-Faculty of Portuguese at Oxford University, and editors of the Companion to Portuguese Literature (Tamesis, 2009)." Self-study of classroom course in everyday Portuguese, stressing European but also giving information on Brazilian. Spanish Phonetics and Phonology in Contact: Studies from Africa, the Americas, and Spain brings together scholars working on a wide range of aspects of the Spanish sound system and how their coexistence with another language in speech communities across the Hispanophone world influences their manifestation. Drawing upon seminal works in the fields of language contact in general, Spanish in contact with indigenous and regional languages, and laboratory approaches tied to the languages in question, the volume's contents employ acoustic and quantitative approaches, as well as both controlled and spontaneous data elicitation procedures, to shed light on how linguistic, historical, and social variables drive contact phenomena, and in turn, shape specific varieties of Spanish. It will pique the interest of researchers and students of fields such as contact linguistics, language variation and change, segmental and suprasegmental phonetics and phonology, and sociolinguistics. This book explores language variation and change from the perspective of generative syntax, based on a case study of relative clauses in contemporary European Portuguese and earlier stages of Portuguese. Adriana Cardoso offers a comparative account of three linguistic phenomena in the synchrony and diachrony of Portuguese-remnant-internal relativization, extraposition of restrictive relative clauses, and appositive relativization-and shows that the changes affecting these structures conspired to reduce the patterns of nominal discontinuity available in the language. Adopting a cross-linguistic perspective, she additionally shows that this series of changes transformed Portuguese from a 'Germanic-like' language, with a wide range of phrasal discontinuities, to a 'non-Germanic type', with more restricted patterns of discontinuity. The volume will be of particular interest to scholars working on Portuguese syntax, but also to Romance linguists and all those interested in historical and comparative syntax more widely. A "marvelously amusing" political fable in which part of the European continent breaks off and drifts

away on its own (Publishers Weekly, starred review). A Nobel Prize winner who has been called “the García Márquez of Portugal” (New Statesman) chronicles world events on a human scale in this exhilarating allegorical novel. One day, quite inexplicably, the Iberian Peninsula simply breaks free from the European continent and begins to drift as if it were a sort of stone raft. Panic ensues as residents and tourists attempt to escape, while crowds gather on cliffs to watch the newly formed island sail off into the sea. Meanwhile, five people on the island are drawn together—first by a string of surreal events and then by love. Taking to the road to explore the limits of their now finite land, they find themselves adrift in a world made new by this radical shift in perspective. As bureaucrats ponder what to do about their unusual predicament, the intertwined lives of these five strangers are clarified and forever changed by a physical, spiritual, and sexual voyage to an unknown destination. At once an epic adventure and a profound fable about the state of the European project, *The Stone Raft* is a “hauntingly lyrical narrative with political, social, and moral underpinnings” (Booklist) that “may be Saramago’s finest work” (Los Angeles Times). Translated from the Portuguese by Giovanni Pontiero
