Secondary Sources in the History of Canadian Medicine Feb 20 2021 Volume Two of this retrospective bibliography is both a continuation and an expansion of Volume One (1984). It contains references to Canadian medical-historical literature published between 1984 and 1998, and also includes much additional material published prior to 1984. Finally, it substantially enlarges the content of French-language material. Every effort has been made to be as inclusive as possible of articles, theses, book chapters and books, both in English and in French, relating to the history of medicine. No single electronic source can replace this bibliography. The contents are divided into three sections. The first is a listing of material expressly biographical. Section two lists material under a wide variety of subject headings related to medicine, and the third is a complete listing of the authors who have contributed these articles. Simply organized and easy to use, this bibliography will be of value to historians, archivists, librarians, and anyone interested in the history of medicine.

The Battle of Verneuil 1424 Aug 29 2021 In August 1424 the armies of England, Scotland and France met in the open fields outside the walls of Verneuil in a battle that would decide the future of the English conquests in France. The hero king, Henry V, had been dead for two years and the French felt that this was their chance to avenge their startling defeat at Agincourt, and recover the lands that Henry had won for England. Despite its importance, the battle is largely overlooked in accounts of the Hundred Years War. *The Battle of Verneuil 1424* is the first proper account of the battle, and is also one of the first books to outline the important part the Scots played in the wars in France in the years between the two great battles of Agincourt and Verneuil.

Ghost Battalion Jun 14 2020 The 49th Engineer Combat Battalion is called the "Ghost Battalion" because so little is known about this fascinating unit in WWII and its contributions to history. The 49th landed on Utah Beach on D-day, clearing beach obstacles, mines, taking and holding key points, building bridges and

rescuing Airborne soldiers trapped behind enemy lines. Follow this unit through major campaigns and battles including Ardennes (Battle of the Bulge), Huertgen Forest, Cherbourg, Cologne Plain and Ruhr Pocket. This is a true historical rendering of their story taken from actual unit journals, battle casualty reports, photos and maps.

The Transformation of the Laity in Bergamo, 1265-c.1400 Jun 07 2022 This book examines the tension between social mores and religious activities among the laity in the Italian diocese of Bergamo during the later Middle Ages (1265-c.1400), employing a range of archival sources to illuminate the complexity of late medieval religious culture.

Men vs monkey Oct 11 2022 Parlons un peu chiffres ! 1,3% de différence seulement entre homo sapiens et les chimpanzés, les bonobos ou les gorilles... Par comparaison, cette est de 1,5% entre les femmes et les hommes. Du point de vue génétique, il y a donc autant et parfois plus de différences entre un mâle et une femelle de l'espèce humaine qu'entre un mâle humain et un mâle chimpanzé ou bonobo. Et à regarder les comportements des mâles sapiens actuels, on peut se poser légitimement la question de savoir s'ils ne sont pas souvent plus proches des grands singes que des femmes. Ce qui n'est d'ailleurs pas nécessairement un mal, même si cela complique beaucoup les relations entre les sexes... Et ce n'est pas en nous berçant de l'illusion que nous sommes semblables au prétexte que nous sommes égaux qu'on se ratera moins. Ce qu'il faut rendre égal, c'est plutôt la valeur accordée à nos différences. Cerveau droite-cerveau gauche, libido et sexualité, vie amoureuse et vie de couple, communication et compromis... C'est ce sur quoi ce livre, avec

beaucoup d'humour mais aussi beaucoup de sérieux (il s'appuie sur de très nombreuses études), se propose de faire le point !

Piety and the People Jun 26 2021 Did the 16th-century Reformation influence French language and culture?

This book, the fullest available bibliography of religious printing in French during the early Reformation, provides the materials to answer this question. It assembles information on all known printed editions in French on religious subjects during the crucial period 1511-51 (up to the Edict of Chateaubriant), giving full bibliographical details, library locations and references in secondary literature. An alphabetical list is complemented by a chronological list, and by an analysis of editions by printers and publishers. The work provides the fullest checklist available of works and editions produced from all parts of the religious spectrum, both Roman Catholic and Protestant. It reveals who were the most active and influential writers, which were the most popular texts, and which were the most active printing centres in the field of religious printing in French. The chronological survey shows the immense growth in publications triggered by the Reformation movement, and reveals the radical change in religious sensibility during the period, from contemplative meditation to polemical debate.

