*A Century of Sonnets* Jul 24 2023 *A Century of Sonnets* is a striking reminder that some of the best known and most well-respected poems of the Romantic era were sonnets. It presents the broad and rich context of such favorites as Percy Bysshe Shelley's "Ozymandias," John Keats's "On First Looking Into Chapman's Homer," and William Wordsworth's "Composed Upon Westminster Bridge" by tracing the sonnet revival in England from its beginning in the hands of Thomas Edwards and Charlotte Smith to its culmination in the poetry of Elizabeth Barrett Browning and Dante Gabriel Rossetti. Expertly edited by Paula R. Feldman and Daniel Robinson, this volume is the first in modern times to collect the sonnets of the Romantic period--many never before published in the twentieth century--and contains nearly five hundred examples composed between 1750 and 1850 by 81 poets, nearly half of them women. *A Century of Sonnets* includes in their entirety such important but difficult to find sonnet sequences as William Wordsworth's *The River Duddon*, Mary Robinson's *Sappho and Phaon*, and Robert Southey's *Poems on the Slave Trade*, along with Browning's enduring classic, *Sonnets from the Portuguese*. The poems collected here express the full sweep of human emotion and explore a wide range of themes, including love, grief, politics, friendship, nature, art, and the enigmatic character of poetry itself. Indeed, for many poets the sonnet form elicited their strongest work. *A Century of Sonnets* shows us that far from disappearing with Shakespeare and the English Renaissance, the sonnet underwent a remarkable rebirth in the Romantic period, giving us a rich body of work that continues to influence poets even today.

**Decadent Enchantments** Jan 18 2023 The oldest written tradition of European music, the art we know as Gregorian chant, is seen from an entirely new perspective in Katherine Bergeron's engaging and literate study. Bergeron traces the history of the Gregorian revival from its Romantic origins in a community of French monks at Solesmes, whose founder hoped to rebuild the moral foundation of French culture on the ruins of the Benedictine order. She draws out the parallels between this longing for a lost liturgy and the postrevolutionary quest for lost monuments that fueled the French Gothic revival, a quest that produced the modern concept of "restoration." Bergeron follows the technological development of the Gregorian restoration over a seventy-year period as it passed from the private performances of a monastic choir into the public commodities of printed books, photographs, and Gramophone records. She discusses such issues as architectural restoration, the modern history of typography, the uncanny power of the photographic image, and the authority of recorded sound. She also shows the extent to which different media shaped the modern image of the ancient repertory, an image that gave rise to conflicting notions not only of musical performance but of the very idea of music history.

*Supernatural Skyline* Oct 15 2022 While revival may be for a season, the Kingdom of God is "unshakeable and never-ending." *The Supernatural Skyline* unpacks revival, then proposes God's greater plan of continuing Kingdom encounters. Full of supernatural experiences and practical expressions of Christ living in and working through His people today, *The Supernatural Skyline* will expand your vision of the Kingdom to include exciting new spiritual possibilities. Written for thinking Christians who want church life to be meaningful, relevant, and culturally engaging, *The Supernatural Skyline* contends that the church needs to accept the "keys to the Kingdom" and use those keys to unlock doors currently closed to Christ and His purpose. Defining the Kingdom of God as Jesus' life enacted in every sphere—justice, government, economics, education, art—any realm that influences people and their culture—this book will challenge you to consider fresh concepts and biblically sound principles.

*Handcraft Revival Southern Appalachia* Jun 11 2022 Appalachians have always honored craft. Showoff quilts, complicated whittlings, "face jugs," intricate woven coverlets, and the work of famous basketmakers constituted the art of early Appalachia, the life and color of its remote mountain households. By the 1920s, however, the craft tradition was quickly vanishing. This lively, highly personal book recounts the "missionary" effort that preserved the traditional Appalachian craft culture and traces the organization, politics, and economics of later handcraft revival organizations in Southern Appalachia. Deeply involved in many of the events he describes, Garry Barker has worked in the Appalachian crafts world since the early 1960s. He draws on memories of the leading craftspeople of a bygone era, LBJ's War on Poverty, mushrooming markets for craft products, and the rise of academic crafts training. *The Handcraft Revival in Southern Appalachia* represents the thoughtful winnowing of Barker's decades of serendipitous experience and disciplined observation, casual conversation and formal interviews, research and collecting, teaching and writing. The book is the only history of the Appalachian craft movement between 1930 and 1990. As such it will become an essential resource for craftspeople, scholars, and all interested in the Southern Appalachian region. In addition, it constitutes a crucial

chapter in the newly emerging history of American craft.

*Buildings of Pittsburgh* Aug 01 2021 At the forefront of national and international change, Pittsburgh has long been portrayed as a place for innovative architecture. From its origins as a fort built in 1753 at the urging of a twenty-one-year-old George Washington, through its industrial boom, and into contemporary times, when it has become a pioneer for the ideals and philosophy of environmentally friendly architecture, the city has a history of development that exemplifies the transformative nature of America's built environment. With *The Buildings of Pittsburgh*, we now have a substantive reference book (organized by area, with subsets of geographical entries) that relates the architectural history of this ever-changing city up to the present day. Franklin Toker examines Pittsburgh's architectural transformations from its early architecture following the Federal and Gothic Revival styles, to the city's importation in the mid-nineteenth century of new styles in the Romantic tradition, to industrial Pittsburgh with all its factories and huge institutional buildings, and finally to the city's environmentally conscious renaissance that began in the mid-twentieth century. In doing so, he shows why Pittsburgh has consistently been rated among the top three American cities for buildings by the Leadership in Energy and Environmental Design, and how the city once famous for embracing industry and pollution is now preaching the gospel of clean air and "green" architecture.

