It has been endeavoured to introduce a few specialties in this book. Firstly to discuss for the benefit of the student of astrology a maximum number of diseases under astrological laws. Secondly to supply in support of that discussion as many illustrations from actual life as is possible, with a view to make the subject readily understandable. Thirdly we have tried to place the astrological material in a rational & logical manner, so that the question of health and disease can be tackled in an independent way without being too much subservient to the shlokas of the text. We do meet with shlokas dealing with most of the diseases but there are very few books, if at all, which discuss the “how” and “why” of disease. We have attempted to discuss the constituents of diseases and the astrological factors representing them severely in order that the student can extend the application of the method to new diseases. History of Bengali Community and Journalism in the UK, from 1916 to 2007 This is Vol 1 of total 2 Volumes in this Title. The special focus of this book is to make the ardent readers aware of the salient features of this Vedic text on astrology and how it is distinct from the other transcripts on the subject, available thus far. Great concerted efforts were made to collect, collate and combine all the available manuscripts and other related published material contributed by the eminent contemporary writers and commentators and then the sequence of subject matters is aligned to make it comprehensible and authentic. The name of this holistic text is also as per the ancient statement and record, namely ‘Parasara Hora’. This book adduces certain critical and important features which were never attempted before. For print copy, write to jayasreebooks@gmail.com The Vargas or the Divisional Chart is an unique way of evaluating not only the real strength of the planets but the level of auspiciousness that the planets bestows upon a native. Without understanding and using the Divisional Charts with the Lagna chart the predictions on various aspects cannot be made. In the book the author has discussed Navamsha (D9), Dashamsha (D10) to the Shashtiamsha (D60) in details keeping in mind the predictive aspect of Astrology. This is the second part of the Saral Jyotish series of books. Six topics are discussed in this part. Main topics are Debilitated planets and Retrograde planets. All Debilitated planets for all ascendants are analyzed. Retrogression of planets is discussed with a practically applicable approach. Other topics covered are Vargottam, Kartari, Kemdrum and Planetary war. The practical application of these rules is explained with examples. Panchanga is an ancient vedic technique which has disappeared from current practice. It is used to discover the strength of the different sources of 'light' in the natal chart which show one's response to the challenges of life. This book shows how relevant this technique is to life. Dasa gives a system whereby we see the results which impact the native in a time period. Each Dasha is controlled by one planet. It is the disposition and relationship of this planet, that the promised events are reflected. The results which a planet promises in its Dasa has to be studied by a careful analysis of the planet. The Vimshottari Dasha is a 120 year cycle of planetary position based on the position of Moon in one of the lunar mansions called Nakshatras. We have started the book explaining various Dasas. The first basic principles have been explained at length. In the next part we go in details, discussing the strength of the planet depending upon position of planets, lordship and various rules that modify the strength. Each Dasa and its predictive aspect are explained in details. It takes into consideration the sign in which the planet is posited. It also explains the effect of directional strength, state of the planet and the divisional strength. This will enable the reader to make an overall assessment of the planet whose Dasa is being analyzed for a native. The next part dwells with the rules that have to be followed while taking the impact of Sub Period in the major period (Dasa) of the planet. We have in details discussed factors that strengthen or weaken the result which is promised. Further the impact of other vectors, like the transit and strength have been explained. This book has extended details of transit, elaborated planetary combinations and is extensively improved than earlier version. This will be a hand book on Naadi Astrology. Transits are one of the main means used in horoscope reading. They are used to forecast future trend and developments. Astrological transit is about interpreting the ongoing movement of the planets as they transit the horoscope. These transits are studied in the Natal Charts to tell about the timing or fructification of the events. In this book the initial chapters deal with the basic understanding of the meaning of Transit, the rules to be applied and about the planets. We have also dealt with the rules to be applied in predicting the result of transiting planets. Basic Transit Rules of planets in Houses, Signs, Nakshatra and Divisional Charts is explained at length. The book then dwells in factors that modify the results of a Transit. It then goes into explaining the impact of the transiting inner planets. I have also gone in details explaining the impact of Jupiter, Saturn, Nodes and Mars in Transit with various permutation and combination. Prashna or Horary that has been dealt in this book is the most important branch of Astrology. In Prashna which primarily deals with the query of a native, the whole method is simple and not dependent on time accuracy nor on the assumptions. The rules of Prashna are simple. The only thing that has to be understood is there applicability with a sound judgment methodology. The

