Moby Dick Aug 13 2022 Moby Dick, c'est la monstrueuse baleine blanche, l'incarnation du Mal, cette figure de l'obsession et du double qui, des profondeurs glacées, accompagne le capitaine Achab habitué en surface aux combats titanesques des océans. Moby Dick est ce chef-d'oeuvre total que tout le monde peut lire comme le plus formidable des romans d'aventures ; la quête aussi d'une humanité embarquée de force à bord d'une histoire qui reste pour elle un mystère...

No and Me Jun 11 2022 Lou Bertignac has an IQ of 160 and a good friend called Lucas, who gets her through the school day. At home her father cries in secret in the bathroom and her mother hasn't been out of the house properly for years. But Lou is about to change her life - and that of her parents - for good, all because of a school project she decides to do about the homeless. Through the project Lou meets No, a teenage girl living on the

streets. As their friendship grows, Lou cannot bear that No is still on the streets when she goes back home - even if it is to a home that is saddened and desolate. So she asks her parents if No can come to live with them. To her astonishment, her parents - eventually - agree. No's presence forces Lou and her parents to finally face the sadness that has enveloped them. But No has disruptive as well as positive effects. Can this shaky newfound family continue to live together? A tense, brilliant novel tackling the true meaning of home and homelessness.

Romans de Mahon Aug 25 2023 "The Prophet of Islam in Old French" gives the first English translation of the only Old French narratives that present comprehensive accounts of Muhammad's prophethood. The introduction discusses the propagandistic aims of these works directed at French lay readers and problems of literary and religious traditions.

The Romans and Trade Nov 23 2020 André Tchernia is one of the leading experts on amphorae as a source of economic history, a pioneer of maritime archaeology, and author of a wealth of articles on Roman trade, notably the wine trade. This book brings together the author's previously published essays, updated and revised, with recent notes and prefaced with an entirely new synthesis of his views on Roman commerce with a particular emphasis on the people involved in it. The book is divided into two main parts. The first is a general study of the structure of Roman trade: Landowners and traders, traders' fortunes, the matter of the market, the role of the state, and dispatching what is required. It tackles the recent debates on Roman trade and Roman economy, providing, original and convincing

answers. The second part of the book is a selection of 14 of the author's published papers. They range from discussions of general topics such as the ideas of crisis and competition, the provisioning of Ancient Rome, trade with the East, to more specialized studies, such as the interpretation of the 33 AD crisis. Overall, the book contains a wealth of insights into the workings of ancient trade and expertly combines discussion of the material evidence-especially of amphorae and wrecks-with the prosopographical approach derived from epigraphic, papyrological and historical data.

Roman de Brut Jul 12 2022 Wace's "Brut" is an 1155 French verse rendering of Geoffrey of Monmouth's earlier Latin "history" of Britain, from the time of Brutus, the eponymous founder, to the 7th century. Wace uses Geoffrey's stories, such as those of King Lear and King Arthur, with a lively inventiveness and originality, drawing on oral sources and his own knowledge of parts of Britain, imaginatively re-interpreting the material. This is the first complete English translation and is presented in parallel with the French text, enabling those who wish to have access to the original to do so easily. This new reprint has been revised by Judith Weiss, taking account of comments in reviews, and includes a full introduction, footnotes and bibliography.

Reconsidering Roman power Sep 21 2020 Among the imperial states of the ancient world, the Roman empire stands out for its geographical extent, its longevity and its might. This collective volume investigates how the many peoples inhabiting Rome's vast empire perceived, experienced, and reacted to both the concrete and the ideological aspects of

Roman power. More precisely, it explores how they dealt with Roman might through their religious and political rituals; what they regarded as the empire's distinctive features, as well as its particular limitations and weaknesses; what forms of criticism they developed towards the way Romans exercised power; and what kind of impact the encounter with Roman power had upon the ways they defined themselves and reflected about power in general. This volume is unusual in bringing Jewish, and especially rabbinic, sources and perspectives together with Roman, Greek or Christian ones. This is the result of its being part of the research program "Judaism and Rome" (ERC Grant Agreement no. 614 424), dedicated to the study of the impact of the Roman empire upon ancient Judaism.

The Roman de Thèbes and the Roman D'Eneas _____ May 22 2023 The two romances translated in this volume, the Roman de Thbes and the Roman d'Eneas, form, along with the Roman de Troie by Benot de Sainte-Maure, a group of texts that are of considerable importance within French and European literature and culture. Composed between c. 1150 and c. 1165, these romances create a bridge between classical tales (the Thbes is based on the Thebaid of Statius, the Eneas on the Aeneid of Virgil) and the burgeoning vernacular romances, represented especially by Chrtien de Troyes. As a group, these three works are frequently known as the romances of antiquity (romans d'antiquit) and they introduce into French literature the dominant contemporary themes of chivalry and love. They are set against a feudal and courtly background in which themes such as war, prowess inheritance and the possession of land are

crucial. As they adapt their Latin sources, these romances, especially the Eneas, exploit the works of Ovid, especially in the presentation of the theme of love, and they also make use of the principles of rhetorical composition as studied in the schools (both romances contain remarkable examples of descriptions of both people and objects). This is the first volume to contain two complete translations of the three romances of antiquity. The translation of the Roman d'Eneas is the first English translation of this text since that of John A. Yunck in 1974.