**A Shopkeeper's Millennium** Nov 16 2022 A quarter-century after its first publication, *A Shopkeeper's Millennium* remains a landmark work--brilliant both as a new interpretation of the intimate connections among politics, economy, and religion during the Second Great Awakening, and as a surprising portrait of a rapidly growing frontier city. The religious revival that transformed America in the 1820s, making it the most militantly Protestant nation on earth and spawning reform movements dedicated to temperance and to the abolition of slavery, had an especially powerful effect in Rochester, New York. Paul E. Johnson explores the reasons for the revival's spectacular success there, suggesting important links between its moral accounting and the city's new industrial world. In a new preface, he reassesses his evidence and his conclusions in this major work.

*Farmhouse Revival* Sep 26 2023 A look at the farmhouses of the northeastern United States and their many approaches to their renovation, restoration, and interior design. The American farmhouse represents integrity, ingenuity, capability, and our rural and agricultural heritage. Farmhouses today are survivors from another era, constantly being rediscovered, revived, and restored in different, creative ways—though all share the same timeless aesthetic. In this fresh look at the American vernacular farmhouse, photographers Steve Gross and Susan Daley set out to document twenty revived farmhouses, and their stunning photographs illustrate the many individual approaches to the renovation, restoration, and interior design of the modern farmhouse. Found in many architectural styles, from humble Cape Cods to refined Greek Revivals, the homes in this book have all been reinvented over the years to accommodate individual tastes and changing needs while maintaining the spirit of a true American farmhouse. Furnished with vintage details—wood-burning stoves, enameled kitchen sinks, chenille bedspreads—and rooted in landscapes of rolling fields and mountains, these are the homes of the multigenerational families, solitary shepherds, graphic artists, architects, and organic farmers at the forefront of the renewed interest in the farming lifestyle. The accompanying text tells the history of each house, how it has been passed down from generation to generation or rescued from abandonment and neglect, and how the inhabitants live in and use the homes today. From three-hundred-year-old Sydenham House in Newark, New Jersey, to Sylvester Manor on Shelter Island, New York, this is a look at American culture through that most celebrated and quintessential building style, the farmhouse. Praise for *Farmhouse Revival* “Those interested in a homey, country style of decorating or in home restoration will be inspired.” ?Library Journal “Above all, the greatest joy is just looking at the beautiful time-worn places and appreciating the way those that came before led a happy and fulfilling life of simplicity and utility within their walls. For once you have read this book, you will realize that in many ways, it is the farmhouse that helps to restore us, and not the other way around.” ?Preservation.com “Buy the book *Farmhouse Revival* for the photos?for inspiration . . . the authors clearly know architecture and antiques.” ?Dan’s Paper “Perusing *Farmhouse Revival* is a marvelous experience . . . and is sure to make readers wonder what stories the farmhouses in their towns could tell.” ?Cleveland Plain Dealer

**Aristotelianism in the First Century BCE** Apr 09 2022 This book is a full study of the remaining evidence for Xenarchus of Seleucia, one of the earliest interpreters of Aristotle. Andrea Falcon places the evidence in its context, the revival of interest in Aristotle's philosophy that took place in the first century BCE. Xenarchus is often presented as a rebel, challenging Aristotle and the Aristotelian tradition. Falcon argues that there is more to Xenarchus and his philosophical activity than an opposition to Aristotle; he was a creative philosopher, and his views are best understood as an attempt to revise and update Aristotle's philosophy. By looking at how Xenarchus negotiated different aspects of Aristotle's philosophy, this book highlights elements of rupture as well as strands of continuity within the Aristotelian tradition.

**The Egyptian Revival** Feb 19 2023 In this beautifully illustrated and closely argued book, a completely updated and much expanded third edition of his magisterial survey, Curl describes in lively and stimulating prose the numerous revivals of the Egyptian style from Antiquity to the present day. Drawing on a wealth of sources, his pioneering and definitive work analyzes the remarkable and persistent influence of Ancient Egyptian culture on the West. The author deftly develops his argument that the civilization of Ancient Egypt is central, rather than peripheral, to the development of much of Western architecture, art, design, and religion. Curl examines: the persistence of Egyptian motifs in design from Graeco-Roman Antiquity, through the Medieval, Baroque, and Neo-Classical periods rise of Egyptology in the nineteenth and twentieth-century manifestations of Egyptianisms prompted by the discovery of Tutankhamun’s tomb various aspects of Egyptianizing tendencies in the Art Deco style and afterwards. For students of art, architectural and ancient history, and those interested in western European culture generally, this book will be an inspiring and invaluable addition to the available literature.

**A Christmas Carol** Jan 06 2022 *A Christmas Carol* is a novella by Charles Dickens. *A Christmas Carol* tells the story of Ebenezer Scrooge, an old miser who is visited by the ghost of his former business partner Jacob Marley and the Ghosts of Christmas Past, Present and Yet to Come. After their visits Scrooge is transformed into a kinder, gentler man. Dickens wrote *A Christmas Carol* at a time when the British were examining and exploring Christmas traditions from the past, such as carols, as well as new customs such as Christmas trees. He was influenced by experiences from his own past, and from the Christmas stories of
