James Dean, who died in 1955 at the age of 24, once remarked: For me the only true success, the only true greatness, lies in immortality. Wherever she is working outside, from the remote coastline of her native Scotland to the mountains of Andalucia and the Arizona desert, this artist responds to what she sees in her sketchbooks. Published here, these studies provide themes and motifs for her paintings and prints, but they also stand alone as sensuous evocations of the landscapes to which she is so attached. An authoritative and wide-ranging visual essay on the aesthetics of Japan, now in a beautiful paperback edition. Japan Style, written by one of the world's most respected scholars of Japanese art and culture, defines what 'Japan style' is. It explores specific achievements in Japanese art and architecture, but also offers an in-depth analysis of the whole of Japanese culture, its vision of the world and of humankind. 'Japan style' is something recognizable to everyone: a beautifully arranged flower, an elegant piece of calligraphy or a simple rock garden, but it is also something that is very difficult to define. The book is divided into three main sections. In the first one ('Irregular Beauty'), the author delineates the different aspects of Japanese culture and draws interesting connections between art, architecture, religion, philosophy and mythology. For example, he explains the aesthetics of the tea ceremony and its relationship to Zen philosophy as well as other subjects such as the function of the void in mythology, Buddhism and the arts. The second part of the book ('A Feeling of Nature') follows a chronological path from ancient times to the present explaining more specifically how to interpret the different forms of Japanese art (literature, painting, sculpture, etc.). The third part of the book ('Art Masters') contains short monographs on Japanese masters in the history of Japanese art and culture: Zeami Moto, the creator of No theatre; Hokusai, the master of woodblock printing; Yasunai Kawabata and Mishima Yukio, the writers; and the graphic designer, Tanaka Ikko. Calza's groundbreaking and insightful text is accompanied by 150 colour images of a great variety of examples from Japanese art and culture. Soon to be a show on Hulu! P. Mallory, author of In Search of the Indo-Europeans and The Origins of the Irish Who are the Europeans? Where did they come from? New research in the fields of archaeology and linguistics, a revolution in the study of genetics, and cutting-edge analysis of ancient DNA are dramatically changing our picture of prehistory, leading us to question what we thought we knew about these ancient peoples. This paradigm-shifting book paints a spirited portrait of a restless people that challenges our established ways of looking at Europe's past. The story is more complex than at first believed, with new evidence suggesting that the European gene pool was stirred vigorously multiple times. Genetic clues are also enhancing our understanding of European mobility in epochs with written records, including the arrival of the Anglo-Saxons, the spread of the Slavs, and the adventures of the Vikings. Now brought completely up to date with all the latest findings from the fast-moving fields of genetics, DNA, and dating, Jean Manco's highly readable account weaves multiple strands of evidence into a startling new history of the continent, of interest to anyone who wants to truly understand Europeans' place in the ancient world. With a career spanning almost three decades, Kerry James Marshall is well known for his complex and multilayered portrayals of youths, interiors, nudes, housing estate gardens, land- and seascapes, all of which synthesize different traditions and genres while seeking to counter stereotypical representations of black people in society. Working across various mediums, from paintings to comic-style drawings to sculptural installations, photographs, and videos, the artist conflates actual and imagined events from African-American history, integrating a range of stylistic influences to address the limited historiography of black art. Produced on the occasion of Marshall's first exhibition at David Zwirner in London and designed by JNL Design in Chicago, *Look See* features beautiful reproductions of every painting on view in the show - all of them brand-new compositions - as well as numerous details and preparatory drawings, installation photographs and new scholarship by Robert Storr and Hamza Walker. As suggested by the show's title, these portraits use the etymological differences between looking and seeing as their point of departure, featuring subjects whose dissociated stares seem as defiant as they are mystifying. In keeping with his signature approach, Marshall has painted his figures in strikingly opaque black pigments, both fashioning and abstracting their presences in order to assimilate the limitations and contradictions of style, subject, and chronology inherent in art-historical narratives written from a white, Western perspective. Taken all together, the range of materials included in *Look See* constitutes a vibrant and comprehensive portrait of Marshall's original and ever-evolving practice. This title is written for travelers, students, and lovers of language who will soon find this dictionary to be indispensable. "A new interpretation and translation of Fernando Pessoa's *The Anarchist Banker* in which the banker argues he is the only true anarchist."-- A fascinating introduction to an imposing collection of arts from across the Islamic world. Unprecedented levels of government surveillance; loss of privacy through corporate data mining; centralized digital currency; behavioral tracking and control: Is this the digital future we've been sleepwalking towards? "Nick Corbishley has the frenetic energy of someone who has seen too much. His book is fantastic."