[Bureaucratic Archaeology](#) Sep 28 2023 Bureaucratic Archaeology is a multi-faceted ethnography of quotidian practices of archaeology, bureaucracy and science in postcolonial India, concentrating on the workings of Archaeological Survey of India (ASI). This book uncovers an endemic link between micro-practice of archaeology in the trenches of the ASI to the manufacture of archaeological knowledge, wielded in the making of political and religious identity and summoned as indelible evidence in the juridical adjudication in the highest courts of India. This book is a rare ethnography of the daily practice of a postcolonial bureaucracy from within rather than from the outside. It meticulously uncovers the social, cultural, political and epistemological ecology of ASI archaeologists to show how postcolonial state assembles and produces knowledge. This is the first book length monograph on the workings of archaeology in a non-western world, which meticulously shows how theory of archaeological practice deviates, transforms and generates knowledge outside the Euro-American epistemological tradition.

Terrorism in Pakistan Mar 22 2023 Since the Soviet invasion of Afghanistan in 1979, Pakistan has faced the threat of terrorism in different forms and shapes. Yet in recent years the threat has taken on a new dimension. After 9/11 the US campaign against Osama bin Laden, al-Qaeda and the Taliban in Afghanistan led to a surge in unrest and violence in Pakistan. Al-Qaeda gained a foothold in tribal regions of Pakistan

via their local supporters, the Tehreek-e-Taliban Pakistan (TTP), currently led by Mullah Fazlullah, who unleashed a new wave of terror across Pakistan. Since then, more than 60,000 Pakistanis have been killed as the result of TTP-orchestrated insurgency and terrorist attacks and Pakistan's society, economy and its international image have suffered at the hands of TTP and its affiliated groups. As a result of several military operations many TTP leaders have taken refuge in Afghanistan where they have joined hands with the terrorist group ISIS, the so-called Islamic State, or Daesh by its local name. Pakistan's nascent democratic set-up, in the form of the government of Nawaz Sharif, is struggling to curb this menace. This is the first book to cover all aspects of terrorism in Pakistan and to reveal the composition, ideology, approaches and strengths of TTP and its affiliates. It is essential reading for policy-makers, strategists, security experts and students to understand the intricate contours and dimensions of insurgency and terrorism within Pakistan.

[The Routledge Handbook of Collective Intentionality](#) Nov 06 2021 The Routledge Handbook of Collective Intentionality provides a wide-ranging survey of topics in a rapidly expanding area of interdisciplinary research. It consists of 36 chapters, written exclusively for this volume, by an international team of experts. What is distinctive about the study of collective intentionality within the broader study of social interactions and structures is its focus on the conceptual and psychological features of joint or shared actions and attitudes, and their implications for the nature of social groups and their functioning. This Handbook fully captures this distinctive nature of the field and how it subsumes the study of collective action, responsibility, reasoning, thought, intention, emotion, phenomenology, decision-making, knowledge, trust, rationality, cooperation, competition, and related issues, as well as how these underpin social practices, organizations, conventions, institutions and social ontology. Like the field, the Handbook is interdisciplinary, drawing on research in philosophy, cognitive science, linguistics, legal theory, anthropology, sociology, computer science, psychology, economics, and political science. Finally, the Handbook promotes several specific goals: (1) it provides an important resource for students and researchers interested in collective intentionality; (2) it integrates work across disciplines and areas of research as it helps to define the shape and scope of an emerging area of research; (3) it advances the study of collective intentionality.

An Enemy Such as This Jul 26 2023 The remarkable true story of an Indigenous family who fought back, over multiple generations, against the world-destroying power of settler colonial violence. Just weeks before police would kill him in Gallup, New Mexico, in March of 1973, Larry Casuse wrote that "never before have we faced an enemy such as this." An Enemy Such as This, for the first time, tells the history of that colonial enemy through the simultaneously epic and intimate story of Larry Casuse and those, like him, who fought against it. From the genocidal Mexican war against the Apaches in the nineteenth century, through the collapse of European empires in the first half of the twentieth century, and culminating in the efforts of young Navajo activists and organizers in the second half of the twentieth century to confront

settler colonialism in New Mexico, the book offers a resolutely Native-focused history of colonialism.

