NEW YORK TIMES BESTSELLER • From Jeff Shaara comes the riveting final installment in the Civil War series that began with *A Blaze of Glory* and continued in *A Chain of Thunder* and *The Smoke at Dawn*. November 1864: As the Civil War rolls into its fourth bloody year, the tide has turned decidedly in favor of the Union. A grateful Abraham Lincoln responds to Ulysses S. Grant's successes by bringing the general east, promoting Grant to command the entire Union war effort, while William Tecumseh Sherman now directs the Federal forces that occupy all of Tennessee. In a massive surge southward, Sherman conquers the city of Atlanta, sweeping aside the Confederate army under the inept leadership of General John Bell Hood. Pushing through northern Georgia, Sherman's legendary March to the Sea shoves away any Rebel presence, and by Christmas 1864 the city of Savannah falls into the hands of "Uncle Billy." Now there is but one direction for Sherman to go. In his way stands the last great hope for the Southern cause, General Joseph E. Johnston. In the concluding novel of his epic Civil War tetralogy, Jeff Shaara tells the dramatic story of the final eight months of battle from multiple perspectives: the commanders in their tents making plans for total victory, as well as the ordinary foot soldiers and cavalymen who carried out their orders until the last alarm sounded. Through Sherman's eyes, we gain insight into the mind of the general who vowed to "make Georgia howl" until it surrendered. In Johnston, we see a man agonizing over the limits of his army's power, and accepting the burden of leading the last desperate effort to ensure the survival of the Confederacy. The Civil War did not end quietly. It climaxed in a storm of fury that lay waste to everything in its path. The *Fateful Lightning* brings to life those final brutal, bloody months of fighting with you-are-there immediacy, grounded in the meticulous research that readers have come to expect from Jeff Shaara. Praise for *The Fateful Lightning* "Powerful and emotional . . . highly recommended."—*Historical Novels Review* "Outstanding . . . Shaara combines his extensive knowledge of military history with his consummate skill as a storyteller."—*Booklist* "Readers . . . looking for an absorbing novel will be well rewarded."—*The Clarion-Ledger* "A great accomplishment and a more than fitting conclusion to Shaara's work on the Civil War."—*Bookreporter*

Michael Vey, a fourteen-year old who has Tourette's syndrome and special electric powers, finds there are others like him, and must rely on his powers to save himself and the others from a diabolical group seeking to control them. "Your body is a temple of the Holy Spirit" (1 Cor. 6:19 NASB). Most people are not "comfortable" with the idea of the Spirit of the Creator of the Universe living inside them. But in *Lightning in a Bottle: Our Odyssey to Temple the Holy Spirit*, Pastor Mike Palompo, D.Min. helps us embrace that phenomenal reality and live from that place everyday. How? By drawing parallels between God's design of the ancient Tabernacle and us. Pastor Mike contends that this not only applies to the individual but to the Church as a whole. In a time when Churches are looking for an effective blueprint for ministry in the 21st century (seeker-friendly, purpose-driven, mega church, meta church, etc.), Pastor Mike helps us rediscover God's own original design—the Temple template. You bring the ordinary. God brings the extra. That makes you extraordinary! You bring the natural. God brings the super. That makes you supernatural! You bring the bottle. God brings the lightning. And you become lightning in a bottle! From the first novel, *REVELATIONS* - Tyce Greyson is a journalist with a background of having strange visions due to a serpent's bite suffered while on Patmos, the Aegean island where the Prophet John received the Revelation. Now, Tyce has had a car accident during a powerful rainstorm. Upon getting extricated from his wrecked car he is shown a strange, golden sarcophagus in the back of the tractor-trailer that caused the accident. He later learns that the golden, burial chamber is part of the project in which he is asked by the Israeli government to participate. He is assigned to investigate and write on the archeological find. But in reality, he is surreptitiously to learn what diabolical, globalists plan for the creature found within the sarcophagus... From 2003 when the mummy is discovered in a dried-up, Euphrates riverbed in the area of ancient Babylon, through the time when the globalists threaten to establish an evil world empire in 2020. "Terry James is not only a good author; he is one of the few who knows why this world is on the verge of self-destruction and what must be done about it. The reason is he has a deep understanding of the End Times prophecies of the Bible, both Old and New Testaments. For they alone reveal the wonderful plan God has for the future of mankind today and for our eternal future." - Dr. Tim LaHaye, co-author of the *Left Behind* series. Michael Vey seems like an ordinary teenager, but he has a unique