—Russell Brand, "Under the Skin" podcast Untold millions of people in "democracies" all over the world were barred from accessing basic services in 2021—from earning a living or traveling within their own country—because they lacked proper digital identification surrounding the vaccine. For many, 2021 will be remembered as the year that basic, long-standing bioethical principles such as bodily autonomy, bodily integrity, and the informed consent of the patient ended. In *Scanned*, investigative journalist Nick Corbishley examines and exposes the lies and overreach that underpin the wholesale erosion of personal freedoms that is continuing to happen at an alarming rate. In clear language supported by rigorous research, Corbishley uncovers how the rollout of vaccine passports, digital IDs and centralized digital currency not only represents an unprecedented violation of privacy and bodily autonomy, but how it perpetuates the idea that a "small" collective sacrifice will allow us to return to normality. Today, digital "health" IDs threaten to go totally global, with the World Health Organization's tacit endorsement. On all five continents governments and corporations are quietly but quickly rolling out digital ID programs. At the same time, 90% of the world's central banks are exploring a central bank digital currency (CBDC), with half of them already developing an electronic version of their fiat money. These interlocking initiatives threaten to radically reconfigure the way societies and economies function. If successful, they will facilitate the single largest expansion of totalitarian power in history, exposing citizens to unprecedented levels of government and corporate surveillance, data mining, and behavioral control. The stakes could not be higher. And if things continue on the current path, Corbishley makes clear, getting back to "normal" is never happening. Put simply, instead of a return to normality, we will see the creation of a starkly different form of existence in which most of us will have virtually no agency over our own lives. Buried renaissance of Root, Sullivan, Roebing, W. Homer, Eakins, Ryder, others. 12 illustrations. As non-literates, the Celts left no written record of their lives, their beliefs, and the stories which were such an important part of their culture. Here Dr. Green uses the works of contemporary commentators from the Classical world, later Christian scribes recording oral traditions, and archaeological evidence to discuss Celtic myths and their religious beliefs and rituals. Photos. Five curious dinosaur friends, known as the Fivedinos, travel from valley to valley, naming plants and animals and helping each other as they try to escape from their common, meat-eating enemy, *Tyrannosaurus rex*. A hilarious underground adventure starring the world's most adventurous family of pigs. When Mr. Mellops' golf ball rolls down a crevice, the family's natural response is to prepare a spelunking (cave exploring) expedition! Down the crevice they go, with their steel helmets and rope ladder. Then, on a rubber raft they follow the underground river at the bottom of the crevice. Stalactites and stalagmites abound, and cave paintings and other remnants of the past are everywhere. Suddenly the raft is punctured, and the Mellops swim to safety – only to find themselves in a smugglers' den. In an exciting turn of events, the clever pigs combine their archaeological explorations with the ingenious capture of these outlaws. A timeless favourite! Instant bestsellers when first published more than fifty years ago, the hilarious Mellops talks are reissued today to delight a new generation of children. Beautifully written and illustrated by the internationally acclaimed author and illustrator, Tomi Ungerer, winner of the prestigious Hans Christian Anderson Award for children's literature. A picture book for ages 3–6. It's a vanished world, and Peter Hujar was right there in it. The Lower East Side between 1972 and 1985 - filled with artists, wannabe artists and hangers-on - was a community of the misbegotten gathered from every town in America and relocated in the mean streets between Broadway and the Bowery. Nothing but their talent, their flamboyance, their rank gender-bending mockery and their arch irony supported them. Some made their names. Many came to grief. A few made art. In those days, the gutted streets of the Lower East Side looked like a war zone. Everyone lived and worked on the extreme outer margins of money and art, penniless and unknown. As a community, Downtown was a counterstatement to the rich New York of the banks, museums, media, corporations ... and the art world itself. That Downtown is forever gone. Time, gentrification, disease and death have taken their toll and turned this vibrant epoch into a chapter of art history. But before it vanished, its extravagant cast sat for Peter Hujar's camera - and is now alive again in front of our eyes. Featured among others: Joe Brainard, William Burroughs, Remy Charlip, Edwin Denby, Divine, Ray Johnson, Fran Lebowitz, Charles Ludlum, Susan Sontag, Paul Thek, John Waters, Robert Wilson, David Wojnarowicz. Salvador Dalí is widely regarded as one of the great artists of the 20th century. Rumor and alleged scandals followed him throughout his life, and continued long after his death in 1989. When German troops entered Bordeaux, Salvador and Gala escaped France to live in the United States, where they remained until 1948. It is widely regarded that Dalí's most iconic and inspired work transpired during his time in America. On September 2, 1941, in a bid to raise funds for artists fleeing the Nazis, as well as enhance his profile in the USA, Dalí orchestrated the Surrealist Ball at the Del Monte Lodge, Pebble Beach, California. At the event, Salvador and Gala Dalí were photographed by friend Julian Graham as they created and hosted, "A Surrealistic Night in an Enchanted Forest". Celebrities including Bob Hope, Clark Gable, Gloria Vanderbilt, Ginger Rogers, and Robinson Jeffers, were served soup from high-heeled shoes and a course of live frogs - that promptly escaped. What made this event so important was that Dalí understood how to attract media attention and this event paved the way for the media savvy artists who followed decades later, such as the legendary Pop Culture Artist, Andy Warhol. This picture book is staged in two parts. Part one follows Dalí's painstaking and hands-on preparation of the event, showing him and a small team dressing the venue, constructing the costumes and choreographing the evening's theatrical interludes. Part two concentrates purely on the party and the unique guest experience. Dalí's 1941 also pays homage to the photographic career of Julian Graham, as well as giving readers visual context to the era by way of periodical news excerpts, painting the cultural and social picture of the United States as the country prepared to enter the second world war. With previously unseen and physically unpublished photographs, painstakingly restored and re-mastered the ball is brought to life through the permission of archive custodians, Bancroft library at Berkeley University and is realised in partnership with Bad Halo Ltd, under their Wonderland Publication publishing brand. Offers an illustrated encyclopedia of general science, with informative and fun facts on a broad array of scientific topics. A perfect bedtime book to discover American folktales.