book deals with Prashna or queries like marriage, divorce, love, theft, conflicts, litigations disease, career, foreign travel & other issues that are common issues / queries. Endeavor has been to be more aligned to issues that are relevant today. The book contains chapters, examples and explanations that are logical & scientific. Readers will find this book simple and easy to understand and open avenue to do more research in the horary branch of astrology. In Vedic astrology, the associations the planets form or variations of how they are placed in a horoscope are referred to as yogas. Yoga literally means union or that which adds, joins or yokes. Astrologically, Yoga refers to planetary combinations or configurations and their special results, which affect the life of an individual. In traditional Indian ephemeris, known as Panchang, Yoga is also a particular division of time, arrived at by adding longitudes of the Sun and the Moon at birth. These are 27 in number, starting from Viskumbha to Vaidhriti, each governed by a different constellation or lunar-mansion, which are also 27 in number. In spiritual field, the word "Yoga" means training, taming and stimulating the body and mind with universal soul. In Ayurveda, the yoga of two or more medicines gives specific results. Yogas are one of the unique features of Vedic astrology. There are hundreds of yogas mentioned in various classical texts. Most of the yogas are formed of more than one planet, but all combinations do not mean a yoga formation. The idea behind these yogas is to equate the planets' strength in a chart, and how & when they will produce their effects in a native's life. There have been innumerable requests for writing a book on Palmistry. The author has written a book that gives the basics of this science. Palmistry has been there from the early ages and we find literature where Sanskrit language has been used in explaining issues of this science in the early Vedic ages. In this book the author has tried to explain the uniqueness of each hand and as to how it helps in deciphering characteristics. In the science of hand reading importance is given to the shape, size, lines and the marks on hand. These have been dealt in details through various chapters in the book. Palmistry is in no way related to the science of Occultism but can be divided into two parts viz the art of reading character from the shape of hands/ fingers and the science of reading the actions and habits. Also it gives an insight of the future if one is able to correlate the shape of the hand with the lines marked thereon. The author has in the various chapters tried to explain various factors like the size, shape, texture, lines and marks that help in deciphering character and the actions that a person is prone towards. This is a basic book on Palmistry which will be useful reading to all. One could develop on these basics for a greater understanding of the subject. The question of modernity and the problem of cultural Identity have been intensively debate from various points views. Three concepts of identity have been appreciated and emerged from lively deliberations during this

discourse. First concept being essentialist concept of identity has been defined to be one which is generated through self-experience as self-evident. The second being post-modern concept referred to as one which is independent of socio-influences and likewise the third concept as realized in recent times is one that is based on realist view of identity. According to this view identity is fundamental element of social-liberation and oppression. The book presents these three views of identity and their possible role in obviating and addressing the problems with possible alternatives. If so implemented how they could bring the social, individual and eventual leads in the society. this book will certainly present a number of new solutions to the existing (current) problems. Conversations does ease situations! May not be every time, but most of the time. Expressing depends on the way we convey or narrate a particular incident or conversation. When hidden, it turns into rage which finally results to a distance with a prolonged silence. Believe it or not, but keeping secrets within ourselves can lead to so many things that no one wants in their life. It can be extremely harmful, leading to anxiety, shame, trust issues, resentment, stress, and sometimes to the use of addictive substances as a coping mechanism. Every time you think about a deeply held secret and stress hormones such as cortisol can surge, impacting your memory. And this research is not mine, but this what studies have proved. So stop hiding your secrets because of the fear of being judged and make yourself free from the baggage you are holding from so long. Every one of us feel relaxed after confessing ourselves with the right person. And if one is not good at expressing themselves, then things go better with writing. Gone are the days with letters and posts, but I'll tell you, there's no better version of confession than writing. This book *SECRETS WITHIN* has certain confessions and thoughts which are expressed by our coauthors. To mark it out: "The black ink speaks of their confessions straight from their heart". Reading this book will motivate every individual to take a new step in life confidently. Remedies means doing a positive process to remove the negative effects. Negative effects are assed by 1. Bhava Analysis – The House afflicted by planets needs remedies to reduce the negativity. 