power. After his mother is kidnapped he and his friends have to find his mother and fight the hunters to save other kids with the same powers. "The 'Cadillac' of USAAF fighters in World War 2, the Lightning was a highly innovative design produced by Lockheed of Burbank, California. In response to a challenging requirement for a long range, high speed and high altitude fighter to escort the AAF's rapidly expanding B-17 and B-24 heavy bomber fleets. To meet the criterion laid down in the requirement, the company adopted a revolutionary twin boom layout and supercharged Allison engines. The latter initially proved troublesome, but the gremlins were eventually sorted out and the type went on to see much action in Europe, North Africa, the Mediterranean, the Pacific and the CBI. Using the best Lockheed official and private archival black and white photographs available, combined with period colour advertisements, a double-page cutaway drawing and scale plans, this volume reveals all facets of the Lightning's construction and frontline use." --Back cover. *People of the Lightning* takes us into ancient Florida, to a village of fisher folk who must face their deepest fear: Pondwander, the White Lightning Boy, the first of his kind to be born in tens of tens of summers. His white hair, pink eyes, and pale skin make him fearsome enough, but prophecy foretells that a Lightning Boy is destined to make Sister Moon bury her face in the clouds and weep falling stars—and unleash the winds of destruction. Fearing their ultimate demise, the folk manage to trade him off in marriage to Musselwhite, a woman warrior who knows nothing of the prophecy. But when Pondwander is kidnapped, she must face an ages-old enemy who has always been determined to destroy her. But what is truly in store now that this Lightning Boy is hearing voices in the wind, telling him of his role in the coming horror? On September 30, 2014, Michael William Olson, talented poet and loving goofball, was shot and killed by an armed robber while out for a walk in his home city of Portland, Oregon. Michael shared his work with friends and strangers alike on a web forum, and the bulk of this poetry, nearly 200 poems spanning a decade, has been gathered into this book-his "diary in verse," so to speak. His writing touched everyone on a very human, highly relatable level while maintaining the wry, self-deprecating humor for which he was known. To honor the medium in which Michael presented his poetry, this collective is arranged chronologically. The story of the legendary Xerox PARC -- where eccentric young inventors were brought together by Xerox Corp. at a facility in Palo Alto, CA, during the 070s and 080s. This

extraordinary group brought about a technological revolution that would change the world. Takes the reader on a journey from PARC's beginnings at the edge of Stanford Univ. to its triumph as a hothouse of ideas that spawned not only the first personal computer, but the windows-style graphical user interface, the laser printer, the indispensable technology of the Internet, and more. Details the frustration of the original PARC scientists, many of whom would go on to build their fortunes upon the very ideas Xerox discarded. This book highlights the essential theoretical and practical aspects of lightning, lightning protection, safety and education. Additionally, several auxiliary topics that are required to understand the core themes are also included. The main objective of the contents is to enlighten the scientists, researchers, engineers and social activists (including policy makers) in developing countries regarding the key information related to lightning and thunderstorms. A majority of developing countries are in tropics where the lightning characteristics are somewhat different from those in temperate regions. The housing structures and power/communication networks, and human behavioural patterns (that depends on socio-economic parameters) in these countries are also different from those in the developed world. As the existing books on similar themes address only those scenarios in developed countries, this book serves a vast spectrum of readership in developing world who seek knowledge in the principles of lightning and a practical guidance on lightning protection and safety education. All seven electrifying books in the New York Times bestselling Michael Vey series are now available in a collectible hardcover boxed set! This boxed set includes: Michael Vey: The Prisoner of Cell 25 Michael Vey 2: Rise of the Elgen Michael Vey 3: Battle of the Ampere Michael Vey 4: Hunt for Jade Dragon Michael Vey 5: Storm of Lightning Michael Vey 6: Fall of Hades Michael Vey 7 The Los Angeles Dana Spiotta evokes in her bold and strangely lyrical first novel is a land of Spirit Gyms and Miracle Miles, a great centerless place where chains of reference get lost, or finally don't matter. Mina lives with her screenwriter husband and works at her best friend Lorene's highly successful concept restaurants, which exploit the often unconscious desires and idiosyncrasies of a rich, chic clientele. Almost inadvertently, Mina