With stunning photos and evocative text, this compelling guide tells travelers what they need to know about Provence from the inside out. Includes little known facts--such as American denim was first produced here--that give the character, history and flavor of this exotic country. In 1926 Barry Dierks, a young American architect, arrived in Paris and fell in love with France... With his partner, an ex-officer in the British Army, he built a white, flat-roofed Modernist masterpiece that rested on the rocks below the Esterel, with views across the Mediterranean. They called it Le Trident. From the moment it was built, it captivated the Riviera. As commissions for more villas flooded in, Barry Dierks and Eric Sawyer, "those two charmers", flourished at the heart of Riviera society. Over the years, Dierks would design and build over 70 of the Riviera's most recognisable villas for clients ranging from Somerset Maugham's Villa Mauresque and Jack Warner's Villa Aujourd'hui to the Marquess of Cholmondeley's Villa Le Roc, and Maxine Elliott's Chateau de l'Horizon, later the home of Aly Khan and Rita Hayworth. Riviera Dreaming tells the dazzling story of the lives, loves and adventures that played out behind the walls of these glamorous houses and provides an unparalleled portrait of life on the Cote d'Azur at the height of the Jazz Age. Far from worrying about the onset of war, in the spring of 1938 the burning question on the French Riviera was whether one should curtsy to the Duchess of Windsor. Few of those who had settled there thought much about what was going on in the rest of Europe. It was a golden, glamorous life, far removed from politics or conflict. Featuring a sparkling cast of artists, writers and historical figures including Winston Churchill, Daisy Fellowes, Salvador Dalí, the Duke and Duchess of Windsor, Eileen Gray and Edith Wharton, with the enigmatic Coco Chanel at its heart, CHANEL'S RIVIERA is a captivating account of a period that saw some of the deepest extremes of luxury and terror in the whole of the twentieth century. From Chanel's first summer at her Roquebrune villa La Pausa (in the later years with her German lover) amid the glamour of the pre-war parties and casinos in Antibes, Nice and Cannes to the horrors of evacuation and the displacement of thousands of families during the Second World War, CHANEL'S RIVIERA explores the fascinating world of the Cote d'Azur elite in the 1930s and 1940s. Enriched with much original research, it is social history that brings the experiences of both rich and poor, protected and persecuted, to vivid life. . Bilingual English/French Book (Livre bilingue anglais/français) French Riviera is one of the first modern resort areas. It began as a winter health resort at the end of the 18th century. With the arrival of the railway it became the playground and vacation spot of British, Russian, and other aristocrats, such as Queen Victoria and King Edward VII, when he was Prince of Wales. In the summer, it also played home to many members of the Rothschild family. In the first half of the 20th century, it was frequented by artists and writers, including Pablo Picasso, Henri Matisse, Edith Wharton, Somerset Maugham, and Aldous Huxley, as well as wealthy Americans and Europeans. After World War II, it became a popular tourist destination and convention site. Many celebrities, such as Elton John and Brigitte Bardot, have homes in the region. The French Riviera is a major yachting and cruising area with several marinas along its coast. According to the Côte d'Azur Economic Development Agency, each year the Riviera hosts 50% of the world's superyacht fleet, with 90% of all superyachts visiting the region's coast at least once in their lifetime. As a tourist centre it benefits from 300 days of sunshine per year, 115 kilometres (71 mi) of coastline and beaches, 18 golf courses, 14 ski resorts and 3,000 restaurants. Although the Riviera is famous for the glamour of St. Tropez, Monaco or the Cannes Film Festival, there are many other less well known attractions, such as the perched villages of

Eze and Gourdon, the perfumeries of Grasse and the glass blowers of Biot, the potters in Vallauris. The Riviera has been the inspiration for many well-known artists such as Picasso and many of their works are on display in local museums and art galleries. The first edition of the Time Out South of France Guide gives you the insider's view of Le Midi, from the wide open spaces of the Camargue to the glitz of the Riviera. With colour photographs throughout and 24 pages of regional and city maps, the guide offers a lively, informed account of the history and culture of the South and picks out the best places to eat, sleep, shop, party and work that tan. Cote d'Azur, as we know it today, frequented by yachts and film stars, is primarily a product of the last 150 years, but the historical impact of its central location dates back more than 2,500 years. Its geographic position and many natural harbors on the north side of the Mediterranean made it a stopover for early seafaring people like the Greeks; a natural extension of the Roman Empire; a target and base for Saracen raiders; and a place where the ambitions of French, Spanish and Italian kings and princes came into conflict. More recently it has been a destination for tourists, retirees and seekers of improved health, and a landing place for the invasion of France by the Allied armies in the Second World War. This book begins with Cote d'Azur's early days and moves through to the present in a comprehensive, but concise, easily readable form that should help travelers relate what they are seeing today to what it was before. It is as historically factual as readily available data permits and tries to emphasize history that relates to what we see today. The classic series provides the complete picture through expert and informative text and remarkable photography. Each book is an inspiring background read, serves as an invaluable, on-the-spot companion and can be kept as a superb, visual souvenir of a visit. During World War II three distinct forces opposed the Allies - Germany, Italy, and Japan. Few areas of the world experienced domination by more than a single one of these, but southeastern France - the region popularly known as the Riviera or Cote d'Azur - was one. For the first time, George G. Kundahl tells the raw and moving story of World War II on the French Riviera. Following a nine-month prelude, the reality of World War II burst onto the Riviera in June 1940 when the region had to defend itself against the Italian army and ended with a battle against German and Italian forces in April 1945, a period longer than any other part of France. Not only did inhabitants suffer through Italian Fascism and German Nazism but, as The Riviera at War details, also under a third hardship at times even more oppressive - the rule of Vichy France. Sharply intelligent, elegantly written and drawing from previously unseen archival documents and photographs, this is essential reading for anyone interested in wartime France. There's nothing quite so romantic as spending one's youth in a foreign land. Eric is a 20-something American guy who's having the time of his life on the French Riviera. Or maybe Eric is the 60-something who's looking back on his earlier years with nostalgia and trying to alter the course of his life.

This screenplay was inspired by Lawrence Durrell, and his experiments with metafictional techniques in *The Avignon Quintet* and *The Alexandria Quartet*. - How sleepy fishing villages became hotbeds of culture: the Côte d'Azur, literally the blue coast, as a gathering place for artists, from its beginnings to the present day - In the tradition of *Riviera Cocktail and Stars & Cars*, a magnificent new book of photographs, vintage and charming - Exhibitions to accompany the book are in the planning stage

The Côte d'Azur has always captured the imagination of artists. Many of them arrived on the sun-drenched coast in the early 20th century, having left Paris to enjoy this beautiful region at a time when it was not yet a famed tourist destination. And there they stayed. Legendary for its special light, the French Riviera also spurred the development of art photography to a certain degree, attracting intellectuals and bon vivants, along with those who wanted to be in close proximity to this artistic world. The great influx of painters, photographers, and fashion designers created a rich legacy throughout several decades. This legacy will be narrated chronologically by decade in the book, starting with the beginnings of photography at the turn of the century, and continuing with the 1920s with the fashion of Jacques Henri Lartigue, the Surrealists up to the end of the war, the Golden Fifties of paparazzi photography, the portraits of artists, and photojournalism.