Conspiracies of the Ruling Class Dec 19 2022 A ruling class have emerged in America against the hopes and designs of our Founding Fathers. Over the last hundred years, they have rejected the Constitution and expanded their own power, slowly at first and now rapidly. These people believe their actions are justified because they think they are smarter than the rest of us -- so smart they can run our lives better than we can. But for all the power and resources at their command, they have failed. Miserably. Society has become increasingly unequal, even as we're promised "equality." Our government finances are out of control, our basic infrastructure is broken, and education is unaffordable and mediocre. And yet the Ruling Class think the solution is for us to grant them ever more control. We can stop this -- but to do so we must unite. Lawrence Lindsey, economic advisor to three Republican presidents, lays out his plan for how we can use common sense to change the way our country is run, with liberty for every person to pursue his or her own dreams.

American Airlines, US Airways and the Creation of the World's Largest Airline Feb 21 2023 The 2013 merger of American Airlines and US Airways marked a major step in the consolidation of the U.S. airline industry. A young management team that began plotting mergers a decade earlier designed a brilliant strategy to seize an industry prize. In doing so, it enlisted the help of unions who engineered one of the labor movement's biggest corporate victories. The airlines' histories and the inside story of the takeover is told by two veteran airline reporters.

SYLVANIA, LUCAS COUNTY, OHIO; Mar 10 2022 Join the author in reliving Sylvania's over 180 years of history from footpaths to expressways and beyond, in volume four of an eight volume set. With 30 years of research she has included every subject imaginable that helped bring Sylvania to where they are today, with excellent schools, over-the-top parks and recreation, rich beautiful homes, commercial and industrial businesses and a quaint historical downtown that looks like it was planned by Norman Rockwell himself. This

book is a treasure trove of information for the thousands who have ancestors that once lived and helped Sylvania grow through these years. Located in northwestern Ohio, Sylvania is a suburb of Toledo, Ohio and for many years has been known as "the fastest growing suburb in Lucas County." A once rural farm community, between both the city and township they have grown from a combined 2,220 residents in 1910, to 48,487 in 2010. Over a short period of time the land has transformed into beautiful subdivisions of grand houses, so that now their subdivision names are all that remain to remind them of their once dense forests and sprawling farmlands. No longer can Sylvania be called the "bedroom community" of Toledo, because over the last 50 years they have done a lot more than sleep.

Social Media Campaigning in Europe Dec 27 2020 Studies of election campaigns have shown an increased employment of websites, weblog tools, email, and social media by political campaigners, as well as the use of similar platforms by citizens to find information, communicate about elections or engage more generally in political issues. This comprehensive volume explores the ways in which social media is used on the one hand as a campaigning tool, and on the other, by local citizens. It aims to develop a more holistic and Eurocentric research agenda by capturing both supply and demand practices at the European level. The authors employ both single and multination case studies, furthering debates on how political actors and voters embrace the new information and communication environment, in what ways, and for what purposes. The book offers new perspectives on social media campaigning within European democracies,

thereby contributing to a more global and comprehensive understanding of how campaigning is affected, and might be enhanced, by developing an interactive digital strategy. This book will be of great interest to students of both politics and media studies. It was originally published as a special issue of the Journal of Information Technology & Politics.

Nomenclature of Organic Chemistry May 24 2023 Chemical nomenclature is used to identify a chemical species by means of written or spoken words and enables a common language for communication amongst chemists. Nomenclature for chemical compounds additionally contains an explicit or implied relationship to the structure of the compound, in order that the reader or listener can deduce the structure from the name. This purpose requires a system of principles and rules, the application of which gives rise to a systematic nomenclature. Of course, a wide range of traditional names, semisystematic or trivial, are also in use for a core group of common compounds. Detailing the latest rules and international practice, this new volume can be considered a guide to the essential organic chemical nomenclature, commonly described as the "Blue Book". An invaluable source of information for organic chemists everywhere and the definitive guide for scientists working in academia or industry, for scientific publishers of books, journals and databases, and for organisations requiring internationally approved nomenclature in a legal or regulatory environment.