has acquired two lovers. And then there are the other men in her life: her father, a washed-up Hollywood director living in a yurt and hiding from his debtors, and her disturbed brother, Michael, whose attempts to connect with her force Mina to consider that she might still have a heart -- if only she could remember where she had left it. Between her Spiritual Exfoliation and Detoxification therapies and her elaborate devotion to style, Lorene is interested only in charting her own perfection and impending decay. Although supremely confident in a million shallow ways, she, too, starts to fray at the edges. And there is Lisa, a loving mother who cleans houses, scrapes by, and dreams of food terrorists and child abductors, until even the most innocent events seem to hint at dark possibilities. Lightning Field explores the language tics of our culture -- the consumerist fetishes, the self-obsession and the peeing possibility that you just might have gotten it all badly wrong. In funny, cutting, unsentimental prose, Spiotta exposes the contradictions of contemporary lives in which "identity is a collection of references." She writes about overcoming not just despair but ambivalence. Playful and dire, raw and poetic, Lightning Field introduces a startling new voice in American fiction. Library Journal Don't Miss The Spin-Off Series: OFF THE GRID: FBI SERIES Perilous Trust (#1) Reckless Whisper (#2) Desperate Play (#3) Elusive Promise (#4) Dangerous Choice (#5) Ruthless Cross (#6) Critical Doubt (#7) Fearless Pursuit (#8) Daring Deception (#9) Risky Bargain (#10) Perfect Target (#11) Fatal Betrayal (#12) From the acclaimed author of "the most compelling new series in crime fiction" (Michael Koryta, New York Times bestselling author) comes "a sharply observed novel" (New York Times) that explores race, law enforcement, and justice in mid-century Atlanta. Officer Denny Rakestraw and "Negro Officers" Lucius Boggs and Tommy Smith have their hands full in an overcrowded and rapidly changing Atlanta. It's 1950 and racial tensions are simmering as black families, including Smith's sister, begin moving into formerly all-white neighborhoods. When Rake's brother-in-law launches a scheme to rally the Ku Klux Klan to "save" their neighborhood, his efforts spiral out of control, forcing Rake to choose between loyalty to family or the law. Across town, Boggs and Smith try to shut down the supply of white lightning and drugs into their territory, finding themselves up against more powerful foes than they'd expected. Battling corrupt cops and ex-cons, Nazi brown shirts and rogue Klansmen, the officers are drawn closer to the fires that threaten to consume the city once again. With echoes of Walter Mosley and Dennis Lehane, Mullen "expands the boundaries of crime fiction, weaving in eye-opening details from our checkered history" (Chicago Tribune). Michael and his friends try to recruit Hatch's Electric Youth to their side as the thrilling action continues in this electrifying sixth installment of the New York Times bestselling series! Michael and the Electroclan are about to embark on their deadliest mission yet. Some of them may not make it back. The head of the resistance, known only as the voice, believes that the best way to wipe out the Elgen is to steal their money. That means capturing the Joule, the Elgen boat that serves as a floating treasury. To do this, Michael and his friends need help...a lot of help. They've learned about a highly placed member of the Elite Elgen Guard named Welch, who wants to defect. They also know that Hatch has condemned three of his electric youth to death. If the Electroclan can get to Welch before the Elgen do, and if they can rescue Quentin, Torstyn, and Tara, they just might be able to steal the Joule. But it's a big "if"... The stakes have never been higher, and Michael and his friends are about to be tested in ways they never imagined. An instant New York Times bestseller, this prequel to the acclaimed Cork O'Connor series is "a pitch perfect, richly imagined story that is both an edge-of-your-seat thriller and an evocative, emotionally charged coming-of-age tale" (Kristin Hannah, #1 New York Times bestselling author) about fathers and sons, small-town conflicts, and the events that shape our lives forever. Aurora is a small town nestled in the ancient forest alongside the shores of Minnesota's Iron Lake. In the summer of 1963, it is the whole world to twelve-year-old Cork O'Connor, its rhythms as familiar as his own heartbeat. But when Cork

