Sam Patch, the Famous Jumper Apr 22 2023 The true history of a legendary American folk hero In the 1820s, a fellow named Sam Patch grew up in Pawtucket, Rhode Island, working there (when he wasn't drinking) as a mill hand for one of America's new textile companies. Sam made a name for himself one day by jumping

seventy feet into the tumultuous waters below Pawtucket Falls. When in 1827 he repeated the stunt in Paterson, New Jersey, another mill town, an even larger audience gathered to cheer on the daredevil they would call the "Jersey Jumper." Inevitably, he went to Niagara Falls, where in 1829 he jumped not once but twice in front of thousands who had paid for a good view. The distinguished social historian Paul E. Johnson gives this deceptively simple story all its deserved richness, revealing in its characters and social settings a virtual microcosm of Jacksonian America. He also relates the real jumper to the mythic Sam Patch who turned up as a daring moral hero in the works of Hawthorne and Melville, in London plays and pantomimes, and in the spotlight with Davy Crockett—a Sam Patch who became the namesake of Andrew Jackson's favorite horse. In his shrewd and powerful analysis, Johnson casts new light on aspects of American society that we may have overlooked or underestimated. This is innovative American history at its best.

My Uncle Sam May 11 2022 Uncle Sam was a novelties salesman who died one night, alone and broke, in a Pittsburgh hotel. But he was also a larger-than-life figure, a mythic hero, to his nephew who now seeks to discover his uncle's true story. His quest is a quixotic and picaresque one, involving a seductive nightclub singer who promises to marry Sam if he can locate his ne'er-do-well brother (who absconded with the proceeds from a robbery), and developing into a series of sometimes funny, sometimes hair-raising episodes as the nephew "becomes" his uncle in his youth and journeys to a remote lighthouse, a rather sinister university laboratory, an opium den, the clinic of a Mexican quack, and a very odd miniature golf course all intriguingly distorted, as though viewed through a funhouse mirror. In the end it is really the landscape of the mind that is

explored and illuminated, as the trail leads back to Old Sam and the disquieting knowledge that dreams and reality are, in the final essence, often one and the same, with the "truth" still remaining tantalizingly out of reach.

Sam Feb 25 2021 "I've been an Allegra Goodman fan for years, but Sam is hands down my new favorite. I loved this powerful and endearing portrait of a girl who must summon deep within herself the grit and wisdom to grow up."—Lily King, New York Times bestselling author of *Writers & Lovers* What happens to a girl's sense of joy and belonging—to her belief in herself—as she becomes a woman? This unforgettable portrait of coming-of-age offers subtle yet powerful reflections on class, parenthood, addiction, lust, and the irrepressible power of dreams. "There is a girl, and her name is Sam." So begins Allegra Goodman's moving and wise new novel. Sam is seven years old and living in Beverley, Massachusetts. She adores her father, though he isn't around much. Her mother struggles to make ends meet, and never fails to remind Sam that if she studies hard and acts responsibly, adulthood will be easier—more secure and comfortable. But comfort and security are of little interest to Sam. She doesn't

fit in at school, where the other girls have the right shade of blue jeans and don't question the rules. She doesn't care about jeans or rules. All she wants to climb. Hanging from the highest limbs of the tallest trees, scaling the side of a building, Sam feels free. As a teenager, Sam begins to doubt herself. She yearns to be noticed, even as she wants to disappear. When her climbing coach takes an interest in her, his attention is more complicated than she anticipated. She resents her father's erratic behavior, but she grieves after he's gone. And she resists her mother's attempts to plan for her future, even as that future draws closer. The simplicity of this tender, emotionally honest novel is what makes it so powerful. *Sam* by Allegra Goodman will break your heart, but will also leave you full of hope.

