Contains Hamlet, Othello, King Lear and Macbeth. #1 NEW YORK TIMES BESTSELLER • ONE OF TIME MAGAZINE'S 100 BEST YA BOOKS OF ALL TIME The extraordinary, beloved novel about the ability of books to feed the soul even in the darkest of times. When Death has a story to tell, you listen. It is 1939. Nazi Germany. The country is holding its breath. Death has never been busier, and will become busier still. Liesel Meminger is a foster girl living outside of Munich, who scratches out a meager existence for herself by stealing when she encounters something she can't resist—books. With the help of her accordion-playing foster father, she learns to read and shares her stolen books with her neighbors during bombing raids as well as with the Jewish man hidden in her basement. In superbly crafted writing that burns with intensity, award-winning author Markus Zusak, author of *I Am the Messenger*, has given us one of the most enduring stories of our time. “The kind of book that can be life-changing.” —The New York Times “Deserves a place on the same shelf with *The Diary of a Young Girl* by Anne Frank.” —USA Today DON'T MISS BRIDGE OF CLAY, MARKUS ZUSAK'S FIRST NOVEL SINCE THE BOOK THIEF. #1 NEW YORK TIMES BESTSELLER • A chorus of extraordinary voices tells the epic story of the four-hundred-year journey of African Americans from 1619 to the present—edited by Ibram X. Kendi, author of *How to Be an Antiracist*, and Keisha N. Blain, author of *Set the World on Fire*. FINALIST FOR THE ANDREW CARNEGIE MEDAL • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post, *Town & Country*, *Ms. magazine*, *BookPage*, *She Reads*, *BookRiot*, *Booklist* • “A vital addition to [the] curriculum on race in America . . . a gateway to the solo works of all the voices in Kendi and Blain's impressive choir.”—The Washington Post “From

journalist Hannah P. Jones on Jamestown's first slaves to historian Annette Gordon-Reed's portrait of Sally Hemings to the seductive cadences of poets Jericho Brown and Patricia Smith, *Four Hundred Souls* weaves a tapestry of unspeakable suffering and unexpected transcendence.”—O: The Oprah Magazine The story begins in 1619—a year before the Mayflower—when the White Lion disgorges “some 20-and-odd Negroes” onto the shores of Virginia, inaugurating the African presence in what would become the United States. It takes us to the present, when African Americans, descendants of those on the White Lion and a thousand other routes to this country, continue a journey defined by inhuman oppression, visionary struggles, stunning achievements, and millions of ordinary lives passing through extraordinary history. *Four Hundred Souls* is a unique one-volume “community” history of African Americans. The editors, Ibram X. Kendi and Keisha N. Blain, have assembled ninety brilliant writers, each of whom takes on a five-year period of that four-hundred-year span. The writers explore their periods through a variety of techniques: historical essays, short stories, personal vignettes, and fiery polemics. They approach history from various perspectives: through the eyes of towering historical icons or the untold stories of ordinary people; through places, laws, and objects. While themes of resistance and struggle, of hope and reinvention, course through the book, this collection of diverse pieces from ninety different minds, reflecting ninety different perspectives, fundamentally deconstructs the idea that Africans in America are a monolith—instead it unlocks the startling range of experiences and ideas that have always existed within the community of Blackness. This is a history that illuminates our past and gives us new ways of thinking about our future, written by the most vital and essential voices of our present. Named a Best Book of the Year by NPR and Science Friday A quest to explore some of the most spectacular ancient cities in human history—and figure out why people abandoned them. In *Four Lost Cities*, acclaimed science journalist Annalee Newitz takes readers on an entertaining and mind-bending adventure into the deep history of urban life. Investigating across the centuries and around the world, Newitz explores the rise and fall of four ancient cities, each the center of a sophisticated civilization: the Neolithic site of Çatalhöyük in Central Turkey, the Roman vacation town of Pompeii on Italy's southern coast, the medieval megacity of Angkor in Cambodia, and the indigenous metropolis Cahokia, which stood beside the Mississippi River where East St. Louis is today. Newitz travels to all four sites and investigates the cutting-edge research in archaeology, revealing the mix of environmental changes and political turmoil that doomed these ancient settlements. Tracing the early development of urban planning, Newitz also introduces us to the often anonymous workers—slaves, women, immigrants, and manual laborers—who built these cities and created monuments that