stumbles upon the body of a man he revered hanging from a tree in an abandoned logging camp, it is the first in a series of events that will cause him to question everything he took for granted about his hometown, his family, and himself. Cork's father, Liam O'Connor, is Aurora's sheriff and it is his job to confirm that the man's death was the result of suicide, as all the evidence suggests. In the shadow of his father's official investigation, Cork begins to look for answers on his own. Together, father and son face the ultimate test of choosing between what their heads tell them is true and what their hearts know is right. In this "brilliant achievement, and one every crime reader and writer needs to celebrate" (Louise Penny, #1 New York Times bestselling author), beloved novelist William Kent Krueger shows that some mysteries can be solved even as others surpass our understanding. While on their most dangerous mission so far, Michael, Taylor, Ostin, and the rest of the Electroclan discover the resistance has been compromised and their families are missing. Michael Vey is back with an electrifying eighth installment of the award-winning, #1 New York Times bestselling series. Join Michael and the Electroclan as a new threat arises even more terrible and calculating than the Elgen. Michael and his friends learn that returning to a normal life is not only more difficult than they imagined, but that normal doesn't last. Like the mythical Hydra, cutting off the head of the global Elgen only created more enemies. Michael Vey fans worldwide will celebrate the return of this exciting series with the world's greatest team of electric superheroes. "Michael and the rest of the Electroclan are facing their greatest crisis yet. The resistance movement has been compromised, and they have no idea if their families are alive... or dead. What they do know is that the Elgen won't stop until they've destroyed the Electroclan."--Back cover. The Electroclan is on the run. The resistance movement has been compromised. The safe house has been destroyed. The voice is in hiding, and they have no idea if their families are alive...or dead. Michael, Taylor, Ostin, and the rest of the Electroclan head to Taiwan in search of nine-year-old child prodigy Lin Julung, or Jade Dragon, who the Elgen kidnapped for Hatch's army of electric children. The Electroclan must find Michael Vey who has gone missing. Annotation A lively and entertaining study of early electrical technology, this book brings to life the technologies and inventors--most notably Benjamin Franklin--who forged the way for our modern electrical world. An insider's look at Hollywood and how movies and television shows are made. In *Batman's Batman*, Michael E. Uslan, executive producer of the Batman movie franchise, offers an insider's look at Hollywood and the process of how movies and television shows go from the drawing board to your screens. Continuing the delightful tale of his adventures begun in *The Boy Who Loved Batman*, Uslan draws on both his successful and less successful attempts to bring ideas to the screen, offering a helpful, honest, and breezily told guide to producing films. From passion to promotion, from the initial pitch to selecting the best partners and packaging, Uslan reveals the 13 qualities essential to would-be producers. A lively memoir and a valuable glimpse inside Hollywood rarely seen by the public, *Batman's Batman* is sure to please fans of Michael Uslan and the Batman franchise, but will also prove to be an invaluable resource for any aspiring producers, as he guides readers through the Land of Bilk and Money. In terms of his impact on the motion picture and television industries, from a world box office perspective, it's not only fair, but probably undeniable, to say that Jerry Bruckheimer is the most successful producer in the history of both mediums. One need merely look at Bruckheimer's resume to verify this statement. His successes include *Flashdance*, *Beverly Hills Cop* and *Beverly Hills Cop II*, *Top Gun*, *Bad Boys* and *Bad Boys II*, *Crimson Tide*, *The Rock*, *Con Air*, *Armageddon*, *Enemy of the State*, *Remember the Titans*, *Pearl Harbor*, *Black Hawk Down*, the *Pirates of the Caribbean* trilogy, and the *National Treasure* films, plus TV's three *CSI* programs, *Cold Case*, and *The Amazing Race*. His films have either made, consolidated, or reinvented the images of Johnny Depp, Tom Cruise, Nicolas Cage, Richard Gere, Eddie Murphy, Will Smith, Ben Affleck, Denzel Washington, Keira Knightley, and Jake Gyllenhaal. Bruckheimer's films and television shows have not only influenced popular culture, but, in some cases, defined it. And although cinema is usually considered a director's medium—and Bruckheimer is well known to be completely respectful of their visions on his productions—he has an indelible creative stamp that harkens back to the days of such strong, hands-on pioneers as David O. Selznick, Darryl F. Zanuck, Sam Spiegel, and, for that matter, Walt Disney. *Jerry Bruckheimer - When Lightning Strikes: Four Decades of Filmmaking* commemorates the uber-producer's entire career thus far, from his early years in advertising, all the way through to his most recent blockbuster. The stories behind all of his films and television shows are revealed through informative text written by Bruckheimer's VP of Publicity, Michael Singer, who has worked beside the producer in deserts, on tropical islands, and at every conceivable filming location in between. The images that accompany the text tell their own story, of directors, actors, and writers coming together with Bruckheimer to create films, characters, and screenplays that have become iconic, beloved, and