Song, Landscape, and Identity in Medieval Northern France Sep 17 2020 Song, Landscape, and Identity in Medieval Northern France offers a new perspective on how medieval song expressed relationships between people and their environments. Informed by environmental history and harnessing musicological and ecocritical approaches, author Jennifer Saltzstein draws connections between the nature imagery that pervades songs written by the trouvères of northern France to the physical terrain and climate of the lands on which their authors lived. In doing so, she analyzes the different ways in which composers' lived environments related to their songs and categorizes their use of nature imagery as realistic, aspirational, or nostalgic. Demonstrating a cycle of mutual impact between nature and culture, Saltzstein argues that trouvère songs influenced the ways particular groups of medieval people defined their identities, encouraging them to view themselves as belonging to specific landscapes. The book offers close readings of love songs, pastourelles, motets, and rondets from the likes of Gace Brulé, Adam de la Halle, Guillaume de Machaut, and many others. Saltzstein shows how their music-text relationships illuminate the ways in which song helped to

foster identities tied to specific landscapes among the knightly classes, the clergy, aristocratic women, and peasants. By connecting social types to topographies, trouvère songs and the manuscripts in which they were preserved presented models of identity for later generations of songwriters, performers, listeners, patrons, and readers to emulate, thereby projecting into the future specific ways of being on the land. Written in the long thirteenth century during the last major era of climate change, trouvère songs, as Saltzstein demonstrates, shape our understanding of how identity formation has rested on relationships between nature, culture, and change.

My Baby, ça va aller ! Jul 28 2021 L'histoire en quelques mots : Gilles Leclyan avait une vie calme avant sa rencontre avec Juliette, jeune femme victime de trafiquants d'êtres humains. Le récit témoigne de l'intégration "à la française" de Juliette après son audition dans les locaux de l'Office Central de la Répression de la Traite des Êtres Humains (OCRTEH) et du chantage des trafiquants exercé sur sa famille au Nigéria. Se croisent au fil des pages des ministres de la république, des femmes d'associations humanitaires et une ambassadrice humanitaire, ex compagne de Monsieur. Monsieur le Président Hollande passe en "guest star" dans cette histoire vraie. Il aura fallu un quinquennat pour suivre la survie quotidienne de Juliette. Je pensais bien naïvement qu'il était simple d'aider son prochain dans cette France du 21ème siècle qui crie dans les rues "Fraternité et Liberté". Mon but n'a jamais été de publier pour être en affiche. Je veux juste que Juliette ait une vie normale. Je veux que cette histoire ne soit plus silencieuse pour les centaines de filles prises au piège de la prostitution forcée en France. Je veux m'adresser aux hommes et aux femmes qui les payent pour un fantasme. Je veux leur dire. "Faites le en les respectant." Je pensais...

Endocarditis May 26 2021 Endocarditis is a disease that occurs as a result of the inflammation of the endocardium. It is an inflammatory process located in the inner lining of the cardiac chambers and native or prosthetic valves. It is characterized by colonization or invasion of the heart valve vegetations composed of platelets forming, fibrin and microcolonies of microorganisms, and occasionally of inflammatory cells. Other structures may also be affected, such as the interventricular septum, chordae tendineae, the mural endocardium or even intra-cardiac implants. The book covers, with scientific rigour, the most prevalent causes and current treatments of endocarditis, as well as the cases when the organs remote from the heart are affected by this disease.

Georges Gilles de la Tourette Apr 17 2023 The 19th Century brought many medical advances and discoveries in neurology, with the famed Parisian La Salpêtrière hospital at its center. Medical giants such as Jean-Martin Charcot, Joseph Babinski, and even for a short time Sigmund Freud, walked these halls, so it is a wonder that, an equal among these men, very little exists in the literature on Georges Gilles de la Tourette. This biography is the first comprehensive volume to delve into the life, scholarship, writing, and hobbies of the famed doctor. In Part One, we learn Georges' family history, follow his schooling and mentorship under Charcot, travel to the Worlds Fair of 1900, evade an attempted assassination, all before succumbing to death by syphilis. Part Two provides an in-depth analysis of his neurological and psychiatric works, notably the eponymous neurological disorder that will forever remain "Tourette's Syndrome." Part Three looks at the lighter side of Georges, inspecting his favorite past-times as poet, historian, and art critic. Part Four brings an extensive bibliography of Georges' complete body of work. Author Olivier Walusinski pulls together unpublished family archives, Georges' correspondence with the Parisian journalist Georges Montorgueil, journal articles, and police archives to shed an original light on the famed doctor's life and lasting legacy. These archives have never before been studied or made available to the public, making this one of the first and most comprehensive biographies available and a must-have for any medical library.
