William Blake and the Age of Aquarius / by Stephen F. Eisenman -- Prophets, madmen, and millenarians: Blake and the (counter)culture of the 1790s / by Mark Crosby -- William Blake on the West Coast / Elizabeth Ferrell -- William Blake and art against surveillance / Jacob Henry Leveton -- Building Golgonooza in the Age of Aquarius / John Murphy -- "My teacher in all things": Sendak, Blake, and the visual language of childhood / Mark Crosby -- Blake then and now / W.J.T. Mitchell William Blake's work demonstrates two tendencies that are central to social media: collaboration and participation. Not only does Blake cite and adapt the work

of earlier authors and visual artists, but contemporary authors, musicians, and filmmakers feel compelled to use Blake in their own creative acts. This book identifies and examines Blake's work as a social and participatory network, a phenomenon described as zoamorphosis, which encourages — even demands — that others take up Blake's creative mission. The authors reexamine the history of the digital humanities in relation to the study and dissemination of Blake's work: from alternatives to traditional forms of archiving embodied by Blake's citation on Twitter and Blakean remixes on YouTube, smartmobs using Blake's name

as an inspiration to protest the 2004 Republican National Convention, and students crowdsourcing reading and instruction in digital classrooms to better understand and participate in Blake's world. The book also includes a consideration of Blakean motifs that have created artistic networks in music, literature, and film in the twentieth and the twenty-first centuries, showing how Blake is an ideal exemplar for understanding creativity in the digital age. An introduction to the William Blake Collection in the Henry E. Huntington Library and Art Gallery, San Marino, California. A richly illustrated, comprehensive

introduction to the visionary artist William Blake. William Blake (1757-1827) is a universal artist—an inspiration to musicians, poets, performers, and visual artists worldwide. By combining his poetry and images on the page through radical printing techniques, Blake created some of the most striking and enduring images in art. His personal struggles in a period of political terror and oppression; creativity, inventiveness, and technical innovation; and vision and political commitment keep his work relevant today. Featuring over 130 color images, this accessible yet comprehensive introduction to Blake's

achievements and ambition includes discussions of his legacy in America; relationship to the medieval, Renaissance, and Baroque artists who preceded him; visionary imagination; and unparalleled skill as a printmaker. A new, exciting and accessible approach to reading William Blake, in which leading scholar Saree Makdisi explores key themes. The Works of William Blake - poetic, symbolic, and critical - Vol. 2 is an unchanged, high-quality reprint of the original edition of 1893. Hansebooks is editor of the literature on different topic areas such as research and science, travel and expeditions, cooking and nutrition,

medicine, and other genres. As a publisher we focus on the preservation of historical literature. Many works of historical writers and scientists are available today as antiques only. Hansebooks newly publishes these books and contributes to the preservation of literature which has become rare and historical knowledge for the future. Critical commentary illuminating Blake's allusions and references accompanies the texts of his poetic and prose works. A critical introduction to William Blake's poetry that gives careful consideration to the longer prophetic works. Though his extraordinary talent went largely unrecognized

during his own lifetime, British painter and poet William Blake is now regarded as one of the most important creative figures of the late-eighteenth and early-nineteenth centuries. Characterized by their mystical but accessible quality, Blake's poems prefigured the Romantic movement that would take hold later in the 1800s. This volume brings together Blake's best-known verse. Piping down the valleys wild, Piping songs of pleasant glee, On a cloud I saw a child, And he laughing said to me: "Pipe a song about a Lamb!" So I piped with merry cheer. "Piper, pipe that song again;" So I piped: he wept to hear. "Drop thy pipe, thy happy pipe; Sing thy songs of happy

cheer!" So I sang the same again, While he wept with joy to hear. "Piper, sit thee down and write In a book, that all may read." So he vanish'd from my sight; And I pluck'd a hollow reed, And I made a rural pen, And I stain'd the water clear, And I wrote my happy songs Every child may joy to hear. The Bloomsbury Classic Series has established itself as the preeminent hardcover poetry and literary collection -- books to be cherished, savored, and given on special occasions. To this series we now add two works by Oscar Wilde to herald the coming centenary of his death in Paris, at the age of 46, in 1900. Oscar Wilde: Selected Poems

collects 33 of Wilde's finest poems, many of which were first published in 1881 in a book called Poems. Also included is The Ballad of Reading Jail, written after his friendship with Alfred Douglas, and his imprisonment in 1895 for homosexual offences. Oscar Wilde: The Fisherman and His Soul and Other Fairy Tales collects ten of Wilde's finest fairy tales into one magical volume. Culled from The Happy Prince and The House Of Pomegranates, these stories were first read to Wilde's sons and all are mesmerizing and heart-breaking to the end. True gems, these two Wilde volumes now bring to 12 the number of Bloomsbury Classics that St.

