[Maryanne Amacher: Selected Writings and Interviews Feb 10 2022](#) The first ever book on

American composer and sound-art pioneer Maryanne Amacher, with letters, manifestos, notes and more elucidating her eclectic thinking on sound and perception Maryanne Amacher (1938-2009) was a composer of large-scale fixed-duration sound installations and a highly original thinker in the areas of perception, sound spatialization and aural architecture. She is frequently cited as a pioneer of what has come to be called "sound art," although her thought and work challenges assumptions about the limitations of that genre.

Maryanne Amacher: Selected Writings and Interviews represents the first ever book-length collection devoted to the composer, whose life and work are as vast as they are as yet unknown. From personal notes and letters to program notes, manifestos and unrealized project proposals, the documents are framed by longer interviews with Amacher that discuss corresponding periods of her life. Because Amacher worked across nearly every imaginable media format, this book will be of tremendous interest to theorists and practitioners in media and communications, urban design, contemporary art history, music studies, sound studies, film, radio, art criticism and performance studies.

Writings from Ancient Egypt Jul 06 2021 'Man perishes; his corpse turns to dust; all his relatives pass away. But writings make him remembered' In ancient Egypt, words had magical power. Inscribed on tombs and temple walls, coffins and statues, or inked onto papyrus, hieroglyphs give us a unique insight into the life of the Egyptian mind.

Egyptologist Toby Wilkinson has freshly translated a rich and diverse range of ancient Egyptian writings into modern English, including tales of shipwreck and wonder, obelisk inscriptions, mortuary spells, funeral hymns, songs, satires and advice on life from a pharaoh to his son. Spanning over two millennia, this is the essential guide to a complex, sophisticated culture.

Translated with an Introduction by Toby Wilkinson

Fluent Forever Oct 09 2021 NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. "A brilliant and thoroughly modern guide to learning new

languages."—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Gun Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn't learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he's discovered. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of

sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.