No Collar to Tank Top Aug 22 2020 As an author, I spend a lot of time sitting at the keyboard, as do many in this and similar professions. Prior to becoming a novelist, I was a long-haul trucker, another sedentary lifestyle. Over the

course of many years, the body I once had as an active-duty Marine turned into a blob. So, I decided to do something about it. The change from Marine to blob took decades, so I didn't even notice it happening. But when I put the aging process in reverse, the changes were very noticeable and fast-coming. I'd intended to write a sequel to *Blue Collar to No Collar*, my non-fiction on writing and publishing in the digital age and the title was to be *No Collar to White Collar*, a study of taking my writing career to the next level as a publisher. Six years later, I've only lived chapter one of that book, so it will be a while before I finish it. Then along came Sam Hoster, my co-author. I know very little about health and fitness, except that I'm living proof that even in our mid-sixties, it's not too late to become fit and strong. So, I invited Sam to write this book with me. You see, he's the owner of the gym I started going to and through the guidance and tutelage of his trainers and coaches, I went from blob to competitive powerlifter in just over a

year. At the time of this writing, it's not certain if I will hold any of my states powerlifting records for my age and weight, but the Marine in me says that by the time this is published, I'll hold four state records. This book isn't a memoir, but a motivational. Anyone can become stronger and healthier. All you need is guidance and a little push. That's what we're here for. Sam provides the guidance and I do the pushing. Kinda like in the gym.

He wanted to build large stores in small towns and reduce the price of everything they stocked. Although other businessmen and potential partners laughed at him, this entrepreneur with humble beginnings used his resourcefulness to create

Walmart, which would become the largest company in the world.

Little did parent or child know where that incident would lead them. Months later, Sam's Mom hired a college-student nanny to help out over the holidays, and Sam and his Nanny Sanny quickly became inseparable. SAM Dec 06 2021 A true story of innovation that “reads like a movie” (Seth Godin), centered on a scrappy team of engineers—far from the Silicon Valley limelight—and their quest to revolutionize the traditional trade of masonry by building a robot that can lay bricks. Humans have landed men on the moon, programmed cars to drive themselves, and put the knowledge of our entire civilization in your back pocket. But no one—from MIT nerds to Army Corps engineers—has ever built a robot that can lay bricks as well as a mason. Unlike the controlled conditions of a factory line, where robots are now ubiquitous, no two construction sites are alike, and a day’s work involves countless variables—bricks that range in size and quality, temperamental mortar mixes, uneven

terrain, fickle weather, and moody foremen. Twenty-five years ago, on a challenging construction job in Syracuse, architect Nate Podkaminer had a vision of a future full of efficient, automated machines that freed bricklayers from the repetitive, toilsome burden of lifting, in bricks, the equivalent of a Ford truck every few days. Offhandedly, he mentioned the idea to his daughter's boyfriend, and after some inspired scheming, the architect and engineer—soon to be in-laws—cofounded a humble start-up called Construction Robotics. Working out of a small trailer, they recruited a boldly unconventional team of engineers to build the Semi-Automated Mason: SAM. In classic American tradition, a small, unlikely, and eccentric family-run start-up sought to reimagine the behemoth \$1 trillion construction industry—the second biggest industry in America—in bootstrap fashion. In the tradition of Tracy Kidder's *The Soul of a New Machine*, SAM unfolds as an engineering drama, full of trials and setbacks, heated showdowns between meticulous scientists and brash

bricklayers (and their even more opinionated union), and hard-earned milestone achievements. Jonathan Waldman, acclaimed author of *Rust*, masterfully “reveals a world that surrounds us but mostly eludes our notice” (*The Boston Globe*).

Sam Phillips: The Man Who Invented Rock 'n' Roll Jan 27 2021 From the author of the critically acclaimed Elvis Presley biography: Last Train to Memphis brings us the life of Sam Phillips, the visionary genius who singlehandedly steered the revolutionary path of Sun Records. The music that he shaped in his tiny Memphis studio with artists as diverse as Elvis Presley, Ike Turner, Howlin' Wolf, Jerry Lee Lewis, and Johnny Cash, introduced a sound that had never been heard before. He brought forth a singular mix of black and white voices passionately proclaiming the vitality of the American vernacular tradition while at the same time declaring, once and for all, a new, integrated musical day. With extensive interviews and firsthand personal observations extending over a

25-year period with Phillips, along with wide-ranging interviews with nearly all the legendary Sun Records artists, Guralnick gives us an ardent, unrestrained portrait of an American original as compelling in his own right as Mark Twain, Walt Whitman, or Thomas Edison.
