A legendary CIA agent is called out of retirement to combat an unknown enemy in this sweeping international spy thriller. Second Sight is the seventh thriller in the critically acclaimed series that follows CIA Agent Paul Christopher—a man ensnared by a line of work that never failed to exert its insidious influence outside professional boundaries. Now retired and living the quiet life as a loving husband in Washington, D.C., Christopher has survived battlefields of World War II, undercover Cold War killing grounds, and imprisonment in China. But now, throughout the Arab world, U.S. agents are being kidnapped and brain-drained by an unidentified enemy armed with a diabolical new drug. Christopher's old friend and superior in "the Outfit" calls with a command he feels he must obey. But what begins for Christopher as a global manhunt swiftly turns into something far closer to home. For the key to the danger he must defuse is a secret buried deep in his own perilous past. Experience the beginning of the Tripods' reign in this prequel to the classic alien trilogy ideal for fans of Rick Yancey's The 5th Wave and Margaret Peterson Haddix's Shadow Children series. When it comes to alien invasions, bad things come in threes. Three landings: one in England, one in Russia, and one in the United States. Three long legs, crushing everything in their paths, with three metallic arms, snacking out to embrace—and then discard—their helpless victims. Three evil beings, called Tripods, which will change life on Earth forever. In this series, Dr. Siu centralizes the power of children vis-a-vis destructive ogre-forces in society. Family separation, migration, and deportations are just some of the issues Rebeldita challenges through her intelligence, laughter, and empowered sense of self and community. Through masterful rhyming prose and the insertion of marginalized histories, Rebeldita educates, motivates and inspires children to take action on some of the most pressing issues of our time. With illustrations by muralist Alicia María Siu. "If someone says I'm doing this out of faith, I say, Why don't you do it out of conviction?" —CHRISTOPHER HITCHENS One of his generation's greatest public intellectuals, and perhaps its fiercest, Christopher Hitchens was a brilliant interview subject. This collection—which spans from his early prominence as a hero of the Left to his controversial support for the wars in Iraq and Afghanistan toward the end of his life— showcases Hitch's trademark wit on subjects as diverse as his mistrust of the media, his love of literature, his dislike of the Clintons, and his condemnation of all things religious. Beginning with an introduction and tribute from his longtime friend Stephen Fry, this collection culminates in Hitchens's fearless final interview with Richard Dawkins, which shows a man as unafraid of death as he was of everything in life. Records the tenuous existence of Troy Gregg, currently on death row for two murders, as he deals with the probability of his execution, his lawyers' appeals, the publicity of other executions, and his fears about dying 'For the sake of argument, one must never let a euphemism or a false consolation pass uncontested. The truth seldom lies, but when it does lie it lies somewhere in between.'. The global turmoil of the last few years has severely tested every analyst and commentator. Few have written with such insight as Christopher Hitchens about the large events - or with such discernment and with about the small tell-tale signs of a disordered culture. For the Sake of Argument ranges from the political squalor of Washington, as a beleaguered Bush administration seeks desperately to stave off disaster and Clinton prepares for power, to the twilight of Stalinism in Prague; from the Jewish quarter of Damascus in the aftermath of the Gulf War to the embattled barrios of Central America and the imperishable resistance of Saralevo, as a difficult peace is negotiated with ruthless foes. Hitchens' unsparing account of Western realpolitik in the end shows it to rest on delusion as well as deception. The reader will find in these pages outstanding essays on political assassination in America as well as a scathing review of the evisceration of politics by pollsters and spin-doctors. Hitchens' knowledge of the tortuous history of revolutions in the twentieth century helps him to explain both the New York intelligentsia's flirtation with Trotskyism and the frailty of Communist power structures in Eastern Europe. Hitchens' pointed reassessments of Graham Greene, P.G. Wodehouse and C.L.R. James, or his riotous celebration of drinky and smoking, display an engaging enthusiasm and an acerbic wit. Equally entertaining is his unsparing rogues' gallery, which gives us unforgettable portraits of the lugubrious 'Dr'Kissinger, the comprehensively reactionary 'Mother' Teresa, the

preposterous Paul Johnson and the predictable P.J. O'Rourke. No Marketing Blurb "Art of Mentoring" series In the book that he was born to write, provocateur and best-selling author Christopher Hitchens inspires future generations of radicals, gadflies, mavericks, rebels, angry young (wo)men, and dissidents. Who better to speak to that person who finds him or herself in a contrarian position than Hitchens, who has made a career of disagreeing in profound and entertaining ways. This book explores the entire range of "contrary positions"-from noble dissident to gratuitous pain in the butt. In an age of overly polite debate bending over backward to reach a happy consensus within an increasingly centrist political dialogue, Hitchens pointedly pitches himself in contrast. He bemoans the loss of the skills of dialectical thinking evident in contemporary society. He understands the importance of disagreement-to personal integrity, to informed discussion, to true progress-heck, to democracy itself.

