Libro aprobado a los 16 días del mes de Junio de 2022: "DIALOGO DEL PADRE CON SU HIJO" y la "CONSAGRACION A LOS DOS SAGRADOS CORAZONES", por el arzobispado de Salta, Argentina. Monseñor DANTE BERNACKI Vicario general En diciembre de 2006, Gabriel de la Santa Cruz llegó a San Miguel de Tucumán proveniente de Buenos Aires. Pocos meses después su vida habría de abrirse a caminos impensados. Había recurrido a Dios buscando reparo y paz personal en tiempos difíciles. Lo sorprendió una experiencia única. Un diálogo casi cotidiano con Dios Padre, con el Hijo y con la Santísima Madre. Este libro encierra los diálogos de Gabriel con sus interlocutores divinos, desde febrero de 2018 a junio de 2019, encuentros que aún continúan con igual intensidad. La Palabra de Dios surge nítida

a través del registro del interlocutor, que humildemente se convierte así en instrumento de llegada a toda persona que lea este libro. Su Palabra es, por lo tanto, Universal. Professor Conant's detailed studies of Santiago de Compostela and of the abbey church at Cluny fit him for this account of building in the period of the round arch which preceded Gothic. In this volume he shows how, at the instigation of the monasteries during the little renaissance of Charlemagne, Roman methods of construction were revived and fused with local traditions to produce a distinctive Carolingian manner; and how such monuments as the Palatine Chapel at Aachen already contained hints of the nobler and more mature Romanesque style which was to become international. professor Conant extends his survey to cover the regions of medieval France, Spain, Portugal, the Holy Land, Italy, Germany, Northern Europe, and Britain. Over the last 30 years there has been a substantial increase in the study of the history of translation. Both well-known and lesser-known specialists in translation studies have worked tirelessly to give the history of translation its rightful place. Clearly, progress has been made, and the history of translation has become a viable independent research area. This book aims at claiming such autonomy for the field with a renewed vigour. It seeks to explore issues related to methodology as well as a variety of discourses on history with a view to laying the groundwork for new avenues, new models, new methods. It aspires to challenge existing theoretical and ideological frameworks. It looks toward the future of history. It is an attempt to address shortcomings that have prevented translation history from reaching its full disciplinary potential. From microhistory, archaeology, periodization, to issues of subjectivity and

postmodernism, methodological lacunae are being filled. Contributors to this volume go far beyond the text to uncover the role translation has played in many different times and settings such as Europe, Africa, Latin America, the Middle-east and Asia from the 6th century to the 20th. These contributions, which deal variously with the discourses on methodology and history, recast the discipline of translation history in a new light and pave the way to the future of research and teaching in the field. Coastal exposures of the Santa Cruz Formation in southern Patagonia have been a fertile ground for recovery of Early Miocene vertebrates for more than 100 years. This volume presents a comprehensive compilation of important mammalian groups which continue to thrive today. It includes the most recent fossil finds as well as important new interpretations based on 10 years of fieldwork by the authors. A key focus is placed on the paleoclimate and paleoenvironment during the time of deposition in the Middle Miocene Climatic Optimum (MMCO) between 20 and 15 million years ago. The authors present the first reconstruction of what climatic conditions were like and present important new evidence of the geochronological age, habits and community structures of fossil bird and mammal species. Academic researchers and graduate students in paleontology, paleobiology, paleoecology, stratigraphy, climatology and geochronology

will find this a valuable source of information about this fascinating geological formation.
