[Experts in Science and Society](#) Apr 01 2021 Taking the viewpoint that experts are consulted when there is something important at stake for an individual, a group, or society at large, this volume explores expertise as a relational concept. In order to be culturally comparative, this volume includes examples and discussions of experts in different countries and even in different time periods. The topics include the roles of political experts, scientific experts, medical experts, and legal experts.

The Origins and Foundations of Music Education Aug 29 2023 This landmark collection explores the origins and foundations of music education in Europe, The Americas, Africa and Asia-Pacific, and the Middle East, and considers the inclusion of music as part of the compulsory school curriculum in the context of the historical, social and political landscape. Within each chapter, the contributors explore the following key areas: - the aims, objectives and content of the music curriculum - teaching methods - the provision and training of teachers of music - the experiences of pupils This fully revised second edition includes new chapters on Brazil, Israel, Kosovo, Lithuania, and Turkey, along with questions to encourage reflection and discussion. A concluding chapter has been added to encourage readers to consider the evolution of music

education globally. The Foreword for this new edition has been written by Sheila Woodward, President of the International Society for Music Education. Contributors have been carefully selected to represent countries that have incorporated music into compulsory schooling for a variety of reasons resulting in a diverse collection which will guide future actions and policy.

Neural processing of emotion in multimodal settings Apr 20 2020 Our everyday life is characterized by a multitude of emotionally relevant cues that we perceive and communicate via various sensory channels. This does not only encompass the obvious cases of auditory and visual modalities, but also olfactory, gustatory, and even tactile stimuli. Any kind of emotional situation in a natural setting is usually a multimodal experience: A friend welcomes us with warm words, a smile, and a happy voice; the sight of our favourite food is accompanied by a seductive smell and a delicious taste; the thrill of watching an exciting movie scene is intensified by a gripping soundtrack. In these situations, the signals from various senses do not stand on their own; they interact and create a unified emotional experience. Recent neuroscientific research has begun to accommodate this inherent multimodality of emotions in natural situations by studying the interaction of affectively relevant information from more than one sensory channel.

Fascinating new aspects emerge concerning the neurobiology of emotion processing, and there is evidence that integrating emotional cues from various sources invokes brain processes that go beyond the well-known patterns observed during unimodal stimulation. The aim of this volume is to present novel and interesting studies dealing with the multimodality of emotions and their neural processing. This includes findings from novel paradigms beyond the classical stimulus-response pattern, fascinating new insights into the interaction of the chemical senses, new analysis methods, comprehensive reviews of selected topics, multimodality in social interactions, and clinical perspectives. Taken together, the studies of this volume thus help us to better understand the interplay of various senses in our daily emotional experiences.

Alimentazione, la sfida del nuovo millennio Sep 25 2020 Il cibo, la terra, l'acqua, l'ambiente in cui viviamo, la crescita demografica, rappresentano sfide ineludibili alle quali le istituzioni multilaterali e i governi sono tenuti a dare una risposta. Fame, povertà, sprechi alimentari, accaparramento delle terre, cambiamenti climatici, scarsità idrica sono infatti le conseguenze di una gestione irresponsabile delle risorse, di una mancanza di visione globale dei problemi e delle loro possibili soluzioni. Con Alessia Montani, giurista, Vice-presidente di Fabula in Art, ideatrice della collana Jus sul "diritto ai nuovi diritti", abbiamo voluto dedicare il primo volume all'alimentazione, che riteniamo sia la sfida più significativa del nuovo millennio. Per affrontare la tematica, senza la pretesa di risolverne la complessità ma alla ricerca di possibili soluzioni, abbiamo interpellato rappresentanti delle grandi Istituzioni del settore come la FAO, il PAM e l'OMS, esponenti del Consiglio per la Ricerca in Agricoltura e di Slow Food International, Professori di diverse Università, esperti nel settore agricolo, economico e sanitario, il grande genetista indiano S.M. Swaminathan, la Fondazione Marino Golinelli e Gustolab International Institute for Food Studies, diretto a Roma da Sonia Massari. Non potevamo infine non arricchire il libro con le opere di artisti contemporanei, selezionate da Giorgia Simoncelli, che hanno dedicato al cibo la loro creatività. Arte e nuove sfide dunque, per comunicare con lo straordinario linguaggio dei segni, ciò che si profila all'orizzonte di un futuro che appare incerto, ma che c'è. ALBERTO MICHELINI, Presidente di Fabula in Art, giornalista, scrittore, conduttore e inviato del TG1 dal 1968 al 1984, parlamentare europeo e nazionale dal 1984 al 2006. Rappresentante personale del Presidente del Consiglio per il G8 Africa nel Governo 2001-2006. Presidente per l'Europa del Business Council for International Understanding (BCIU). GIORGIA SIMONCELLI, curatore e giornalista, direttore artistico della Galleria Via Metastasio 15 di Roma dal 2009 al 2011, dal

2009 entra a far parte dell'Associazione Fabula in Art di cui è attualmente direttore artistico.

Heine-Jahrbuch 2009 May 02 2021 Aktuelle Forschungen zu Heine. Die Beiträge analysieren Heines Kontrastästhetik, seine geschichtskritische Konstruktion der Schrift und sein Verhältnis zur aufklärerischen Utopie. Weitere Themen sind Schuberts Heimkehr -Vertonungen und der i ka-Stoff im Vormärz. Mit den Ansprachen zur Verleihung des Heine-Preises 2008.

Kosovo Apr 25 2023 While exploring events that led to the bloodshed in Kosovo in 1999. Denisa Kostovicova shows that the legacy of ethnic segregation is one of the major obstacles the international community faces in its efforts to establish an integrated multi-ethnic society in this territory." "Of interest to academics and students of nationalism and politics as well as practitioners and journalists, this book is an important advance in research on one of the most tragic European conflicts of recent times."--Jacket.

Relatório do Desenvolvimento Humano 2019 Feb 28 2021 Desigualdades no desenvolvimento humano são um obstáculo à implementação da Agenda 2030 para o Desenvolvimento Sustentável. Não se trata somente de discrepâncias no rendimento e na riqueza. Não é possível representá-las através da mera utilização de indicadores sumários de desigualdade que se focam numa única dimensão. Mais do que isso, irão, também, enformar as perspectivas das pessoas que viverem até ao século XXII. O Relatório explora as desigualdades no desenvolvimento humano, indo além do rendimento, além das médias e além do presente. Interroga que formas de desigualdade importam e o que as catalisa, reconhecendo que as desigualdades perniciosas devem, geralmente, ser pensadas enquanto sintomas de problemas mais amplos numa sociedade e numa economia. Inquire, ainda, que políticas podem enfrentar esses catalisadores □ políticas simultaneamente capazes de auxiliar o crescimento da economia das nações, promover o desenvolvimento humano e reduzir a desigualdade.
