In this sweeping epic of the northernmost American frontier, James A. Michener guides us through Alaska's fierce terrain and history, from the long-forgotten past to the bustling present. As his characters struggle for survival, Michener weaves together the exciting high points of Alaska's story: its brutal origins; the American acquisition; the gold rush; the tremendous growth and exploitation of the salmon industry; the arduous construction of the Alcan Highway, undertaken to defend the territory during World War II. A spellbinding portrait of a human community fighting to establish its place in the world, Alaska traces a bold and majestic saga of the enduring spirit of a land and its people. BONUS: This edition includes an excerpt from James A. Michener's Hawaii. Praise for Alaska "Few will escape the allure of the land and people [Michener] describes. . . . Alaska takes the reader on a journey through one of the bleakest, richest, most foreboding, and highly inviting territories

in our Republic, if not the world. . . . The characters that Michener creates are bigger than life.”—Los Angeles Times Book Review “Always the master of exhaustive historical research, Michener tracks the settling of Alaska [in] vividly detailed scenes and well-developed characters.”—Boston Herald “Michener is still, sentence for sentence, writing’s fastest attention grabber.”—The New York Times A shipwreck, a greedy billionaire, and a record-sized great white shark are about to invade Casey's life as he tries to uncover a deep secret in the Pacific Ocean. Aligned to Common Core Standards and correlated to state standards. Chapter Books is an imprint of Spotlight, a division of ABDO. On a Saturday morning while in his early fifties, Mike Nolan, a hard-living, hard-working, hard-driving lawyer in New Jersey, was hit by a truck on a 50-mile bike ride and given up for dead. But he didn't die. After months and months of recovery, Mike looked the same as he always did. The only change? He had absolutely no memory. Guys Like Us, like a reverse memoir, is the attempt by his son to tell him who he is through tales of the Nolan family on the Jersey shore and Mike's powerful career in the city. Mike was a fierce man who ran afoul of his own father, patriarch of the Nolan clan planted in Ocean County. The Nolans are people who suffer no fools, take no prisoners, and you had better have a lot of liquor in the house. Three strong characters - Joe, the grandpa, Mike and Sean - dominate Guys Like Us. Add a big old Cadillac that Joe and Sean bomb around in, Sean behind the wheel at the ripe age of eight. Stir in the boardwalks and beaches of the Jersey shore and family feuds, and the pot boils. Sean Nolan does not fall far from the tree. It doesn't take long for him to realize he has to tell Mike, among many other things, what a jerk he could be. And that dark secrets long held in a young boy's heart are out of reach to him forever. Giving his father back his memory, warts and all, Nolan paints a poignant, and often hilarious, portrait of their shared past. Boys' Life is the official youth magazine for the Boy

Scouts of America. Published since 1911, it contains a proven mix of news, nature, sports, history, fiction, science, comics, and Scouting. Fabiana Da Silva had been living and teaching in the United States for only a few years when she met the prince she had been searching for her entire life. After they married on May 4, 2013, they shared beautiful moments for seven months until the day Fabiana received a shocking diagnosis. She had leukemia. In a heartwarming retelling, Fabiana leads others chronologically through her life in the days before the diagnosis as she excitedly prepared for a trip to Brazil, through her symptoms that ultimately steered her to a diagnosis, her treatments and their impact on her marriage, and her positive outlook through it all. As she candidly brings each moment to life, Fabiana encourages others to keep their faith, hope, and humor during their own health challenges so that they, too, can live in the present and embrace every moment, good or bad. Includes reports on vital statistics. This is a critical overview of monster magazines from the 1950s through the 1970s. "Monster magazine" is a blanket term to describe both magazines that focus primarily on popular horror movies and magazines that contain stories featuring monsters, both of which are illustrated in comic book style and printed in black and white. The book describes the rise and fall of these magazines, examining the contributions of Marvel Comics and several other well-known companies, as well as evaluating the effect of the Comics Code Authority on both present and future efforts in the field. It identifies several sub-genres, including monster movies, zombies, vampires, sword-and-sorcery, and pulp-style fiction. The work includes several indexes and technical credits. Stories about Native American children of the Arawak, Aztec, Pueblo, Powhatan, Wampanoag, Mohawk, Chippewa, Sioux, Blackfoot, and Pawnee tribes. Jacob Neptune, a wise-cracking, two-fisted Penacook private investigator with a checkered past, lives in upstate New York—four hundred miles from his tribal community on Abenaki Island. Then

one night the phone rings. “We . . . got . . . trouble,” Neptune’s cousin Dennis says from the other end. And trouble is where it all starts in this brilliant, often hilarious novel by acclaimed Abenaki storyteller Joseph Bruchac. Attacked by bikers before he can even board his plane, Neptune—“Podjo” to his friends—quickly begins to realize just how much trouble surrounds his people’s ancestral home. Guided by his sense of duty to his homeland, he agrees to help protect Dennis and other Penacooks as they stage a takeover of a state campground on land that should have reverted to their tribe. But encroaching developers, government operators, and even fellow Penacooks eager to build a casino each pose a threat to the Abenaki lands—and all have reasons to want Neptune out of the picture. Podjo greets each challenge with self-deprecating humor—but it’s difficult to shake his increasingly disturbing dreams, and an unsettled feeling when his return leads to a reunion with a long-ago love interest. As he and Dennis contend with hired guns, police, and security, a far greater threat appears: someone, or something, is brutally killing people in the woods. It will take all of Neptune’s skills as a martial artist and the wisdom gained from tribal elders to battle the forces that threaten the sacred land—and his and his people’s lives. Bruchac ratchets the tension from the first page to the last in this detective novel that pairs comedy and action with serious consideration of corporate greed, environmental destruction, cultural erosion, and other modern-day issues pressing Native peoples.