Getting the Right Teachers into the Right Schools Aug 23 2020 India's landmark Right of Children to Free and Compulsory Education Act (2009) guarantees education to all children aged 6-14 years. The Act mandates specific student-teacher ratios and emphasizes teacher quality. Writing this into legislation took seven years, but the seven years since has proven that ensuring effective teachers are recruited and placed in all schools in a time-bound manner is considerably more challenging. This report takes a detailed look at the complexity of the teacher management landscape in elementary and secondary schools in nine Indian states. On a daily basis, the administrative machinery of these states has to manage between 19,000 to nearly a million teachers in different types of schools and employment contracts, and cope with recruiting thousands more and distributing them equitably across schools. This report examines the following issues: official requirements for becoming a schoolteacher in India; policies and processes for teacher recruitment, deployment and transfers; salaries and benefits of teachers; professional growth of teachers; and grievance redressal mechanisms for teachers. For the first time in India, this report compares and contrasts stated policy with actual practice in teacher management in the country, using a combination of primary and secondary data. In so doing, the report reveals the hidden challenges and the nature of problems faced by administrators in attempting to build an effective teacher workforce which serves the needs of all of India's 200 million school children. The report examines states with varying characteristics, thus generating knowledge and evidence likely to be of interest to policy makers and practitioners in a wide range of contexts.

The Pakistan Paradox Jun 01 2021 The idea of Pakistan stands riddled with tensions. Initiated by a small group of select Urdu-speaking Muslims who envisioned a unified Islamic state, today Pakistan suffers the divisive forces of various separatist movements and religious fundamentalism. A small entrenched elite continue to dominate the country's corridors of power, and democratic forces and legal institutions remain weak. But despite these seemingly insurmountable problems, the Islamic Republic of Pakistan continues to endure. The Pakistan Paradox is the definitive history of democracy in Pakistan, and its survival despite ethnic strife, Islamism and deepseated elitism. This edition focuses on three kinds of tensions that are as old as Pakistan itself. The tension between the unitary definition of the nation inherited from Jinnah and centrifugal ethnic forces; between civilians and army officers who are not always in favour of or against democracy; and between the Islamists and those who define Islam only as a cultural identity marker.

Judges and Generals in Pakistan: Volume II Mar 30 2021 Judges & Generals In Pakistan: Vol-II by Inam R Sehri is another book comprising of his articles [in continuity with Vol-I]; mostly covering the historical scenarios of Gen Musharraf's military regime from years 2000-08. The main emphasis remained on militarized governance and alleged compromises of the Supreme judiciary. Vicious accounts of corruption are also there to prove that very few military Generals were equally competent to plunder the national wealth at par with bureaucrats and politicians. Death of Benazir Bhutto is discussed in detail. Facts about the judicial turmoil (2007), sending home the Chief Justice, reinstating and putting him [along with his fellow judges] in illegal confinement, are all set inside.

And not just the personnel are featured, for here are listed HM ships of all types including merchant vessels commissioned as HM Ships. This publication begins with the alphabetical list of the officers on the active list of the Royal Navy and the Royal marines showing their rank, seniority and of the retired and emergency officers serving, where serving and this includes retired and emergency officers. If the name is preceded by a number, this identifies the ship or shore station in which he is serving (they are all numbered). This is followed by a list showing officers according to seniority. Other lists are of Royal Marines; ships/shore stations with their identifying number and showing officers serving with them; RNR, RNVR, Dominion naval officers; retired RN, RM and RNR officers; invalided officers and much more. There is a section for Honours and Awards including VC (shown after the Orders of Knighthood, the DSO and Royal Red Cross), DSC, DSM and foreign awards. At the end there is a section on Dress Regulations for officers of the Fleet and even a list of lantern slides available in local libraries. The description given above by no means exhausts the information available.