Martin's has made available for years to come. In his illuminated books, William Blake combined his handwritten text with his exuberant imagery on pages the like of which had not been seen since the great decorated books of the Middle Ages. To read such books as Jerusalem, America and Songs of Innocence and of Experience in cold letterpress bears no comparison to seeing and reading them as Blake conceived them, infused with his sublime and exhilarating colours. At times tiny figures and forms dance among the lines of the text, flames appear to burn up the page, and dense passages of Biblical-sounding

text are brought to a jarring halt by startling images of death, destruction and liberation. This edition, produced together with The William Blake Trust, contains all the pages of Blake's twenty or so illuminated books reproduced in true size, an appendix with all Blake's text set in type and an introduction by the noted Blake scholar, David Bindman. They can at last become part of the lives of all lovers of art and poetry. William Blake (1757 -1827) was an English poet, painter, and printmaker. Largely unrecognised during his lifetime, Blake is now considered a seminal figure in the history of the poetry and

visual arts of the Romantic Age. His so-called prophetic works were said by 20th century critic Northrop Frye to form "what is in proportion to its merits the least read body of poetry in the English language". William Blake was born on 28 November 1757 at 28 Broad Street (now Broadwick St.) in Soho, London. He was the third of seven children, two of whom died in infancy. Blake's father, James, was a hosier. He attended school only long enough to learn reading and writing, leaving at the age of ten, and was otherwise educated at home by his mother Catherine Blake. Even though the Blakes were English

Dissenters, William was baptised on 11 December at St James's Church, Piccadilly, London. The Bible was an early and profound influence on Blake, and remained a source of inspiration throughout his life. "William Blake is a universal
artist--an inspiration to visual
artists, musicians, poets, and
performers worldwide as well
as everyone who aspires to the
ideals of personal, spiritual,
and creative liberty. His heroic
story has inspired an
invigorated generations. His
personal struggles during a
period of political terror and
oppression, his technical
innovations, and his political
commitment all remain deeply
relevant today. This book
presents a comprehensive
overview of Blake's work as a
printmaker, poet, and painter,
foregrounding his relationship
with the art world of his time
and telling the stories behind
many of his most iconic

images."-- The requisite guide
to Blake's ideas and symbols A
wild and unexpected journey
through culture, science,
philosophy and religion to
better understand the
mercurial genius of William
Blake. Poet, artist, and
visionary, William Blake is an
archetypal misunderstood
genius. His life passed without
recognition and he worked
without reward, often mocked,
dismissed and misinterpreted.
Yet from his ignoble end in a
pauper's grave, Blake now
occupies a unique position as
an artist who unites and
attracts people from all corners
of society—a rare inclusive
symbol of human identity.
Blake famously experienced

visions, and it is these that shaped his attitude to politics, sex, religion, society, and art. Thanks to the work of neuroscientists and psychologists, we are now in a better position to understand what was happening inside that remarkable mind and gain a deeper appreciation of his brilliance. His timeless work, we will find, has never been more relevant. In William Blake vs the World we return to a world of riots, revolutions, and radicals; discuss movements from the Levellers of the sixteenth century to the psychedelic counterculture of the 1960s; and explore the latest discoveries in neurobiology, quantum physics,

and comparative religion. Taking the reader on a wild adventure into unfamiliar territory, John Higgs places the bewildering eccentricities of a most singular artist into fascinating context. And although the journey begins with us trying to understand him, we will ultimately discover that it is Blake who helps us to understand ourselves. A collection of the poetry, prose, and art of the English mystic, accompanied by a biographical sketch William Blake, overlooked in his time, remains an enigmatic figure to contemporary readers despite his near canonical status. Out of a wounding sense of alienation and dividedness he

created a profoundly original symbolic language, in which words and images unite in a unique interpretation of self and society. He was a counterculture prophet whose art still challenges us to think afresh about almost every aspect of experience—social, political, philosophical, religious, erotic, and aesthetic. He believed that we live in the midst of Eternity here and now, and that if we could open our consciousness to the fullness of being, it would be like experiencing a sunrise that never ends. Following Blake's life from beginning to end, acclaimed biographer Leo Damrosch draws extensively on Blake's poems, his paintings,

