But when she's captured by the KGB and forced to work as a psychic spy with a mission to undermine the U.S. space program, she's thrust into a world of suspicion, deceit, and horrifying power. Yulia quickly realizes she can trust no one--not her KGB superiors or the other operatives vying for her attention--and must rely on her own wits and skills to survive in this world where no SEKRET can stay hidden for long. Somewhere between The X-Files and Oliver Stone's JFK, between Zero Dark Thirty and The Manhattan Project, in a world of deception run by the dark suits of Close Encounters, is Sekret Machines. The witnesses are legion, scattered across the world and dotted through history, people who looked up and saw something

impossible lighting up the night sky. Among those who know what they've seen, and are forever changed by it, are a soldier, a socialite, a pilot and a prisoner. A holiday planned in secret became a trip that fell into both categories. Being an automatic writer, I never know who is going to tell their story but Mary took me not only into her life but her past lives as well. With the witches belonging to the Black family left to live out their lives in peace, I didn't expect them to be involved in this story. There was a connection as was the connection with Mary and her name. Mary Sekret found her path that took her to her dragon named Dracula. Limited ed. The stunning continuation of an intensive study of UFO phenomena in which the hard science, technology, and the human mind are explored as they relate to our world and the encounters that people are still having today... In Sekret Machines: Gods, the cultural, historical, and religious aspects of mankind's encounters with UFO's was explained by Open Mind's 2017 UFO Researcher of the Year and To The Stars Academy of Arts and Science founder Tom DeLonge with renowned research author Peter Levenda. Here, they continue their revelatory work in a thoroughly-researched expose that seeks to solve the scientific mysteries of the the unidentified aerial phenomenon, the UFO experiencers whose lives were changed forever, and what it means for all mankind. To this end, they have divided their study into three fields of inquiry: Genetics and the ET Hypothesis: Was life on Earth actually initiated by alien life forms deliberately? Many cultures worldwide hold clues in their mythos that points to this. But for what ultimate purpose would this have? And what does that make humanity? Consciousness: If the building blocks of life were truly transplanted by a higher intelligence with intent, was our human concept of consciousness included in that DNA? And as we evolve, are we headed toward eventual immortality as sentient beings? Human-Machine Symbiosis: In this section, the concept of technological advancement is explored—focusing on our own astounding achievements in recent years in the fields of Artificial Intelligence and robotics—which leads to a much deeper question: If we have come so far so fast, what unfathomable level of technology must the phenomenon already possess? In Sekret Machines: Man, DeLonge and Levenda go beyond the lies fed to the public for decades—using unsealed confidential records, expert analysis, and eyewitness testimony from scientists, civilians, military personnel, researchers, and UFO experiencers to reveal the wide-ranging influence that UFO forces have had upon our past, continue to exert on our present, and may hold for our future. All I have are these memories. Memories that are alive, memories that stay with me, memories that are very real. Long to be forgotten, these memories refuse allowance for they have a life of their own. A life stemming from childhood, manifesting, developing into the angst of my inner teen, traveling with and deeply rooting itself within me through my time of college maturity. Issues still being dealt with, hidden, masked is there no escape? Join me in my journey to emotional freedom as I overcome trails of adversity. All I have are these memories Memoirs to my Father, a collection of poetry. An exceptional examination that “plays the role of an intellectual Indiana Jones, expertly guiding readers through crumbling, vine-laden Mayan temples; the stunning iconography of ancient Egypt and the esoteric creation myths of antediluvian India, Africa and China.” Written by Open Mind's 2017 UFO Researcher of the Year and critically acclaimed producer Tom DeLonge, with renowned researcher Peter Levenda. Sekret Machines: GODS will take you on an eye-opening journey that transcends speculation and is based on unprecedented access to officials at the highest levels of government, military and industrial agencies who have provided insights and assistance never before experienced by any researchers in this controversial field. GODS takes us beyond speculation to certain knowledge of what exactly lies at the heart of the most important Phenomenon ever to confront human understanding. Now in trade paperback, the first volume in Gods, Man & War, GODS introduces the reader to some of the critical issues that are foundational to an intelligent and enlightened grasp of the revelations that will follow in the next two volumes. There is another Force in the universe of our Reality, another context for comprehending what has been going on for millennia and especially in the last seventy years. Sekret Machines is the result of input from scientists, engineers, intelligence officers, and military officials -- a group we call the Advisors -- and transcends the speculation of journalists, historians and others whose conclusions are often either misinformed or only tease around the edges of the Sekret Machines. The reader will not discover wild theories or unfounded claims, but instead will confront a solid -- if often unsettling -- reality, one that demands the collaboration of all of us in every field of human endeavor if we are to understand it and manage its effects. If nothing else, readers will

