Conquête ottomane de l'Égypte (1517) May 20 2023 Conquête ottomane de l'Égypte (1517) propose de mesurer l'impact de la défaite mamelouke face aux Ottomans sur les structures sociales, politiques et culturelles de l'Égypte, ainsi que sur les équilibres géopolitiques en Méditerranée, et d'étudier comment les contemporains perçurent l'événement. Conquête ottomane de l'Égypte (1517) examines how far Selīm Ist's victory and the subsequent fall of the Mamluk sultanate altered the political, social and cultural structures in Egypt, how far it transformed the balance of powers in the Mediterranean, and how contemporaries perceived this major event.

**Violence against Prisoners of War in the First World War** Feb 17 2023 In this groundbreaking study, Heather Jones provides the first in-depth and comparative examination of violence against First World War prisoners. She shows how the war radicalised captivity treatment in Britain, France and Germany, dramatically undermined international law protecting prisoners of war and led to new forms of forced prisoner labour and reprisals, which fuelled wartime propaganda that was often based on accurate prisoner testimony. This book reveals how, during the conflict, increasing numbers of captives were not sent to home front camps but retained in western front working units to labour directly for the British, French and German armies - in the German case, by 1918, prisoners working for the German army endured widespread malnutrition and constant beatings. Dr Jones examines the significance of these new, violent trends and their later legacy, arguing that the Great War marked a key turning-point in the twentieth-century evolution of the prison camp.