and his etchings and engravings to offer this generously illustrated account of Blake the man and his vision of our world. The author's goal is to inspire the reader with the passion he has for his subject, achieving the imaginative response that Blake himself sought to excite. The book is an invitation to understanding and enjoyment, an invitation to appreciate Blake's imaginative world and, in so doing, to open the doors of our perception. Gift set includes Songs of Innocence, Songs of Experience, and The Marriage of Heaven and Hell. Poet, painter, and engraver William Blake died in 1827 in obscure poverty with few admirers. The

attention paid today to his remarkable poems, prints, and paintings would have astonished his contemporaries. Admired for his defiant, uncompromising creativity, he has become one of the most anthologized and studied writers in English and one of the most studied and collected British artists. His urge to cast words and images into masterpieces of revelation has left us with complex, forceful, extravagant, some times bizarre works of written and visual art that rank among the greatest challenges to plain understanding ever created. This Companion aims to provide guidance to Blake's work in fresh and readable

introductions: biographical, literary, art historical, political, religious, and bibliographical. Together with a chronology, guides to further reading, and glossary of terms, they identify the key points of departure into Blake's multifarious world and work. A compilation of important biographical writings on William Blake, a painter, printmaker, poet, and mystical thinker who became one of the leading figures of Romanticism. William Blake (1757-1827) was a British painter, printmaker, poet, and mystical thinker who became one of the leading figures of Romanticism. This volume presents the earliest critical essay on his art by journalist and diarist Henry

Crabb Robinson, reproduced here in full for the first time in English, as well as illuminating biographical texts by painter John Thomas Smith, and writer Alexander Gilchrist. An introduction by Martin Myrone, lead curator of British art to 1800 at Tate, contextualizes these writings, which provide a rich, nuanced view of the life and inventive work of both “the historical Blake” and “the invented Blake”—the artist who today occupies a revered place in the pantheon of visionary artists. Writer and religious rebel, William Blake sowed the seeds of Romanticism in his innovative poems concerning faith and the vision that inspired him throughout his

remarkable life. Whether describing his own spirituality, the innocence of youth, or the corruption caused by mankind, his writings depict a world in which spirits dominate and the mind is the gateway to Heaven. Presenting many of Blake’s major works in their complete texts, alongside extensive passages from such poems as “Jerusalem” and “The Gates of Paradise,” this collection spans his entire poetic life, from the exquisite lyrics of *Poetic Sketches* to *Songs of Innocence and Experience*—a compelling exploration of good and evil. Together, they illuminate a self-made realm that has fascinated artists and poets as diverse as Wordsworth,

Coleridge, Yeats, and Ginsberg. This is the perfect introduction to Blake’s unforgettable poetry. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators. *Songs of Innocence and of Experience* is an collection of poems by William Blake. It

appeared in two phases. A few first copies were printed and illuminated by William Blake himself in 1789; five years later he bound these poems with a set of new poems in a volume titled *Songs of Innocence and of Experience Shewing the Two Contrary States of the Human Soul*. William Blake was also a painter before the songs of innocence and experience and made paintings such as *Oberon, Titania, and Puck dancing with fairies*. "Innocence" and "Experience" are definitions of consciousness that rethink Milton's existential-mythic states of "Paradise" and "Fall". Often, interpretations of this collection centre around a

mythical dualism, where "Innocence" represents the "unfallen world" and "Experience" represents the "fallen world". Blake categorizes our modes of perception that tend to coordinate with a chronology that would become standard in Romanticism: childhood is a state of protected innocence rather than original sin, but not immune to the fallen world and its institutions. This world sometimes impinges on childhood itself, and in any event becomes known through "experience", a state of being marked by the loss of childhood vitality, by fear and inhibition, by social and political corruption, and by the manifold

oppression of Church, State, and the ruling classes. The volume's "Contrary States" are sometimes signalled by patently repeated or contrasted titles: in *Innocence*, *Infant Joy*, in *Experience*, *Infant Sorrow*; in *Innocence*, *The Lamb*, in *Experience*, *The Fly and The Tyger*. The stark simplicity of poems such as *The Chimney Sweeper* and *The Little Black Boy* display Blake's acute sensibility to the realities of poverty and exploitation that accompanied the "Dark Satanic Mills" of the Industrial Revolution. Although relatively obscure during his lifetime, William Blake has become one of the most popular English artists and writers, through

