Baby Bomb Jun 17 2020 Before you succeed at parenting, you need to succeed as a couple! Baby Bomb is the resource you need when a new baby turns your life—and your romantic relationship—upside down. A baby is a blessing—and also a completely life-altering event. If you're like many new parents, nothing could have fully prepared you for the exhaustion of late-night feedings, the explosive diapers, the evaporation of your free time, the pure joy, and the moments of pure terror. In the midst of these hazy, early months, it's normal to feel overwhelmed. And when you're overwhelmed, it's easy to put your romantic relationship on the back burner. But, more and more, research shows that in order to be the best parents you can be, you and your partner need to make sure that your needs—as a couple—are also met. Written by a psychologist and relationship expert, Baby Bomb offers powerful tools based in psychology and neurobiology to help you and your partner co-parent and co-partner as a solid and supportive team—while also cultivating mad love for each other! You'll find more than just “tips” for better parenting and partnering; you'll discover how a secure-functioning relationship is essential for raising happy, healthy kids. This isn't a book with advice about how to have a romantic candlelit dinner while your baby is screaming in the other room. It's a road map for getting on the same page about your expectations as parents, about your needs as humans, and about how to maintain a strong and lasting relationship in the face of, well, a baby bomb.

The Legend of Baby Doe Sep 13 2022 In her pulchritudinous prime Baby Doe was called the Silver Queen of Colorado by journalists and "that shameless hussy" by the proper wives of the men who eyed her. Flirtatious, adventurous, ambitious, Elizabeth McCourt Doe gave everyone a lot to talk about when she met Horace Tabor, the Silver King of Leadville, in 1880. Three years later they were free to legalize their passion. Although thirty years separated them, they were well matched in romantic recklessness. If *The Legend of Baby Doe* is the lowdown on the high jinks of two public lives, it is also the story of a love that survived spectacularly good times and bad. Before bad times came, Baby and Horace went on a spending spree. They built an opulent opera house in Denver and bought an Italian-style villa. Baby Doe went out bejeweled and ermined, and sat at home alone, snubbed by the social dragons. John Burke has written about the giddy rise of a bonanza king who dreamed of entering the White House with Baby Doe on his

arm and about the disastrous fall they took together. Wiped out by unwise investments and the Panic of 1893, Tabor soon died, leaving Baby Doe and their two daughters penniless.

Reportedly, his deathbed order was to "hang on to the Matchless," a played-out mine filled with water. She managed to do that for almost four decades, struggling heroically against loneliness, poverty, and heartbreak, and becoming one of the great legends of the American West.

The Happiest Baby on the Block Jul 11 2022 Perfect for expecting parents who want to provide a soothing home for the newest member of their family, *The Happiest Baby on the Block*, the national bestseller by respected pediatrician and child development expert Dr. Harvey Karp, is a revolutionary method for calming a crying infant and promoting healthy sleep from day one. In perhaps the most important parenting book of the decade, Dr. Harvey Karp reveals an extraordinary treasure sought by parents for centuries --an automatic "off-switch" for their baby's crying. No wonder pediatricians across the country are praising him and thousands of Los Angeles parents, from working moms to superstars like Madonna and Pierce Brosnan, have turned to him to learn the secrets for making babies happy. Never again will parents have to stand by helpless and frazzled while their poor baby cries and cries. Dr. Karp has found there IS a remedy for colic. "I share with parents techniques known only to the most gifted baby soothers throughout history ...and I explain exactly how they work." In a innovative and thought-provoking reevaluation of early infancy, Dr. Karp blends modern science and ancient wisdom to prove that newborns are not fully ready for the world when they are born. Through his research and experience, he has developed four basic principles that are crucial for understanding babies as well as improving their sleep and soothing their senses: ·The Missing Fourth Trimester: as odd as it may sound, one of the main reasons babies cry is because they are born three months too soon. ·The Calming Reflex: the automatic reset switch to stop crying of any baby in the first few months of life. ·The 5 "S's": the simple steps (swaddling, side/stomach position, shushing, swinging and sucking) that trigger the calming reflex. For centuries, parents have tried these methods only to fail because, as with a knee reflex, the calming reflex only works when it is triggered in precisely the right way. Unlike other books that merely list these techniques Dr. Karp teaches parents exactly how to do them, to guide cranky infants to calm and easy babies to serenity in minutes...and help them sleep longer too. ·The Cuddle Cure: the perfect mix the 5 "S's" that can soothe even the most colicky of infants. In the book, Dr. Karp also explains: What is colic? Why do most babies get much more upset in the evening? How can a parent calm a baby--in mere minutes? Can babies be spoiled? When should a parent of a crying baby call the doctor? How can a parent get their baby to sleep a few hours longer? Even the most loving moms and dads sometimes feel pushed to the breaking point by their infant's persistent cries. Coming to the rescue, however, Dr. Karp places in the hands of parents, grandparents, and all childcare givers the tools they need to be able to calm their babies almost as easily as...turning off a light. From the Hardcover edition.

Get Published Jul 23 2023 It has never been easy for new authors to find a publisher but in the last few years it has become significantly harder. In 2008, the average author earned less than £7000 per annum. According to The Times approximately 200,000 books were available for sale in the UK in 2007. Of that total, 190,000 titles sold fewer than 3,500 copies. The top 5% of titles

by sales volume accounted for over 60% of total book sales. No wonder publishers are careful about signing new writers. But there is good news in amongst all the doom and gloom. Right now, it has never been easier to be published. Everyone who posts something on Facebook is in effect a published author. And some blogs are read by tens of thousands of people daily, many more than might pick up a physical book by the same author. Then there's self-publishing, vanity publishing, print on demand and so on. But how do you find your way round this minefield? Get published has been written by publishing insiders to help new authors understand the way publishers think and set about publishing if they can't get a commercial publisher interested.
