Make Good the Promises Apr 25 2021 The companion volume to the Smithsonian's National Museum of African American History and Culture exhibit, opening in September 2021 With a

Foreword by Pulitzer Prize-winning author and historian Eric Foner and a preface by veteran museum director and historian Spencer Crew An incisive and illuminating analysis of the enduring legacy of the post-Civil War period known as Reconstruction—a comprehensive story of Black Americans’ struggle for human rights and dignity and the failure of the nation to fulfill its promises of freedom, citizenship, and justice. In the aftermath of the Civil War, millions of free and newly freed African Americans were determined to define themselves as equal citizens in a country without slavery—to own land, build secure families, and educate themselves and their children. Seeking to secure safety and justice, they successfully campaigned for civil and political rights, including the right to vote. Across an expanding America, Black politicians were elected to all levels of government, from city halls to state capitals to Washington, DC. But those gains were short-lived. By the mid-1870s, the federal government stopped enforcing civil rights laws, allowing white supremacists to use suppression and violence to regain power in the Southern states. Black men, women, and children suffered racial terror, segregation, and discrimination that confined them to second-class citizenship, a system known as Jim Crow that endured for decades. More than a century has passed since the revolutionary political, social, and economic movement known as Reconstruction, yet its profound consequences reverberate in our lives today. *Make Good the Promises* explores five distinct yet intertwined legacies of Reconstruction—Liberation, Violence, Repair, Place, and Belief—to reveal their lasting impact on modern society. It is the story of Frederick Douglass, Frances Ellen Watkins Harper, Hiram Revels, Ida B. Wells, and scores of other Black men and women who reshaped a nation—and of the persistence of white supremacy and the perpetuation of the injustices of slavery continued by other means and codified in state and federal laws. With contributions by leading scholars, and illustrated with 80 images from the exhibition, *Make Good the Promises* shows how Black Lives Matter, #SayHerName, antiracism, and other current movements for repair find inspiration from the lessons of Reconstruction. It touches on questions critical then and now: What is the meaning of freedom and equality? What does it mean to be an American? Powerful and eye-opening, it is a reminder that history is far from past; it lives within each of us and shapes our world and who we are.

*Oliphant's Anthem* Jul 09 2022 Ironic, isn't it? For more than a quarter century, Pat Oliphant has skewered the denizens of Congress with his biting sharp editorial cartoons. Now, in an exhibit and this companion volume, Oliphant is honored in the very repository of that illustrious body: The Library of Congress. Oliphant is, after all, the most important political cartoonist of the 20th century. His trademark wit -- shared with the adoring fans who read almost 350 daily and Sunday newspapers that carry his work -- has impaled presidents, dogged members of Congress, and critiqued a whole host of issues. From Vietnam to Bosnia, from Lyndon Johnson to Bill Clinton, Pat Oliphant has applied his considerable talent to the workings of the world. *Oliphant's Anthem* will catalog the 60 drawings, sculptures, and various art media that will be exhibited as a special tribute to Pat Oliphant's art in March 1998 at the Library of Congress. Interviews with the artist throughout the book will highlight his thoughts, concerns, and considerations as he has created this impressive body of work. The Atlantic Charter Sep 11 2022 In August 1941 Churchill and Roosevelt met in a secluded bay off the coast of Newfoundland. It was the first of their wartime meetings and in many respects the most significant. The Atlantic Charter, its result, proclaimed the two leaders' vision of a new world order, a set of principles that would govern international relations with the coming of peace. This remarkable collection of essays is the result of an international conference of American, British, and Canadian scholars held at Memorial University of Newfoundland that marked the 50th anniversary of the historic meeting. The essays discuss both the Charter's formulation and its long-term significance, and provide fascinating perspectives on the Second World War and its aftermath.

Representing Congress Jun 20 2023 INTRODUCTION Representing Congress presents a selection of political cartoons by Clifford K. Berryman to engage students in a discussion of what Congress is, how it works, and what it does. It features the masterful work of one of America's preeminent political cartoonists and showcases his ability to use portraits, representative symbols and figures, and iconic personifications to convey thought-provoking insights into the institutions and issues of civic life. The House of Representatives and Senate take center stage as national elected officials work to realize the ideals of the Founders. This eBook is designed to teach students to analyze history as conveyed in visual media. The cartoons offer comments about various moments in history, and they challenge the reader to evaluate their perspective and objectivity. Viewed outside their original journalistic context, the cartoons engage and amuse as comic art, but they can also puzzle a reader with references to little-remembered events and people. This eBook provides contextual information on each cartoon to help dispel

the historical mysteries. Berryman's cartoons were originally published as illustrations for the front page of the Washington Post and the Washington Evening Star at various dates spanning the years from 1896 to 1949. Thirty-nine cartoons selected from the more than 2,400 original Berryman drawings preserved at the Center for Legislative Archives convey thumbnail sketches of Congress inaction to reveal some of the enduring features of our national representative government. For more than 50 years, Berryman's cartoons engaged readers of Washington's newspapers, illustrating everyday political events as they related to larger issues of civic life. These cartoons promise to engage students in similar ways today. The cartoons intrigue and inform, puzzle and inspire. Like Congress itself, Berryman's cartoons seem familiar at first glance. Closer study reveals nuances and design features that invite in-depth analysis and discussion. Using these cartoons, students engage in fun and substantive challenges to unlock each cartoon's meaning and better understand Congress. As they do so, students will develop the critical thinking skills so important to academic success and the future health and longevity of our democratic republic.

Nowadays, this may be hard to imagine, but it was only fifty years ago all of this changed with the introduction of the historical civil rights bill Title IX. This is the story about the determined lawmakers, teachers, parents, and athletes that advocated for women all over the country until Congress passed the law that paved the way for the now millions of girls who play sports; who make up over half of the country's medical and law students; who are on the national stage winning gold medals and world championships; who are developing life-changing vaccines, holding court as Supreme Court Justices, and leading the country as vice president. All because of Title IX and the people who believed girls could do anything—and were willing to fight to prove it. This updated edition of Let Me Play includes new chapters about how Title IX is being used in the fight for transgender rights and justice for sexual assault survivors and a refreshed epilogue highlighting the remarkable female athletes of today and the battles they're still fighting.