2. Bhava Adhipathi – Lord of the house if weak needs remedies. 3. Karaka of the House or Natural Karaka if afflicted needs remedies. 4. Dasha Lord needs remedies because he gets Yoga or Avayoga status. 5. Then there are certain general remedies required through astrology. Never there has been a book covering in detail and accurate remedies recommended either through right Gem, Yantra, Mulika or by Graha Puja, Graha Shanti, Graha Japa in an orderly manner. The present book *REMEDIES ORTHODOX ASTROLOGY* by Satyanarayana Naik published by Sagar Publication fulfils the remedies in its entirety. Memories of pre-partition days And post partition days Life incidnces Chid hood College days Social N.G.O Rotary club Golfer National umpire Busines The interest of every individual to know his financial status has inspired me to write this book. This is a part of the Encyclopedia captioned as 'Wealth & Prosperity'. It is the seventh book in the encyclopedia series. We have in this book tried to explain the combinations of wealth with an eye for the reader to understand the principles that decipher the quantum of wealth. In the beginning we have given a large number of examples which show the combinations that are instrumental in giving wealth. We have also outlined the combinations that generate wealth. From the third chapter onwards we embark upon analyzing a horoscope on the promise it holds for wealth and prosperity. It starts with explaining the impact of Signs and houses on there propensity as wealth providers. In basic predictive astrology the ascendant, second, fifth, ninth and eleventh house play critical role in predicting the wealth quantum. There are six chapters we have dedicated in the book explaining the

impact of planets in houses and the placement of lords of ascendant, second, fifth, ninth and eleventh in different houses. In details the results have been written. This is the first basic principle that has to be understood and has been dealt at length. Lal Kitab was christened thus due to its red outer cover probably keeping in view the auspiciousness of the colour in hindu mythology. This book deals with the oceanic knowledge of occult, a science based on palmistry/phrenology and other associated fields. Though it is a part and parcel of Vedic astrology, its contours are different and has its own grammar. For Example, the house of ascendant would always be No.1 irrespective of the position of the planets. The Routledge Handbook of Lexicography provides a comprehensive overview of the major approaches to lexicography and their applications within the field. This Handbook features key case studies and cutting-edge contributions from an international range of practitioners, teachers, and researchers. Analysing the theory and practice of compiling dictionaries within the digital era, the 47 chapters address the core issues of: The foundations of lexicography, and its interactions with other disciplines including Corpus Linguistics and Information Science; Types of dictionaries, for purposes such as translation and teaching; Innovative specialised dictionaries such as the Oenolex wine dictionary and the Online Dictionary of New Zealand Sign Language; Lexicography and world languages, including Arabic, Hindi, Russian, Chinese, and Indonesian; The future of lexicography, including the use of the Internet, user participation, and dictionary portals. The Routledge Handbook of Lexicography is essential reading for researchers and students working in this area. There are large number of books available in the public domain which talks about various remedial methods that could be followed. Also there are groups of people who talk about the benefits of yoga, mantra, yantra and allied topics, each of which has a scientific logic as is the case with the manuscripts left behind by the Rishis. As we all are aware, there are planets which by their interaction, govern our destiny. My belief, developed during the study of this science, is that destiny depends on four major things in equal proportion. These are; our previous karma, the place where we are staying, the people with whom we interact and our own efforts. These are the four parameters and within each comes the important of a large gamut of activities. There is a complex equation that is a matter of study and research which, like any other science, gets deciphered and known. I therefore believe that chart at the time of birth, coupled with the year's horoscope and the time at which the query is being asked, have to be co-related and a vector from them gives the correct analysis of the query. Similarly, as each planet is associated with a colour and the colours are in turn related to vibrations – a complex phenomenon by itself; the various mantras, colour therapy and other remedies have relevance.