lasted millennia. *Four Lost Cities* is a journey into the forgotten past, but, foreseeing a future in which the majority of people on Earth will be living in cities, it may also reveal something of our own fate. The Tex-Mex restaurant's famous marquee sign, whose black letters tell a new joke to passing motorists each day, is featured in “El Arroyo's Big Book of Signs: Volume One.” 158 signs to enjoy 8"x8" Hardback Two children mean twice the laughter, twice the mess, and twice as much fun! Record Baby #2's milestones along with wonderfully funny and fantastic family moments with this warm and whimsical journal by the author of the best-selling memory book *When We Became Three*. It's a thoughtful and entertaining way to promote goodwill between the siblings while creating a keepsake journal that will have the whole family laughing and reflecting for years to come. A collection of four pre-Divergent stories plus three additional scenes from *Divergent*, all told from Tobias's point of view, that follow Tobias's transfer from Abnegation to Dauntless, his Dauntless initiation, the first clues that a foul plan is brewing in the leadership of two factions, and the weeks after he meets Tris Prior. “A necessary book for anyone truly interested in what we take from the sea to eat, and how, and why.” —Sam Sifton, *The New York Times* Book Review Acclaimed author of *American Catch* and *The Omega Principle* and life-long fisherman, Paul Greenberg takes us on a journey, examining the four fish that dominate our menus: salmon, sea bass, cod, and tuna. Investigating the forces that get fish to our dinner tables, Greenberg reveals our damaged relationship with the ocean and its inhabitants. Just three decades ago, nearly everything we ate from the sea was wild. Today, rampant overfishing and an unprecedented biotech revolution have brought us to a point where wild and farmed fish occupy equal parts of a complex marketplace. *Four Fish* offers a way for us to move toward a future in which healthy and sustainable seafood is the rule rather than the exception. But Factfulness does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly." —Melinda Gates "Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases." - Former U.S. President Barack Obama Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world's population live in poverty; why the world's population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In Factfulness, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, Factfulness is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- "This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book

will be." Hans Rosling, February 2017. From the Franz Kafka Prize-winning author of Lenin's Kiss, a "stupendous and unforgettable" novel of Mao's China (The Times, London). In the ninety-ninth district of a re-education compound, freethinking artists and academics are detained to strengthen their loyalty to Communist ideologies. Here, the Musician and her lover, the Scholar, along with the Author and the Theologian, are subjected to grinding physical labor. They are also encouraged to inform on each other's dissident behavior—for the prize of a chance at freedom. Their preadolescent supervisor, the Child, delights in reward systems and excessive punishments. But when agricultural and industrial production quotas are raised to an unattainable level, the ninety-ninth district dissolves into lawlessness. As inclement weather and famine set in, the people are abandoned by the regime and left alone to survive. Set inside a labor camp during Mao's Great Leap Forward, Booklist calls The Four Books a "rich and complex novel," from "China's most heralded and censored modern writer" (The South China Morning Post). In 1591, Giovanni Paolo Gallucci published his *Della simmetria dei corpi humani*, an Italian translation of Albrecht Dürer's Four Books on Human Proportion. While Dürer's treatise had been translated earlier in the sixteenth-century into French and Latin, it was Gallucci's Italian translation that endured in popularity as the most cited version of the text in later Baroque treatises, covering topics that were seen as central to arts education, connoisseurship, patronage, and the wider appreciation of the *studia humanitatis* in general. The text centres on the relationships between beauty and proportion, macrocosm and microcosm: relationships that were not only essential to the visual arts in the early modern era, but that cut across a range of disciplines - music, physiognomics and humoral readings, astronomy, astrology and cosmology, theology and philosophy, even mnemonics and poetry. In his version of the text, Gallucci expanded the educational potential of the treatise by adding a Preface, a Life of Dürer, and a Fifth Book providing a philosophical framework within which to interpret Dürer's previous sections. This translation is the first to make these original contributions by Gallucci accessible to an English-speaking audience. Gallucci's contributions illuminate the significance of symmetry and proportion in the contemporary education of the early modern era, informing our understanding of the intellectual history of this period, and the development of art theory and criticism. This is a valuable resource to early modern scholars and students alike, especially those specialising in history of art, philosophy, history of science, and poetry. Insurgent: One choice can destroy you. Veronica Roth's second #1 New York Times bestseller continues the dystopian thrill ride. Allegiant: The explosive conclusion to Veronica Roth's #1 New York Times bestselling Divergent trilogy reveals the secrets of the dystopian world that has captivated millions