[Crossing Purgatory](#) Apr 02 2021 In the wake of family tragedy, an Indiana farmer heads west on the Santa Fe Trail in an "intense and emotionally stirring saga" of the frontier (Booklist, starred review). In spring of 1858, Thompson Grey, a young farmer, travels to his father's estate seeking funds to expand his holdings. Far overstaying his visit, he returns home to find that his absence has contributed to a devastating family tragedy. Haunted by remorse, Thompson abandons his farm and begins a westward exile in the attempt to outpace his grief. Unwittingly, he finds himself at journey's end in the one place where his strongest temptations are able to overtake him and once again put him to the test. Set against the backdrop of the frontier during the years just preceding the Civil War, *Crossing Purgatory* is a beautifully scripted and powerful story of unprincipled ambition, guilt, and the price one man is willing to pay for atonement.

**Avalon** Feb 10 2022 A novel of England during the Viking era, from an author who “has vividly and colorfully portrayed life during the tumultuous Dark Ages” (Historical Novels Review). The last quarter of the tenth century was a time of conflict and exploration—while the Anglo-Saxons fought against the Vikings, Norsemen voyaged into the unknown looking for new lands to pillage, and so discovered America. Prince Rumon of France, descendant of Charlemagne and King Alfred, was a searcher. He had visions of the Islands of the Blessed, perhaps King Arthur’s Avalon, “where falls not hail, or rain, or any snow.” Merewyn grew up in savage Cornwall—a lonely girl, sustained by stubborn courage and belief in her descent from great King Arthur. Chance—or fate—in the form of a shipwreck off the Cornish coast brought Rumon and Merewyn together, and from that hour their lives were intertwined. Bound by his vow to her dying mother, Rumon brings Merewyn safely to England, keeping hidden the shameful secret of her birth. He considers his responsibility ended. At court, he is dazzled by the beautiful Queen Alfrida—but when a murderous truth is revealed, he turns to Merewyn, only to discover that he may have lost her. And he will journey across the Atlantic to find her again . . . From the beloved bestselling author of *Katherine* and *Dragonwyck*, this is a romantic tale of history and adventure “characterized by an authentic sense of time” (The New York Times Book Review).

*DRIVEN* Aug 07 2021 *DRIVEN* is John Aston’s hugely entertaining motoring autobiography. This ambitious and far-ranging book begins with his early days as a teenage car enthusiast and race marshal in the late Sixties before covering the wide range of subjects close to his heart. These include the best and worst of Formula One, the icon that is Ferrari, the writer’s NASCAR adventure, and the delights of long road trips in his beloved Caterham Seven. But that’s not all, as you can read about why the NSU Ro80 was a prophet without honour, as well as what the writer thinks about the changing face of motoring journalism. Yes, one J Clarkson is mentioned ... And there’s more still, as a major part of the book is a first-hand account of a year in British motorsport. The writer’s love of the lesser known categories of motorsport illuminates the text, as does his insight into the places, people and machinery making up the sport’s diversity. He describes the mood music of events ranging from a round of the British Touring

Car Championship to historic race meetings for Cortinas and Minis, before venturing further from the mainstream with drag racing at Santa Pod, speed hillclimbs, autograss and rallying. Oh - he also doubled the average age at a Time Attack meeting. Don't expect objective reporting, as he holds strong opinions, but they are leavened by a tongue firmly lodged in his cheek. Any reader, enthusiast or not, is guaranteed to enjoy reading about these adventures as much as the writer enjoyed having them.

**Electric Cars** Jun 16 2022 An essential introduction to the surprisingly long history of the electric car, from the early pioneers, through to the first commercially viable marques such as Tesla. After a century in the shadow of the internal combustion engine, the electric motor is making a seismic comeback. Battery-propelled vehicles in fact predate petrol and diesel engines; indeed, in the Edwardian era, electric vehicles could well have become the dominant form of transport. While limitations to their range and speed meant that fossil-fuelled cars rapidly left them behind, since the 1970s there have been several efforts to revive electric cars, and with recent carbon emissions commitments, offerings such as the Tesla Model 3 and Nissan Leaf have been well received. This fully illustrated introduction explains these developments, charting the most notable electric cars, from the eccentric Amitron and Zagato Zele to the now-mainstream models that are set to dominate the market, such as the BMW i3 and Renault Zoe.