come to the conclusion that the Phenomenon is not what they think it is. It is, in fact, much more serious and potentially much more threatening than they can imagine. *Sekret Machines: GODS* is volume one of the companion investigation series to the bestselling fiction thriller *Sekret Machines: Chasing Shadows* by DeLonge and NYTimes bestselling author AJ Hartley. The whole is truly greater than the sum of its parts. Read together, the thriller series and the investigation series show what cannot be revealed with one approach alone. Follows a group of psychic teenagers in 1960s Soviet Russia who are forced to use their powers to spy for the KGB. Relationships are meant to be tested. But what happens when they are tested beyond repair? What do you do when reconciliation and mending are out of reach? How many times are you supposed to forgive the unforgivable? How do you talk yourself out of doing the unthinkable? Love, deceit, hate, and betrayal are what control the lives of these seven friends. Which one will win? Tom DeLonge—award-winning creator and accomplished researcher, who made history by releasing the first official military footage of a UFO that has been through the US government declassification review process—and New York Times bestselling author A.J. Hartley continue their thrilling *Sekret Machines* saga of archeological adventure, government conspiracy, historical mystery, and unimaginable technology with *Sekret Machines Book 2: A Fire Within*. They have witnessed what is beyond the bounds of possibility. Lights sailing across Nevada's desert night sky in fluid and rapid motions that are impossible for even the most technologically advanced aircraft. They have encountered those responsible for the unexplained. Men in black suits, white lab coats, and military uniforms who do not want their secrets exposed. Brought together by fate—or phenomena—heiress Jennifer Quinn, journalist Timika Mars, pilot Alan Young, and ex-Marine Barry Regis are bonded by the incidents they've witnessed, hunted by agents of a wealthy corporate cabal desperate for unimaginable power, and possessed of extraordinary abilities they do not understand, much less control. Now, they're on a mission of their own. As Alan and Barry test the limits of their strange gifts inside the military complex known as Dreamland, Jennifer and Timika begin a quest to locate an ancient tablet that may hold the answers to humanity's greatest question. Are we alone in the universe? Based on the accounts of credible UAP observers drawn from expert sources within the scientific, military and intelligence communities, *Sekret Machines: A Fire Within* is the second fiction book within a multimedia project that has become part of the most ambitious investigation of the phenomenon in history. Mary Sekret lived an emotionless life until one day her ancestral connection grew too strong to ignore. A quest was coming to right what was wronged from long ago. I tried to fight it but the barrier had been broken which left me with an emptiness that grew in size every day. Desperately, I tried to get my old life back but my emotions were heightened and I found clues which were too coincidental. There were questions that needed answers so I visited the land of the Celts and found the man who was referred to as the dragon. Don't ignore your gut feelings. Your head might tell you one thing but to feel happiness, I followed my heart and discovered a secret. For those who know... that something is going on... The witnesses are legion, scattered across the world and dotted through history, people who looked up and saw something impossible lighting up the night sky. What those objects were, where they came from, and who—or what—might be inside them is the subject of fierce debate and equally fierce mockery, so that most who glimpsed them came to wish they hadn't. Most, but not everyone. Among those who know what they've seen, and—like the toll of a bell that can't be unringed—are forever changed by it, are a pilot, an heiress, a journalist, and a prisoner of war. From the waning days of the 20th century's final great war to the fraught fields of Afghanistan to the otherworldly secrets hidden amid Nevada's dusty neverlands—the truth that is out there will propel each of them into a labyrinth of otherworldly technology and the competing aims of those who might seek to prevent—or harness—these beings of unfathomable power. Because, as it turns out, we are not the only ones who can invent and build...and destroy. Featuring actual events and other truths drawn from sources within the military and intelligence community, Tom DeLonge and A.J. Hartley offer a tale at once terrifying, fantastical, and perhaps all too real. Though it is, of course, a work of... fiction? An empty mind is a safe mind. Yulia's father always taught her to hide her thoughts and control her emotions to survive the harsh realities of Soviet Russia. But when she's captured by the KGB and forced to work as a psychic spy with a mission to undermine the U.S. space program, she's thrust into a world of suspicion, deceit, and horrifying power.