of readers. And don't miss The Fates Divide, Veronica Roth's powerful sequel to the bestselling Carve the Mark! In this history, Helen C. Roundtree traces events that shaped the lives of the Powhatan Indians of Virginia, from their first encounter with English colonists, in 1607, to their present-day way of life and relationship to the state of Virginia and the federal government. Roundtree's examination of those four hundred years misses not a beat in the pulse of Powhatan life. Combining meticulous scholarship and sensitivity, the author explores the diversity always found among Powhatan people, and those people's relationships with the English, the government of the fledgling United States, the Union and the Confederacy, the U.S. Census Bureau, white supremacists, the U.S. Selective Service, and the civil rights movement. An exploration of the utopias and dystopias that could develop from present society Peter Frase argues that increasing automation and a growing scarcity of resources, thanks to climate change, will bring it all tumbling down. In Four Futures, Frase imagines how this post-capitalist world might look, deploying the tools of both social science and speculative fiction to explore what communism, rentism and exterminism might actually entail. Could the current rise of the real-life robocops usher in a world that resembles Ender's Game? And sure, communism will bring an end to material scarcities and inequalities of wealth—but there's no guarantee that social hierarchies, governed by an economy of "likes," wouldn't rise to take their place. A whirlwind tour through science fiction, social theory and the new technologies are already shaping our lives, Four Futures is a balance sheet of the socialisms we may reach if a resurgent Left is successful, and the barbarisms we may be consigned to if those movements fail. This volume presents the first English translation of the Confucian classics, Four Books for Women, with extensive commentary by the compiler, Wang Xiang, and introductions and annotations by translator Ann A. Pang-White. Written by women for women's education, the Confucian Four Books for Women spanned the 1st to the 16th centuries, and encompass Ban Zhao's Lessons for Women, Song Ruoxin's and Song Ruozhao's Analects for Women, Empress Renxiaowen's Teachings for the Inner Court, and Madame Liu's (Chaste Widow Wang's) Short Records of

Models for Women. A female counterpart to the famous Sishu (Four Books) compiled by Zhu Xi, Wang Xiang's Nü sishu provides an invaluable look at the long-standing history and evolution of Chinese women's writing, education, identity, and philosophical discourse, along with their struggles and triumphs, across the millennia and numerous Chinese dynasties. Pang-White's new translation brings the authors of the Four Books for Women to life as real, living people, and illustrates why they wrote and how their work empowered women. Complete your Divergent library with the Four stories! Fans of the Divergent series by #1 New York Times bestselling author Veronica Roth will be captivated by "Four: The Transfer," the first of four stories, each between fifty and seventy-five pages long, set in the world of Divergent and told from Tobias's perspective. In "The Transfer," readers witness Tobias's aptitude test, Choosing Day, and the moment he is given the infamous nickname "Four." And don't miss The Fates Divide, Veronica Roth's powerful sequel to the bestselling Carve the Mark! NEW YORK TIMES BESTSELLER USA TODAY BESTSELLER Amazon, Apple, Facebook, and Google are the four most influential companies on the planet. Just about everyone thinks they know how they got there. Just about everyone is wrong. For all that's been written about the Four over the last two decades, no one has captured their power and staggering success as insightfully as Scott Galloway. Instead of buying the myths these companies broadcast, Galloway asks fundamental questions. How did the Four infiltrate our lives so completely that they're almost impossible to avoid (or boycott)? Why does the stock market forgive them for sins that would destroy other firms? And as they race to become the world's first trillion-dollar company, can anyone challenge them? In the same irreverent style that has made him one of the world's most celebrated business professors, Galloway deconstructs the strategies of the Four that lurk beneath their shiny veneers. He shows how they manipulate the fundamental emotional needs that have driven us since our ancestors lived in caves, at a speed and scope others can't match. And he reveals how you can apply the lessons of their ascent to your own business or career. Whether you want to compete with them, do business with them, or simply live in the world they dominate, you need to understand the Four. Offers techniques and strategies for increasing income while cutting work time in half, and includes advice for leading a more fulfilling life. "A writer traces his history-brushes with violence, responses to threat, poetic and political solidarity-in poems of lyric and narrative urgency. John Murillo's second book is a reflective look at the legacy of institutional, accepted violence against African Americans and the personal and societal wreckage wrought by long histories of subjugation. A sparrow trapped in a car window evokes a mother battered by a father's fists; a workout at an iron gym recalls a long-ago mentor who pushed the speaker "to become something unbreakable." The presence of these and poetic forbears-Gil Scott-Heron, Yusef Komunyakaa-provide a context for strength in the face of danger and anger. At the heart of the book is a sonnet crown triggered by the shooting deaths of three Brooklyn men that becomes an extended meditation on the history of racial injustice and the notion

