Nature-Based Tourism in Mallorca's Natural Areas Feb 07 2022 Luisa Wolter examines the travel motivations and interests of natural park visitors to Mallorca with a special focus on sustainable tourism development. The data for the study were collected from tourists in the two natural parks s' Albufera and Llevant in the North of Mallorca. Based on the results of the analysis, natural area managers can develop new products and marketing strategies that address their very own visitors, contribute to the sustainable development of their region, and influence the visitors' views and behaviors by raising environmental awareness. *Mallorca and Menorca* Jun 18 2020

Donkeys on My Doorstep Jan

26 2021 TRAVEL WRITING. The dream is near completion. Anna is loosening the reins on her London PR company to spend more time in Mallorca with her family, cattery, chickens and goats, and insists their menagerie will only be complete with not one donkey, but two. She attempts almond harvesting in the countryside amid summertime ant and wasp infestations in the finca, and attends a traditional wedding and the spectacular Sant Juan horse festival in Menorca. Meanwhile, she befriends an elderly poet whose love letters to his fiance during the Spanish Civil War waft into her field, unveiling a poignant story of bravery and sacrifice. Brimming with humorous and loveable characters, "Donkeys on my Doorstep" is a charming take on the simple and rewarding life of rural Mallorca.

If it's hip and happening, it's here; all the best leisure and lifestyle opportunities are chronicled in this informative guide to Majorca and Ibiza Fun photographs of the best these islands have to offer

Flora Europaea Sep 14 2022

The Flora Europaea, originally published between 1964 and 1980, explores the synthesis of all the national and regional Floras of Europe. It is based on a critical review of existing literature and on studies on herbaria and in the field. It aims to be simple as well as authoritative, and should enable the reader to name as

far as its subspecies any fern, conifer or flowering plant growing wild or wildly cultivated. The second of the five volumes covers the Dicotyledonous families from Rosaceae to Umbelliferae, following the Engler system. Apart from keys and descriptions, information is given on geographical distribution and, where possible, on habitat preference and chromosome number. All names used in Floras or important monographs are cited in the text or index. The text, in English, uses a limited vocabulary, and there are glossaries of technical terms and Latin equivalents.

The Vegetation of the Iberian Peninsula Jul 20 2020

This book provides a compact, up-to-date and detailed overview of the vegetation of the Iberian Peninsula, a highly diverse part of Europe in the Mediterranean area. Written by a group of experienced researchers, the volume includes a first section with general chapters discussing the climate, the biogeography and

the flora, and a second section with detailed descriptions of the 14 regional sectors into which the peninsula and Balearic Islands have been divided. A third section explores special features, such as aquatic vegetation, gypsum and dolomite vegetation, coastal vegetation, mountain flora and vegetation, conservation issues and alien flora.

Bovids of the World Apr 16 2020 The most comprehensive guide to the bovids of the world Bovids are a diverse group of ruminant mammals that have hooves and unbranched hollow horns. Bovids of the World is the first comprehensive field guide to cover all 279 bovid species, including antelopes, gazelles, cattle, buffaloes, sheep, and goats. From the hartebeest of Africa and the takin of Asia to the muskox of North America, bovids are among the world's most spectacular animals and this stunningly illustrated and easy-to-use field guide is an ideal way to learn more about them. The guide covers all species and subspecies of bovids described to date. It features more than 300 superb full-color plates depicting every kind of

bovid, as well as detailed facing-page species accounts that describe key identification features, horn morphology, distribution, subspeciation, habitat, and conservation status in the wild. This book also shows where to observe each species and includes helpful distribution maps. Suitable for anyone with an interest in natural history, *Bovids of the World* is a remarkable and attractive reference, showcasing the range and beauty of these important mammals. The first comprehensive field guide to all 279 bovid species 337 full-color plates, with more than 1,500 photographs Detailed species accounts describe key identification features, distribution, subspeciation, habitat, behavior, reproduction, and conservation status Fully updated and revised taxonomy, with common and scientific names Easy-to-read distribution maps

Lloyd's Register of Shipping 1920 Sailing Vessels May 22 2023 The Lloyd's Register of Shipping records the details of merchant vessels over 100 gross tonnes, which are self-propelled and sea-going, regardless of classification. Before the time, only those vessels classed by Lloyd's Register were listed. Vessels are listed alphabetically by their current name.

Handbook of Liverworts and Hornworts of the Iberian Peninsula and the Balearic Islands Jul 24 2023 This volume is concerned with liverworts and hornworts of the Iberian Peninsula and the Balearic Islands.

Biogeographically it covers the Mediterranean and Eurosiberian regions. This handbook comprises identification keys to generic and specific level with corresponding illustrations. Each genus includes a short morphological description referring only to the species that appear in the present work. In monospecific genera the species name follows the description; if plurispecific a key to species is given. We recognised 286 species, which represent 68% of the European hepatic flora.
