The Colombian Nobel Prize winner, Gabriel García Márquez (b. 1927), wrote two of the great novels of the twentieth century, *One Hundred Years of Solitude* and *Love in the Time of Cholera*. As novelist, short story writer and journalist, García Márquez has one of literature's most instantly recognizable styles and since the beginning of his career has explored a consistent set of themes, revolving around the relationship between power and love. His novels exemplify the transition between modernist and post-modernist fiction and have made magical realism one of the most significant and influential phenomena in contemporary writing. Aimed at students of Latin American and comparative literature, this book provides essential information about García Márquez's life and career, his published work in literature and journalism, and his political engagement. It connects the fiction effectively to the writer's own experience and explains his enduring importance in world literature. "The articles and columns in *The Scandal of the Century* demonstrate that his forthright, lightly ironical voice just seemed to be there, right from the start . . . He's among those rare great fiction writers whose ancillary work is almost always worth finding . . . He had a way of connecting the souls in all his writing, fiction and nonfiction, to the melancholy static of the universe." --Dwight Garner, *The New*

York Times From one of the titans of twentieth-century literature, collected here for the first time: a selection of his journalism from the late 1940s to the mid-1980s--work that he considered even more important to his legacy than his universally acclaimed works of fiction. "I don't want to be remembered for *One Hundred Years of Solitude* or for the Nobel Prize but rather for my journalism," Gabriel García Márquez said in the final years of his life. And while some of his journalistic writings have been made available over the years, this is the first volume to gather a representative selection from across the first four decades of his career--years during which he worked as a full-time, often muckraking, and controversial journalist, even as he penned the fiction that would bring him the Nobel Prize in 1982. Here are the first pieces he wrote while working for newspapers in the coastal Colombian cities of Cartagena and Barranquilla . . . his longer, more fictionlike reportage from Paris and Rome . . . his monthly columns for Spain's *El País*. And while all the work points in style, wit, depth, and passion to his fiction, these fifty pieces are, more than anything, a revelation of the writer working at the profession he believed to be "the best in the world." Gabriel Garcia Marquez is one of the most influential writers of our time, with a unique literary creativity rooted in the history of his native Colombia. This is the first book of criticism to consider in detail the totality of Garcia Marquez's oeuvre.