of payback as a form of justice. "Maybe memory is the only home / you get," Murillo writes, "and rage, where you/first learn how fragile the axis/upon which everything tilts."-- Analyzing the realities of race, ethnicity, and class in modern-day America, an incisive study examines four working- and lower-middle-class Chicago neighborhoods--African American, white ethnic, Latino, and one in transition--assessing how and why urban residents react to looming changes and what their reactions mean in terms of neighborhood stability. Reprint. Software -- Software Engineering. "The Bestselling Hardcover Novel of the Year."-- Publishers Weekly From the number-one bestselling author of The Nightingale and The Great Alone comes a powerful American epic about love and heroism and hope, set during the Great Depression, a time when the country was in crisis and at war with itself, when millions were out of work and even the land seemed to have turned against them. "My land tells its story if you listen. The story of our family." Texas, 1921. A time of abundance. The Great War is over, the bounty of the land is plentiful, and America is on the brink of a new and optimistic era. But for Elsa Wolcott, deemed too old to marry in a time when marriage is a woman's only option, the future seems bleak. Until the night she meets Rafe Martinelli and decides to change the direction of her life. With her reputation in ruin, there is only one respectable choice: marriage to a man she barely knows. By 1934, the world has changed; millions are out of work and drought has devastated the Great Plains. Farmers are fighting to keep their land and their livelihoods as crops fail and water dries up and the earth cracks open. Dust storms roll relentlessly across the plains. Everything on the Martinelli farm is dying, including Elsa's tenuous marriage; each day is a desperate battle against nature and a fight to keep her children alive. In this uncertain and perilous time, Elsa--like so many of her neighbors--must make an agonizing choice: fight for the land she loves or leave it behind and go west, to California, in search of a better life for her family. The Four Winds is a rich, sweeping novel that stunningly brings to life the Great Depression and the people who lived through it--the harsh realities that divided us as a nation and the enduring battle between the haves and the have-nots. A testament to hope, resilience, and the strength of the human spirit to survive adversity, The Four Winds is an indelible portrait of America and the American dream, as seen through the eyes of one indomitable woman whose courage and sacrifice will come to define a generation. Beatrice of Savoy, Countess of Provence (1205-65) was determined to raise her daughters to advance the House of Savoy, and how better to do so than to arrange marriages with that goal in mind? In this entertaining novel, Jones (The Jewel of Medina) tells the story of four sisters who became queens-Marguerite (France), Eleanor (England), Sanchia (Germany), and Beatrice (Sicily). All were married young, none had any say in their marriages, and their lives, told here in alternating chapters, were eventful. The author does a good job not only of conveying the very different personalities and circumstances of the sisters but also of showing how little power these queens often had over the things that mattered most to them. Family trees help to keep track of the large number of characters. Verdict Fans of historical

fiction about European royalty (e.g., Philippa Gregory's The Other Boleyn Girl) should enjoy this well-written novel set during fascinating times. The relationship among the sisters is believable and often heartbreaking.-Elizabeth Mellett, Brookline P.L., MA(c) Copyright 2012. Gow and Kells have made an invaluable contribution, writing in an amused tone that nevertheless acknowledges the firms' immense power and the seriousness of their neglect of traditional responsibilities. 'The Big Four' will appeal to all those interested in the future of the profession--and of capitalism itself." --Jane Gleeson-White, Wall Street Journal With staffs that are collectively larger than the Russian army and combined revenues of over \$130 billion a year, the Big Four accounting firms--Deloitte, PricewaterhouseCoopers, Ernst & Young, and KPMG--are a keystone of global commerce. But leading scholar Ian Gow and award-winning author Stuart Kells warn that a house of cards may be about to fall. Stretching back to the Medicis in Renaissance Florence, this book is a fascinating story of wealth, power, and luck. The founders of the Big Four lived surprisingly colorful lives. Samuel Price, for example, married his own niece. Between the world wars, Nicholas Waterhouse collected postage stamps while also hosting decadent parties in his fashionable London