**Naval Documents of the American Revolution** Mar 09 2022 In the tradition of the preceding volumes - the first of which was published in 1964 - this work synthesizes edited documents, including correspondence, ship logs, muster rolls, orders, and newspaper accounts, that provide a comprehensive understanding of the war at sea in the spring of 1778. The editors organize this wide array of texts chronologically by theater and incorporate French, Italian, and Spanish transcriptions with English translations throughout.

La science et le monde moderne d'Alfred North Whitehead? Mar 29 2021 The second international Chromatiques whiteheadiennes conference was devoted exclusively to the exegesis and contextualization of Whitehead's *Science and the Modern World* (1925). In order to elucidate the meaning and significance of this epoch-making work, the Proceedings are designed to form "companion" volume. With one paper devoted to each of its thirteen chapters, the Proceedings aim, on the one hand, to identify the specific contribution of each chapter to Whitehead's own research program - that is to say, to put its categories into perspective by means of an internal analysis- and, on the other hand, to identify its global impact in the history of ideas.

*Ariane & Bluebeard* Feb 25 2021 — Matthew Brown developed this project through his founding of TableTopOpera, a group of scholars and performers committed to performing multimedia projects promoting classical music to general audiences. TableTop's production, a reductionist fantasy based on Ariane et Barbe-bleue, played an adaptation of Paul Dukas's original score while panels of P. Craig Russell's popular graphic novel Ariane and Bluebeard, Op. 26 streaked across the auditorium screen. Brown wrote the score and the show was called "a miracle of collaborative creation" thanks to "all editing decisions made in regard not only to Brown's profound

knowledge of the epoch and Russell's passion for the opera but of the demanding virtuosos who would be playing it, for the multimedia skills it would require – and for a strong commitment to the integrity of the original score." Th. Emil Homerin produced the show. This book, based off the performance project, already is being marketed through TableTopOpera. Contributors to the volume include an opera singer and instructor from the Metropolitan Opera's production of Bluebeard's Castle, the celebrated comic and graphic artist P. Craig Russell, and scholars in classics, religion, history, women and gender studies, and rare books. — Although the premier of Ariane et Barbe-bleue is frequently lauded as a landmark in operatic history, there is at present no book devoted solely to its history, structure, reception, and cultural implications. — This book will stand out on our music list and contribute to our reputation for publishing books on multimedia topics by touching on such diverse subjects as opera, comic books, and animated movies. Further, it contributes to our list of significant works on women and gender studies. — Our target audience includes students, scholars, and readers interested in musicology, particularly Paul Dukas, French music, and multimedia opera. Other related interests include histories of print, multimedia, and comic works, philosophical discussion of Plato and mysticism, and French symbolist literature.