Epigrammatic, spunky, witty, in your face, timeless and timely, this book is everything you would expect from a mentoring contrarian. Don't miss the eagerly anticipated epic new fantasy from Christopher Paolini—Murtagh, coming 11.7.23!

Experience the international fantasy sensation that is the Inheritance Cycle with this complete collection of the New York Times bestselling series! For the first time, here are all four books in one ebook collection. "Christopher Paolini is a true rarity." --The Washington Post One boy, one dragon, and a world of adventure come together in this four-book boxed set collection that makes a perfect gift for fantasy fans. Eragon Fifteen-year-old Eragon believes that he is merely a poor farm boy—until his destiny as a Dragon Rider is revealed. Eragon is soon swept into a dangerous tapestry of magic, glory, and power. Now his choices could save—or destroy—the Empire. Eldest Eragon must travel to Ellesmera, land of the elves, for further training in the skills of the Dragon Rider: magic and swordsmanship. But chaos and betrayal plague him at every turn, and nothing is what it seems. Before long, Eragon doesn't know whom he can trust. Brisingr There is more adventure at hand for the Rider and his dragon, as Eragon finds himself bound by a tangle of promises he may not be able to keep. When unrest claims the rebels and danger strikes from every corner, Eragon must make choices that may lead to unimagined sacrifice. Inheritance Long months of training and battle have brought victories and hope, but they have also brought heartbreaking loss. Eragon and Saphira have come further than anyone dared to hope. But can they topple the evil king and restore justice to Alagaësia? And if so, at what cost? Contains Nearly 100 Pages of New Material The recent financial crisis has shown that credit risk in particular and finance in general remain important fields for the application of mathematical concepts to real-life situations. While continuing to focus on common mathematical approaches to model credit portfolios, Introduction to Credit Risk Model in The Routledge Handbook of Translation History presents the first comprehensive, state-of-the-art overview of this multi-faceted disciplinary area and serves both as an introduction to carrying out research into translation and interpreting history and as a key point of reference for some of its main theoretical and methodological issues, interdisciplinary approaches, and research themes. The Handbook brings together 30 eminent international scholars from a wide range of disciplinary backgrounds, offering examples of the most innovative research while representing a wide range of approaches, themes, and cultural contexts. The Handbook is divided into four sections: the first looks at some key methodological and theoretical approaches; the second examines some of the key research areas that have developed an interdisciplinary dialogue with translation history; the third looks at translation history from the perspective of specific cultural and religious perspectives; and the fourth offers a selection of case studies on some of the key topics to have emerged in translation and interpreting history over the past 20 years. This Handbook is an indispensable resource for students and researchers of translation and interpreting history, translation theory, and related areas. "A meditation on the creative process . . . a reminder that even the brightest creative minds face challenges when making consistently great work." —Wired From award-winning artist and author Christoph Niemann comes a collection of witty illustrations and whimsical views on working creatively. Taking its cue from his New York Times column Abstract Sunday, this book covers Niemann's entire career and showcases brilliant observations of contemporary life through sketches, travel journals, and popular newspaper features. The narrative guides readers through Christoph's creative process, how he built his career, and how he overcomes the internal and external obstacles that creative people face—all presented with disarming wit and intellect.