“[Genoa] invites us to pass our minds down a new but ancient track, to become, ourselves, both fact and fiction, and to discover something true about the geography of time.”—William Gass, *The New York Times*

“Genoa is a spectacular confrontation with Melville’s work, the journals of Columbus and molecular biology—all folded into a hallucinatory narrative about two brothers and their different paths through the American century.”—*Publishers Weekly*

“Much like his great-grandfather, Herman Melville, Paul Metcalf

brings an extraordinary diversity of materials into the complex patterns of analogy and metaphor, to affect a common term altogether brilliant in its imagination."—Robert Creeley "A unique work of historical and literary imagination, eloquent and powerful. I know of nothing like it."—Howard Zinn

First published in 1965, *Genoa* is Paul Metcalf's purging of the burden of his relationship to his great-grandfather Herman Melville. In his signature polyphonic style, a storm-tossed Indiana attic becomes the site of a reckoning with the life of Melville; with Columbus, and his myth; and between two brothers—one, an MD who refuses to practice; the other, an executed murderer. *Genoa* is a triumph, a novel without peer, that vibrates and sings a quintessentially American song.

Paul Metcalf (1917–99) was an American writer and the great-grandson of Herman Melville. His three volume *Collected Works* were published by Coffee House Press in 1996.

The 1975 film "Jaws" tragically and erroneously marked the great white shark as a savage man-eating monster. Three decades later conservationists are still trying to dispel that myth. *Great White Shark* returns the creature to its proper place: that of a wild and powerful predator to be respected. It follows one research team as it tracks tagged great whites, revealing previously unknown behaviours, such as hunting in groups, changing our understanding of this remarkable animal. It also surveys the deadly dangers faced by great white sharks, such as finning and ocean garbage. More than 100 dramatic photographs fill the book's pages. Topics include:

- Range map and essential facts.
- The role of the great white shark in marine ecosystems.
- 10 myths about great white sharks.
- Exceptional sensory organs.
- Great white shark attacks.
- Identifying individuals.
- Transmitter tagging.
- Photographing from a shark cage.
- Shark protection around the world.

Special features provide a wealth of factual information and new insight. Two tagged sharks had their own stories to tell: one travelled a stunning 6,800 transglobal miles in just four months; a

caged diver saves another from an agonizing death caused by plastic strapping. Four experts - a photographer, ocean biologist, oceanographer and the founder of the White Shark Trust - reflect on the future of the species now living on borrowed time. Great White Shark writes an exciting new chapter in shark research for popular science readers. AUTHOR: Alexandrine Civard-Racinais is a popular-science writer actively involved in environmental issues. ILLUSTRATIONS: 116 colour photographs, maps and tables Vols. 5-15 include "Bibliography of child study," by Louis N. Wilson. THE VERY GREAT MONSTER IN THE WHITE HOUSE was inspired by watching the continuing battle against Donald Trump by the media, many Republicans, Democrats, academics, minority groups, journalists, celebrities, and many others. He has a disapproval rating of about two-thirds of the country. Yet he had continued to struggle from one conflict and scandal to the next, as he appeals to the angry and disaffected, though he was once considered just a reality show entertainer and businessman. This growing battle during the election and in first the eight months of his presidency led me to think of the way these myths about monsters in many cultures can help explain what is going on. As such, I have compared Trump to 15 of these monsters, including the dragon St. George fights, the Chimera, Medusa, the Cyclops, the Kraken, Charybis, the Hydras, the Minotaur, the Sphinx, and even the Devil, in his many guises, including Beelzebub, Lucifer, and Satan. These myths reflect the battle against Trump and his message of racism, xenophobia, and hate: - Trump and Monster Myth Mash - Is Trump a Chimera? - Beheading the Trump Campaign - Could Trump Be the U.S. Cyclops? - Beware the Trump Water Monster - Trump and the Monsters of the Sea - Trump and the Many Headed Monsters - Trump and the Human Beasts - Is Trump the Modern-Day Devil? It's fight time for the great white shark and the killer whale! One animal is The Terrible Torpedo, and the other animal is a Wolf of the Sea.

