additional 2000 years! To say that Fuzzy Logic in Medicine, or FLM for short, is an important addition to the literature of fuzzy logic and its applications, is an understatement. Edited by two prominent informaticians, Professors S. Barro and R. Marin, it is one of the first books in its field. Between its covers, FLM presents authoritative expositions of a wide spectrum of medical and biological applications of fuzzy logic, ranging from image classification and diagnostics to anaesthesia control and risk assessment of heart diseases. As the editors note in the preface, recognition of the relevance of fuzzy set theory and fuzzy logic to biological and medical systems has a long history. In this context, particularly worthy of note is the pioneering work of Professor Klaus Peter Adlassnig of the University of Vienna School of Medicine. However, it is only within the past decade that we began to see an accelerating growth in the visibility and importance of publications falling under the rubric of fuzzy

logic in medicine and biology -a leading example of which is the Journal of the Biomedical Fuzzy Systems Association in Japan. Why did it take so long for this to happen? First, a bit of history. So why has history tried to erase her memory for the past 3500 years? Does it have anything to do with the fact that Egypt passed from the Lunar Cult to the Solar Cult during her reign? Pharaoh Maat-Ka-Re Hat-Shep-Sut wants to be venerated as Foremost of Distinguished

Women. Hat-Shep-Sut has always wanted to become Pharaoh, now she wants to be followed by another female Pharaoh and is determined not to allow any man to interfere with her plans ... Not Senen-Mut, her Consort and the father of her child... Not Thut-Moses, the Royal Heir that many in Karnak hope will replace her ... Not even Seth-Mesy, Amen's high priest, who demands absolute obedience, even from Pharaoh! The Two-Lands of Upper and Lower Egypt reel under the invasions of Nubians from the South and Hyksos from the North. Consort of the Female Pharaoh tells the story of how the 18th Dynasty of Ancient Egypt successfully pursued a War of National Liberation to become the world's first superpower. It also tells how the love between a brilliant commoner and an ambitious royal princess transformed the world. Excerpt: Hat-Shep-Sut prepares for her ordeal. I'm as strong as any woman in my family, she tells herself. Today I must prove it. After today no one will doubt that Pharaoh Maat-Ka-Re Hat-

Shep-Sut is sole ruler over the Two-Lands. And no defiance of Pharaoh will go unpunished! Hat-Shep-Sut plans great changes for the Two-Lands. Pen-Nek-Heb's predictions of a new epoch inspire her to initiate new traditions and new ideas. The new epoch predicted by Iunu's stargazers will be Hat-Shep-Sut's epoch \_\_\_ the time when women rise up and end male domination. And the foremost of distinguished women, intends to usher in the new epoch by exercising more control over her well intentioned but common-thinking Senen-Mut.