home. All four firms have endured major calamities in recent decades. There have been hundreds of court cases and legal prosecutions for failed audits, tax scandals, and breaches of independence. The firms have come so close to "extinction level events" that regulators have required them to prepare "living wills." And today, the Big Four face an uncertain future--thanks to their push into China, their vulnerability to digital disruption and competition, and the hazards of providing traditional services in a new era of transparency. This account of the past, present, and likely future of the Big Four is essential reading for anyone perplexed or fascinated by professional services, working or considering working in the industry, or simply curious about the fate of the global economy. The epic story of Thomas Cale--introduced so memorably in The Left Hand of God--continues as the Redeemers use his prodigious gifts to further their sacred goal: the extinction of humankind and the end of the world... To the warrior-monks known as the Redeemers, "the last four things" represent the culmination of a faithful life. Death. Judgment. Heaven. Hell. The last four things represent eternal bliss--or endless destruction, permanent chaos, and infinite pain. Perhaps nowhere are the competing ideas of heaven and hell exhibited more clearly than in the dark and tormented soul of Thomas Cale. Betrayed by the girl he loves but still marked by a child's innocence, possessed of a remarkable aptitude for violence but capable of extreme tenderness, Cale will lead the Redeemers into a battle for nothing less than the fate of the human race. And though his broken heart foretells the bloody trail he will leave in pursuit of a personal peace he can never achieve, a glimmer of hope remains--the question even Cale can't answer: When it comes time to decide the fate of the world, to ensure the extermination of humankind or spare it, what will he choose? To express God's will on the edge of his sword,

or to forgive his fellow man—and himself? Reintroduces the out-of-print works of one of this century's greatest American poets. This novel is a work of extraordinary imagination and wide range. Its playful narrative techniques convey a profound message, both personal and political, about humankind's inability to love and yet our compulsion to go on trying. Friendships and a beautiful girl are distracting to a teenager who is hiding on Earth while he waits to develop the powers he will need to rejoin the other six surviving Garde members and fight those who destroyed their planet. International Bestseller Winner of the Best Japanese Crime Fiction of the Year Award "Already a bestseller in Japan and the U.K., this cinematic crime novel suffused with fascinating cultural details follows a police department reinvestigating a chilling kidnapping that stumped them 14 years earlier." —Entertainment Weekly, The Must List

THE NIGHTMARE NO PARENT COULD ENDURE. THE CASE NO DETECTIVE COULD SOLVE. THE TWIST NO READER COULD PREDICT. For five days, the parents of a seven-year-old Japanese schoolgirl sat and listened to the demands of their daughter's kidnapper. They would never learn his identity. And they would never see their daughter alive again. Fourteen years later, the mystery remains unsolved. The police department's press officer—Yoshinobu Mikami, a former detective who was involved in the original case and who is now himself the father of a missing daughter—is forced to revisit the botched investigation. The stigma of the case known as "Six Four" has never faded; the police's failure remains a profound source of shame and an unending collective responsibility. Mikami does not aspire to solve the crime. He has worked in the department for his entire career, and while he has his own ambitions and loyalties, he is hoping simply to reach out to the victim's family and to help finally put the notorious case to rest. But when he spots an anomaly in the files, he uncovers secrets he never could have imagined. He would never have even looked if he'd known what he would find. An award-winning phenomenon in its native Japan—more than a million copies sold, and the winner of the Best Japanese Crime Fiction of the Year award—and already a critically celebrated top-ten bestseller in the U.K., Hideo Yokoyama's Six Four is an unforgettable novel by a literary master at the top of his form. It is a dark and riveting plunge into a crime, an investigation, and a culture like no other. "Reading this courageous book feels like the beginning of a social and personal awakening...I can't stop thinking about it."—Brené Brown, PhD, author of Atlas of the Heart For readers of Emergent Strategy and Dare to Lead, an activist's roadmap to long-term social justice impact through four simple shifts. We need a fundamental shift in our values—a pivot in how we think, act, work, and connect. Despite what we've been told, the most critical mainspring of social change isn't coalition building or problem analysis. It's healing: deep, whole, and systemic, inside and out. Here, Shawn Ginwright, PhD, breaks down the common myths of social movements—a set of deeply ingrained beliefs that actually hold us back from healing and achieving sustainable systemic change. He shows us why these frames don't work, proposing instead four