oft-quoted. It is a story that parallels the stories of many Bruckheimer films; after all, he is the ultimate working-class hero who has forged his own brand in "world made of steel." To stop Hatch from using the Elgen fleet to gain world power, Michael and the rest of the Electroclan must destroy the lead ship, but divisions within the Electroclan threaten the success of their operation. *Lightning Bolts and Butterflies* is a collaborative effort between Michael and debi Story Maddox, who have been married to each other since 1970. It's nothing new for them to work together. They have always been a team ever since their early hippie days, when they devoted themselves to promoting peace in the world. This collection of poetry and prose provides insight into their hearts and spirits. debi describes many of Michael's poems as striking her as lightning bolts, which is in keeping with his straightforwardness and uncompromising character. Mike has always referred to debi as a colorful butterfly, because of the beauty she brings to the world through her personality and art. *Lightning Bolts and Butterflies* is indicative of the balance they have with one another. The book also conveys their continuing efforts to promote love and peace through the *Prince of Peace*. #1 New York Times bestselling author Dean Koontz's brilliantly thrilling novel of suspense. In the midst of a raging blizzard, lightning struck on the night Laura Shane was born. And a mysterious blond-haired stranger showed up just in time to save her from dying. Years later, in the wake of another storm, Laura will be saved again. For someone is watching over her. Is he the guardian angel he seems? The devil in disguise? Or the master of a haunting destiny beyond all time and space? "A gripping novel...fast-paced and satisfying."—*People* It's 2356, 330 years into the future of an advanced modern civilization on earth. They are the ancestors of survivors leveled by the centuries before world war. Civilization has caught up with itself and surpassed the old world. Bloody history on earth had repeated itself, and humanity finds themselves on the brink of extinction. This is the story about military Major Aion Crescent. The path of Aion takes him to the battlefield of world war, the afterlife, and the improbable return 35 years later into the still ongoing war. There is no more time to lay down...The enemy never takes the day off. Particularly intense lightning discharges can produce transient luminous events above thunderclouds, termed sprites, elves and jets. These short lived optical emissions in the mesosphere can reach from the tops of thunderclouds up to the ionosphere; they provide direct evidence of coupling from the lower atmosphere to the upper atmosphere. Sprites are arguably the most dramatic recent discovery in solar-terrestrial physics. Shortly after the first ground based video recordings of sprites, observations on board the Space Shuttle detected sprites and elves occurring all around the world. These reports led to detailed sprite observations in North America, South America, Australia, Japan, and Europe. Subsequently, sprites were detected from other space platforms such as the International Space Station and the ROCSAT satellite. During the past 15 years, more than 200 contributions on sprites have been published in the scientific literature to document this rapidly evolving new research area. Michael must save his mother—and protect his powers—in the electric sequel to the #1 New York Times bestselling Michael Vey, from Richard Paul Evans. I rolled over to my back, struggling for breath. But what’s waiting for them there will change everything. After using their wits and powers to narrowly escape an Elgen trap, a mysterious voice leads the Electroclan to the jungles of Peru in search of Michael’s mother. In the bestselling tradition of The Soul of a New Machine, Dealers of Lightning is a fascinating journey of intellectual creation. In the 1970s and '80s, Xerox Corporation brought together a brain-trust of engineering geniuses, a group of computer eccentrics dubbed PARC. This brilliant group created several monumental innovations that triggered a technological revolution, including the first personal computer, the laser printer, and the graphical interface (one of the main precursors of the Internet), only to see these breakthroughs rejected by the corporation. Yet, instead of giving up, these determined inventors turned their ideas into empires that radically altered contemporary life and changed the world. Based on extensive interviews with the scientists, engineers, administrators, and executives who lived the story, this riveting chronicle details PARC's humble beginnings through its triumph as a hothouse for ideas, and shows why Xerox was never able to grasp, and ultimately exploit, the cutting-edge innovations PARC delivered. Dealers of Lightning offers an unprecedented look at the ideas, the inventions, and the individuals that propelled Xerox PARC to the frontier of technohistory--and the corporate machinations that almost prevented it from achieving greatness.