Enhanced with nearly 350 original images, this book is a tremendous inspirational and aspirational resource. "A frank and inspirational look at the trials and tribulations of a life spent producing artworks that have been seen the world over." —It's Nice That In this incendiary book, Hitchens takes the floor as prosecuting counsel and mounts a devastating indictment of Henry Kissinger, whose ambitions and ruthlessness have directly resulted in both individual murders and widespread, indiscriminate slaughter. In 1954, Matt Christopher wrote and published The Lucky Baseball Bat and has since published more than one hundred twenty novels, making him the most prolific and bestselling sportswriter for children ever. With over 6 million copies sold, Matt's books have a permanent place in the hearts of young sports fans. Throughout 2004, we celebrate 50 years with Matt Christopher's own commemorative biography written by his son, Dale, in the tradition of the Matt Christopher Biography Bookshelf, with exclusive photos, original letters, and memorabilia. This entry in a brand new line of sports biographies from Matt Christopher takes readers onto the plate with a baseball legend Babe Ruth was baseball's first true power hitter, a strong pitcher, and smart outfielder who made some amazing game-saving catches. His love of the sport came through in his playfulness on the field and drive to win, but Babe had to overcome a lot of obstacles in order to become the greatest. This comprehensive biography - with bonus photos and infographics - tells the story behind the legend. NEW YORK TIMES BESTSELLER • The remarkable true story of a man who lived alone in the woods of Maine for 27 years, making this dream a reality—not out of anger at the world, but simply because he preferred to live on his own. "A meditation on solitude, wildness and survival." —The Wall Street Journal In 1986, a shy and intelligent twenty-year-old named Christopher Knight left his home in Massachusetts, drove to Maine, and disappeared into the forest. He would not have a conversation with another human being until nearly three decades later, when he was arrested for stealing food. Living in a tent even through brutal winters, he had survived by his wits and courage, developing ingenious ways to store edibles and water, and to avoid freezing to death. He broke into nearby cottages for food, clothing, reading material, and other provisions, taking only what he needed but terrifying a community never able to solve the mysterious burglaries. Based on extensive interviews with Knight himself, this is a vividly

detailed account of his secluded life—why did he leave? what did he learn?—as well as the challenges he has faced since returning to the world. It is a gripping story of survival that asks fundamental questions about solitude, community, and what makes a good life, and a deeply moving portrait of a man who was determined to live his own way, and succeeded. "This debate appeared originally in Christianity today, and is re-printed in this format with permission"--T.p. verso. GIGANTIC LIES meet EMPOWERING TRUTHS in this masterfully written, family friendly book finally bringing children, parents, and educators the real history of Christopher Columbus. This is the book we have been waiting for, for 529 years. By educator and scholar, Dr. Siu A SUNDAY TIMES BOOK OF THE YEAR 2020 'Mightily impressive ... a marvellous read' Sunday Times From the acclaimed author of Japan Story, this is the history of Japan, distilled into the stories of twenty remarkable individuals. The vivid and entertaining portraits in Chris Harding's enormously enjoyable new book take the reader from the earliest written accounts of Japan right through to the life of the current empress, Masako. We encounter shamans and warlords, poets and revolutionaries, scientists, artists and adventurers - each offering insights of their own into this extraordinary place. For anyone new to Japan, this book is the ideal introduction. For anyone already deeply involved with it, this is a book filled with surprises and pleasures. Traces the life of the nineteenth-century scientist who discovered how glaciers form, describing how he enlisted the American public to collect natural specimens for his museum, his work training a generation of scientists, and his staunchly racist views. "Hitchens presents a George Orwell fit for the twenty-first century." --Boston Globe In this widely acclaimed biographical essay, the masterful polemicist Christopher Hitchens assesses the life, the achievements, and the myth of the great political writer and participant George Orwell. True to his contrarian style, Hitchens is both admiring and aggressive, sympathetic yet critical, taking true measure of his subject as hero and problem. Answering both the detractors and the false claimants, Hitchens tears down the façade of sainthood erected by the hagiographers and rebuts the critics point by point. He examines Orwell and his perspectives on fascism, empire, feminism, and Englishness, as well as his outlook on America, a country and culture toward which he exhibited much ambivalence. Whether thinking about empires or dictators, race or class, nationalism or popular culture, Orwell's moral outlook remains indispensable in a world that has undergone vast changes in the seven decades since his death. Combining the best of Hitchens' polemical punch and intellectual elegance in a tightly woven and subtle argument, this book addresses not only why Orwell matters today, but how he will continue to matter in a future, uncertain world. The Middle Ages are all around us in Britain. The Tower of London and the castles of Scotland and Wales are mainstays of cultural tourism and an inspiring cross-section of later medieval finds can now be seen on display in museums across England, Scotland, and Wales. Medieval institutions from Parliament and monarchy to universities are familiar to us and we come into contact with the later Middle Ages every day when we drive through a village or town, look up at the castle on the hill, visit a local church or wonder about the earthworks in the fields we see from the window of a train. The Oxford Handbook of Later Medieval Archaeology in Britain provides an overview of the archaeology of the later Middle Ages in Britain between AD 1066 and 1550. 