Both fighters boast massive jaws. But which one will be crowned champion of the Showdown at Sea? Information about one of the most feared animals in the world. Boys' Life is the official youth magazine for the Boy Scouts of America. Published since 1911, it contains a proven mix of news, nature, sports, history, fiction, science, comics, and Scouting. Darvish is a tale of love, faith, betrayal, and revenge. 1925 was a year of endings and beginnings. The Qajar Dynasty ended in a bloodless coup, giving rise to the rule of Reza Shah and the birth of the Pahlavi Dynasty. And in the northern province of Gilan, a young mother lay dying. With her last breath, she named the child cut from her womb. Thus began the tragic life of Morteza Ali. Tormented by a past he can not escape and a future that eludes him at every step, Morteza Ali finds solace and guidance in the voices that speak to him in his darkest hours. As Darvish, a self-proclaimed holy man, he walks a slippery path between light and darkness. Was he a messiah or a madman; a martyr or a murderer? The reader will be captivated by the power of ancient legends, the timeless wisdom of parables and the beauty of Persian poetry that infuse and enrich this tragic tale. Walk the path of Darvish. Discover for yourself the fine line between majesty and tragedy the forces that shape the destinies of all men. Thrusting their arms into the air with clenched fists they shout, "The Six Macs". Scruffy MacTuffy had no ideas that his nightmare was about to almost come true. Meeting for a fishing trip could have been a bad idea after their biggest catch got away, but what was it that got away? The Six Macs explore the opposite side of the river after a daredevil bridge crossing where they find a long dark cave leading to a journey of danger and something a little bit on the scary side. That evening they tell their parents what they saw, but they think their stories are a bit too imaginative. So a second trip is arranged for the following day with their parents coming along. The parents keep joking about the Six Macs' story but they will soon believe every

single word they said. David J Dawkins has been writing stories for his son for many years. It's only recently now he is older that his son suggested that he should get them published. Holy crab-claws! The fast-action 'Andee the Aquanaut series' continues in Book Two, 'All Great Things Start With Small Beginnings'. Andee is torn between finding his parents, fulfilling his role as protector of the ocean's creatures, saving the Lost City and rescuing the King's beautiful daughter, Yolanda, from the evil Queen Zadora. Two new companions arrive to aid Andee in his epic quest. Cambridge, England, 1905. Jane Porter is hardly a typical woman of her time. The only female student in Cambridge University's medical program, she is far more comfortable in a lab coat dissecting corpses than she is in a corset and gown sipping afternoon tea. A budding paleoanthropologist, Jane dreams of traveling the globe in search of fossils that will prove the evolutionary theories of her scientific hero, Charles Darwin. When dashing American explorer Ral Conrath invites Jane and her father to join an expedition deep into West Africa, she can hardly believe her luck. Africa is every bit as exotic and fascinating as she has always imagined, but Jane quickly learns that the lush jungle is full of secrets—and so is Ral Conrath. When danger strikes, Jane finds her hero, the key to humanity's past, and an all-consuming love in one extraordinary man: Tarzan of the Apes. Jane is the first version of the Tarzan story written by a woman and authorized by the Edgar Rice Burroughs estate. Its publication marks the centennial of the original Tarzan of the Apes. The Diary of a Rambunctious Black Child is told through a riveting diary from the perspective of a ten-year-old boy named Cory Carroll. Cory has a fantastic sense of humor and pokies fun at life. His best friend is his diary. At times he feels invisibility and contentious toward his racist fifth grade teacher questioning her cruelty and intolerance against black children in her

classroom. Cory doesn't know the true meaning of words like racist, bigotry or prejudice. He only heard of those words through *Passing*. They are foreign to him like ice is to hell. His mother tries shielding him from the wicked realities of those words. His mom decides to take the family south for summer vacation. There, Cory enters a world he's not accustomed to. He is exposed to the harsh truths of having brown skin in the south. He experienced some of these realities in the north, but not as cold, harsh and cruel in the south. Hatred, jealousy, lies, deceit, sexuality, rape, witchcraft, secrets, suicide, and murder are realities he must come to terms with. Cory learns their true meanings quickly and has reservations about life in the south. He uses his only tools listening and watching, developing his own analytical conclusions. He experiences lessons far beyond his capacity and expectations. Cory will cherish and carry these lessons throughout his life.

¶ This book has been written for the artist, for the theologian, and for the philosopher, each of whom must be concerned with the question, ¶ What does it mean to be human? ¶ But at a deeper level, it is written for any reader who knows what it means to be fragmented, and who is willing to undertake a quest for wholeness in experiential and reflective terms. ¶ ¶ from the Preface

The Quest for Wholeness is a philosophic odyssey into humankind's feelings of fragmentation, and the search for unity born of those feelings. It blends the concreteness of art and religion with the discipline of philosophy to illuminate those places in experience and reflection where fragmentation is encountered and the meaning of wholeness is first discovered. Carl Vaught discusses the problems of fragmentation and unity, beginning with the aesthetic concreteness represented by the quest in Herman Melville's *Moby Dick*; moving through the religious dimension represented by the biblical stories of Abraham, Isaac, Jacob, Joseph, and Moses; passing on to the reflective discourse in Plato's *Euthyphro*; and ending in a confrontation with

Hegel that unites the concrete particularity of religious and communal life with the dialectic of Socrates's normative reasoning. This book is written with the conviction that the professional philosopher should not address a merely professional audience, but the larger world as well, and that in the end he must come to terms with himself and with the most pressing questions that confront the human spirit.
