The Lotto and Your Dreams HandBook May 15 2020 "In your dreams, you are in a hospital. A Chinese Nurse is standing next to you with a healthy plate of Steak and some boiled Eggs. While you are smiling at her, suddenly she takes out a Gun and tries to shoot you; she Accidentally shoots a passerby next to your ward." You wake up very sweaty and you start to realize that this was actually a nightmare. You get out of bed and prepare to go to work. On your way, you stop to place the numbers for a \$245 Million Power-Ball. You consider your dreams and you place the following numbers: 34,12,36,3,14,10 The next morning you check your ticket, you jump up with joy because you have won the US biggest Power-Ball. But you are not surprised because you learnt that a Chinese is number (12), a Nurse is number (14), Steak or Meat is number (34), Eggs is number (10), Accident is number (3) and a Gun is number (36). Learn to unlock the power of your dreams by converting images into lucky numbers and try them on lotto or power-ball games. You will be amazed how your dreams can make you rich. The research shows that the Fa-Fi game comprises of 36 numbers which translate to the 360 degrees of the UNIVERSE composition. The Earth revolves around the Sun and forms a perfect circle. The game of Fa-Fi follows the same pattern and that is also complimented by the DREAMS that the universe is communicating with. The great people of South Africa have had the ability to convert these symbols and images into meaningful numbers. The game of Fa-Fi follows rules that are definite to THE LAW of 36. When most people say they have dreamt of numbers, in dreams mostly, numbers are limited to, at maximum, 3. It is the images the numbers are attached to, that they can be able to wake and remember their numbers. A person can dream of a traffic sign that shows a speed limit of 36, which when a person immediately wake up and notice the odd speed limit (possible most end up with a 5 or a 0. like 60 or 75). This will have a person to recognize the odd numbers and write them down and start placing their bets on them. The book explains imagery and symbols that we dream about every day, and some of them

are so much recurring, we seem not to understand why. The universe is telling you something and because you are not taking your dreams seriously, the dreams reappear and until the message is understood or the happenings have taken place, the dream fades away. Then we also show you how to use what we call THE WHEEL OF FORTUNE. This is a simple chart to show you how to understand and use your dreams to map your numbers, no matter what system the Lotto you are betting your numbers on. It shows how the LAW of 36 works around the wheel. The book shows also how to do your own BINARY CODING using a simple excel spreadsheet. The formation will show you how the computer using the 1's and 0's to do the selection of numbers. Finally we give a guide of showing numbers that are restricted to 35 or 36, following the Law of 36. This method shows you how to use your chart and remove all the HOT or COLD numbers, having your dreams as a perfect guide. By the end of the week, you will be able to use these guidelines well and by the second week, it will be your second nature. With this book, you will never take your dreams for granted...EVER!! ! Enjoy it !!!

The Sequence of the California Super Lotto Plus Volume 3 Nov 20 2020 How many of you ever wondered about winning the lottery, and have any of you tried to write all the possible combinations in a note book? I have and succeeded; except, there is one problem. I never won the jackpot. You see, I never had the amount needed to guarantee my chance to win. Let me explain; if I was rich or famous I would use all the numbers written in these volumes and guarantee me or you the jackpot. However, this idea will only be profitable if the jackpot reaches 100 million dollars or more. The California State Lottery began on November 6, 1984, when a majority of California voters passed Proposition 37, the California State Lottery Act of 1984, authorizing the creation of a lottery. The current 47/27 variant began in 2000 under the name Super Lotto Plus. California Super Lotto Plus is played in the style of Mega Millions every Wednesday and Saturday. The minimum jackpot prize is \$7 million dollars. On February 16, 2002, the California Lottery's highest payout of \$193 million was won by three tickets. Super Lotto Plus uses "traditional" drawing mechanisms; the other games use a random number generator. Let me show you how a completed number sequence from lowest to greatest is written and why the odds are wrong on a California Lotto Play Slip. Plus, I'll guarantee that your lucky number(s) are in these Volumes

Using Astrology to Find Your Luck Mar 17 2023 Ever wondered what a Lottery Winners Chart looks like? Ever wondered if maybe YOU could win something big? What planets cause the biggest wins? What planets are the best triggers of a Lucky Event? Can anyone (yes, anyone) win speculating? How can I find the Luck hidden in a Chart? These questions have been the subject of the author's passionate research for nearly two decades. She says, "I've learned some things over the years I believe other Astrologers will find helpful when looking for Lucky or Fortunate Periods." Chapters include: Lottery Winners, Jackpot Winners, Lucky Events, What is a Good Trigger?, Case Studies and Do it Yourself.

Your Lottery Ticket Jun 27 2021 If I asked you. "Do you know what the odds are of winning the European Lottery?" You probably would not even be able to hazard a guess. It is in fact 116,541,800 to 1. There is a way to reduce these odds. If I told you that there are 30 main ball numbers from which the 5 main numbers have come out and scored 60 times for the winning jackpots in 525 draws. Which is about once every 8 to 9 draws. The odds from these 30 numbers is 142,506 to 1. So picking 5 main numbers out of 30 plus covering all the star balls over six lines for a total odds of 855,036 to 1. Which would with 5 winning main numbers guarantee you a minimum of 2 lines with five numbers in each line, with each line having at least one Star Ball each. Your winnings might likely be a total of between £0.4 million and £3 million. Worst still, you could even hit the jackpot.
