The Winning Formula For Effective Public Speaking Oct 20 2020 Most speakers consider persuasive speaking as the most difficult of the three basic types (informative, persuasive, and entertaining). One of the reasons why understanding the demands of persuasive speaking is more difficult is because it requires a knowledge of terms that are specific to argumentation, such as claims and evidence. Being honorable and honest in the work you do and in your relations to others is essential in speaking and in your profession. Having an honorable character also provides you with personal benefits and can enhance your career. Through storytelling, humor, and proven rhetorical techniques, an award-winning speaker, the author will teach you where ideas come from, and how to find more of them. Seven steps to building your speech, and the WTF approach to start it. The (old and new) science of storytelling. How to practice like Bill Murray, and to avoid the speaker's Kryptonite. The only explanation of humor you'll ever need (or want). Finally, how brutal honesty will improve your speaking - and your life. You'll learn, you'll laugh, you might cry - but after reading this book, your public speaking will never be the same.

The Winning Formula Aug 30 2021 'The Winning Formula' offers many tools to help you overcome your fears and fight adversity in your life in order to achieve your goals and dreams.

The Winning Formula May 19 2023 This book is about life and how to attain or approximate our most important aspirations. It is designed to benefit everyone involved in any kind of venture, or relationship. The book is especially important to people who, on a daily basis, have to achieve important (personal or business) objectives by persuading others to see things their way, or at least to meet them half way for a constructive and beneficial outcome. This book is about life in all of its aspects. It attempts to reach and be helpful to each reader in most aspects of life, which the reader may need to improve, or re-evaluate. Part of the objective of this book is to make a person acting in an informed manner, become more comfortable with the choices that may from time to time be made. Understanding why those choices were made, and owning the benefits and being prepared to stoically deal with the attendant consequences that may flow from those choices. To be sure, this book is partly a concession to the sometimes unfathomable world in which we live. It is therefore no more than my own imperfect effort of attempting to make some sense out of how and why things are the way they are. How

and why things have tended to work best for most people who have been deemed successful in various aspects of human endeavor, whether as a great parent, effective leader, a good advocate, an inspired creator of abundant wealth, an admired citizen, a trusted partner, or a great friend. Briefly, therefore, this book is divided into three broad chapters. Each chapter is further sub-divided into appropriate sections, for an easy and hopefully logical flow. Chapter one attempts to lay out the general foundation for the kinds of issues and challenges to be addressed. Chapter two addresses these issues in the context of various life circumstances and relationships we each find, or may from time to time, find ourselves. Chapter three, the last chapter, hopefully succeeds in tying it all together. The goal of the book is achieved. By the time one completes reading the book, each reader will be able to identify a personal road map for success. And this road map is applicable to whatever field of endeavor, or aspect of life, that each person may desire greater measure of success. As we each pursue our respective aspirations which could range from a desire to be loved and embraced; a quest to be perceived as worthy; an important recognition, respect, reward, or some other opportunity, it is very important to be very cognizant of the kinds of actions, attitude, or mind set, that are more likely than not, to aid us in attaining the ultimate goal we crave. I call the constructive application of these various life tenets, **THE WINNING FORMULA**.