61 entries, divided into 10 thematic sections, cover topics ranging from later medieval objects, human remains, archaeological science, standing buildings, and sites such as castles and monasteries, to the well-preserved relict landscapes which still survive. This is a rich and exciting period of the past and most of what we have learnt about the material culture of our medieval past has been discovered in the past two generations. This volume provides comprehensive coverage of the latest research and describes the major projects and concepts that are changing our understanding of our medieval heritage. Young Will Parker and his companions make a perilous journey toward an outpost of freedom where they hope to escape from the ruling Tripods, who capture mature human beings and make them docile, obedient servants. Christopher Nolan's previous films have reflected the uncertainties of the twentieth-first century. With Dunkirk, Nolan has gone back into the past and brought to life one of the momentous events of the twentieth-century - the evacuation of British troops from Dunkirk, telling the tale by land, sea, and sky. Dunkirk opens as hundreds of thousands of British and Allied troops are surrounded by enemy forces. Trapped on the beach with their backs to the sea, they face an impossible situation as the enemy closes in. The film features a prestigious cast, including Kenneth Branagh, Cillian Murphy, and newcomer Fionn Whitehead, with Mark Rylance and Tom Hardy. The screenplay is accompanied by a conversation about the film between Christopher Nolan and Jonathan Nolan, as well as selected storyboards. Presents excerpts on the subject of religion from the writings of such notable non-believers as John Stuart Mill, Karl Marx, Charles Darwin, Mark Twain, H. L. Mencken, Albert Einstein, Richard Dawkins, and Salman Rushdie. 'I'm going to camp out on the land ... try and get my soul free'. So sang Joni Mitchell in 1970 on 'Woodstock'. But Woodstock is only the tip of the iceberg. Popular music festivals are one of the strikingly successful and enduring features of seasonal popular cultural consumption for young people and older generations of enthusiasts. From pop and rock to folk, jazz and techno, under stars and canvas, dancing in the streets and in the mud, the pleasures and politics of the carnival since the 1950s are discussed in this innovative and richly-illustrated collection. The Pop Festival brings scholarship in cultural studies, media studies, musicology, sociology, and history together in one volume to explore the music festival as a key event in the cultural landscape - and one of major interest to young people as festival-goers themselves and as students. This book is about making machine learning models and their decisions interpretable. After exploring the concepts of interpretability, you will learn about simple, interpretable models such as decision trees, decision rules and linear regression. Later chapters focus on general model-agnostic methods for interpreting black box models like feature importance and accumulated local effects and explaining individual predictions with Shapley values and LIME. All interpretation methods are explained in depth and discussed critically. How do they work under the hood? What are their strengths and weaknesses? How can their outputs be interpreted? This book will enable you to select and correctly apply the interpretation method that is most suitable for your machine learning project. Christopher Hitchens, described in the London Observer as "one of the most prolific, as well as brilliant, journalists of our time" takes on his biggest subject yet—the increasingly dangerous role of religion in the world. In the tradition of Bertrand Russell's Why I Am Not a Christian and Sam Harris's recent bestseller, The End Of Faith, Christopher Hitchens makes the ultimate case against religion. With a close and erudite reading of the major religious texts, he documents the ways in which religion is a man-

made wish, a cause of dangerous sexual repression, and a distortion of our origins in the cosmos. With eloquent clarity, Hitchens frames the argument for a more secular life based on science and reason, in which hell is replaced by the Hubble Telescope's awesome view of the universe, and Moses and the burning bush give way to the beauty and symmetry of the double helix. From the New York Times bestselling author of *The Midnight Club*—now an original Netflix series! *Dusty Shame* was a high school senior, and a serial killer. Already he has murdered three young women, and he has more planned. Yet Dusty did not want to hurt anybody. There was something inside him, or perhaps outside him, that compelled him to kill. Sheila Hardolt has lost her best friend to Dusty's brutal attacks. It will be her task to probe the clues Dusty has left at the site of each of his murders. Clues that will point her into the past—to a time when a large portion of mankind lost all sense of decency. There she will find the seed of Dusty's evil compulsion, the *Wicked Heart*, and the reason why it did not die the first time it was destroyed. The author of *Why Orwell Matters* demonstrates how Thomas Paine's *Declaration of the Rights of Man*, first published in 1791, a passionate defense of the inalienable rights of humankind, forms the philosophical cornerstone of the United States of America, in an engaging critical work.