poems such as "The Tyger" and "Jerusalem," and images including The Ancient of Days. Less well-known is Blake's radical religious and political temperament and that his visionary art was created to express a personal mythology that sought to recreate an entirely new approach to philosophy and art. This book examines both Blake's visual and poetic work over his long career, from early engravings and poems to his final illustrations to Dante and the Book of Job. Divine Images further explores Blake's immense popular appeal and influence after his death, offering an inspirational look at a pioneering figure. This

brilliant outline of Blake's thought and commentary on his poetry comes on the crest of the current interest in Blake, and carries us further towards an understanding of his work than any previous study. Here is a dear and complete solution to the riddles of the longer poems, the so-called "Prophecies," and a demonstration of Blake's insight that will amaze the modern reader. The first section of the book shows how Blake arrived at a theory of knowledge that was also, for him, a theory of religion, of human life and of art, and how this rigorously defined system of ideas found expression in the complicated but consistent

symbolism of his poetry. The second and third parts, after indicating the relation of Blake to English literature and the intellectual atmosphere of his own time, explain the meaning of Blake's poems and the significance of their characters. A selection of Blake's poetry made by William Butler Yeats in 1905, which helped to restore the reputation and awareness of Blake, who had been undervalued and forgotten up until then. This carefully crafted ebook: "The Song of Los (Illuminated Manuscript with the Original Illustrations of William Blake)" is formatted for your eReader with a functional and detailed table of contents. The Song of

Los, written 1795, is one of William Blake's epic poems, known as prophetic books. The poem consists of two sections, "Africa" and "Asia". In the first section Blake catalogues the decline of morality in Europe, which he blames on both the African slave trade and enlightenment philosophers. The book provides a historical context for The Book of Urizen, The Book of Ahania, and The Book of Los, and also ties those more obscure works to The Continental Prophecies, "Europe" and "America". The second section consists of Los urging revolution. The Song of Los was one of the few works that Blake describes as "illuminated printing", one of

his colour printed works with the coloured ink being placed on the copperplate before printed. William Blake was a poet, painter, visionary mystic, and engraver. During his life the prophetic message of his writings were understood by few and misunderstood by many. However Blake is now widely admired for his soulful originality and lofty imagination. The poetry of William Blake is far reaching in its scope and range of experience. The poems of William Blake can offer a profound symbolism and also a delightful childlike innocence. Whatever the inner meaning of Blake's poetry we can easily appreciate the beautiful

language and lyrical quality of his poetic vision. William Blake as Natural Philosopher, 1788-1795 takes seriously William Blake's wish to be read as a natural philosopher, particularly in his early illuminated works, and reveals the way that poetry and visual art were for Blake an imaginative way of philosophizing. Blake's poetry and designs reveal a consistent preoccupation with eighteenth-century natural philosophical debates concerning the properties of the physical world, the nature of the soul, and God's relationship to the material universe. This book traces the history of these debates and examines images

and ideas in Blake's illuminated books that mark the development of the monist pantheism, which contends that every material thing is in its essence God, to the idealism of his later period, which casts the natural world as degenerate and illusory. The book argues that Blake's philosophical thought was not as monolithic as has been previously characterized, and that pantheism is important to understanding his early works because it entails an ethics that respects the interconnected divinity of all material objects - not just humans - which in turn spurns hierarchical power structures. William Blake is one of England's most fascinating

writers; he was not only a groundbreaking poet, but also a painter, engraver, radical, and mystic. Although Blake was dismissed as an eccentric by his contemporaries, his powerful and richly symbolic poetry has been a fertile source of inspiration to the many writers and artists who have followed in his footsteps. In this collection Patti Smith brings together her personal favorites of Blake's poems, including the complete Songs of Innocence and Songs of Experience, to give a singular picture of this unique genius, whom she calls in her moving introduction "the spiritual ancestor" of generations of poets. 'If a thing loves, it is infinite' William

Blake A short, impassioned argument for why the visionary artist William Blake is important in the twenty-first century The visionary poet and painter William Blake is a constant presence throughout contemporary culture - from videogames to novels, from sporting events to political rallies and from horror films to designer fashion. Although he died nearly 200 years ago, something about his work continues to haunt the twenty-first century. What is it about Blake that has so endured? In this illuminating essay, John Higgs takes us on a whirlwind tour to prove that far from being the mere New Age counterculture figure that

many assume him to be, Blake is now more relevant than ever.
