Last Exit in New Jersey Jul 12 2022 Brian Haberman is a 61-year-old PTA dad and failed architect in Belleville, New Jersey. Since his college years during the Sixties, Brian has regretted his lack of involvement in liberal politics. Then he meets Mario, who was politically active and slightly famous many years ago. Together, they plan and carry out a political caper against the backdrop of Barack Obama's election in 2008 and his inauguration. And both experience surprising romances along the way.

New Jersey's Masonic Lodges Jan 18 2023 Across New Jersey, thousands of men have entered through the doors of Masonic Lodge buildings, also known as "temples," over the fraternity's more than 250-year history in the Garden State. These buildings, from humble meeting spaces to elaborate single-purpose centers, stand tribute to the memory and influence of one of the oldest fraternities in the world, founded on the tenets of faith, hope, and charity. From governors and US Supreme Court justices to carpenters and stonemasons, Freemasonry has welcomed men from all walks of life, and the temples they built have played important roles in the civic, social, and charitable life of many towns. Although some lodges have been lost, many still remain and are presented here for the first time through photographs and images collected from various historical societies, museums, libraries, and Masonic organizations. This book attempts not to serve as an encyclopedic source but rather to catalog and organize the development of the Masonic temples in New Jersey.

The Well-trained Mind May 10 2022 This book will instruct you, step by step, on how to give your child an academically rigorous, comprehensive education from preschool through high school. Two veteran home educators outline the classical pattern of education's trivium which organizes learning around the maturing capacity of the child's mind: the elementary school "grammar stage," the middle school "logic stage," and the high school "rhetoric stage." Using the trivium as your model, you'll be able to instruct your child in all levels of reading, writing, history, geography, mathematics, science, foreign languages, rhetoric, logic, art, and music, regardless of your own aptitude in those subjects. Newly revised and updated, The Well-Trained Mind includes detailed book lists with complete ordering information; up-to-date listings of resources, publications, and Internet links; and useful contacts.
