Handbook to Life in Medieval and Early Modern Japan Sep 30 2021 Captures the essence of life in great civilizations of the past. Each volume in this series examines a single civilization, and covers everything from landmark events and monumental achievements to geography and everyday life.

The Oxford Handbook of Medieval Christianity Jul 09 2022 The Oxford Handbook of Medieval Christianity takes as its subject the beliefs, practices, and institutions of the Christian Church between 400 and 1500AD. It addresses topics ranging from early medieval monasticism to late medieval mysticism, from the material wealth of the Church to the spiritual

exercises through which certain believers might attempt to improve their souls. Each chapter tells a story, but seeks also to ask how and why 'Christianity' took particular forms at particular moments in history, paying attention to both the spiritual and otherworldly aspects of religion, and the material and political contexts in which they were often embedded. This Handbook is a landmark academic collection that presents cutting-edge interpretive perspectives on medieval religion for a wide academic audience, drawing together thirty key scholars in the field from the United States, the UK, and Europe. Notably, the Handbook is arranged thematically, and focusses on an analytical, rather than

narrative, approach, seeking to demonstrate the variety, change, and complexity of religion throughout this long period, and the numerous different ways in which modern scholarship can approach it. While providing a very wide-ranging view of the subject, it also offers an important agenda for further study in the field.

The Handbook of Medieval Library History Sep 11 2022

A Source Book for Medieval Economic History Apr 25 2021

[The Medieval Health Handbook](#) Nov 20 2020 A lavishly decorated handbook of medicine was conceived for the lay public on topics such as human health, healing, medicine, and household management.

The Oxford Handbook of the Merovingian World Jul 17 2020 In recent decades, the Merovingian world has become more visible in Anglophone historical studies. The forty-six essays included in this collection highlight the vitality and importance of the Merovingian kingdoms in the

fifth through eighth centuries.

Handbook for Curates Jun 27 2021 Anne T. Thayer is the Paul and Minnie Diefenderfer Associate Professor of Mercersburg and Ecumenical Theology and Church History at Lancaster Theological Seminary. Katharine J. Lualdi is professor of history and on the faculty of the Honors Program at the University of Southern Maine. Thayer and Lualdi share an interest in late medieval and early modern Christianity and have collaborated on the edited volume *Penitence in the Age of Reformation*. *Handbook of Medieval Culture* Mar 17 2023 A follow-up publication to the *Handbook of Medieval Studies*, this new reference work turns to a different focus: medieval culture. Medieval research has grown tremendously in depth and breadth over the last decades. Particularly our understanding of medieval culture, of the basic living conditions, and the specific value system prevalent at that time has considerably expanded, to a point where we are in danger of

no longer seeing the proverbial forest for the trees. The present, innovative handbook offers compact articles on essential topics, ideals, specific knowledge, and concepts defining the medieval world as comprehensively as possible. The topics covered in this new handbook pertain to issues such as love and marriage, belief in God, hell, and the devil, education, lordship and servitude, Christianity versus Judaism and Islam, health, medicine, the rural world, the rise of the urban class, travel, roads and bridges, entertainment, games, and sport activities, numbers, measuring, the education system, the papacy, saints, the senses, death, and money.

The Routledge Handbook of Medieval Rural Life May 19 2023 The Routledge Handbook of Medieval Rural Life brings together the latest research on peasantry in medieval Europe. The aim is to place peasants - as small-scale agricultural producers - firmly at the centre of this volume, as people with agency, immense skill and resilience to shape their environments,

cultures and societies. This volume examines the changes and evolutions within village societies across the medieval period, over a broad chronology and across a wide geography. Rural structures, families and hierarchies are examined alongside tool use and trade, as well as the impact of external factors such as famine and the Black Death. The contributions offer insights into multidisciplinary research, incorporating archaeological as well as landscape studies alongside traditional historical documentary approaches across widely differing local and regional contexts across medieval Europe. This book will be an essential reference for scholars and students of medieval history, as well those interested in rural, cultural and social history.

The Cambridge Companion to Medieval Philosophy Apr 13 2020 The Cambridge Companion to Medieval Philosophy, first published in 2003, takes its readers into one of the most exciting periods in the history of

philosophy. It spans a millennium of thought extending from Augustine to Thomas Aquinas and beyond. It includes not only the thinkers of the Latin West but also the profound contributions of Islamic and Jewish thinkers such as Avicenna and Maimonides. Leading specialists examine what it was like to do philosophy in the cultures and institutions of the Middle Ages and engage all the areas in which medieval philosophy flourished, including language and logic, the study of God and being, natural philosophy, human nature, morality, and politics. The discussion is supplemented with chronological charts, biographies of the major thinkers, and a guide to the transmission and translation of medieval texts. The volume will be invaluable for all who are interested in the philosophical thought of this period.

Handbook of Arthurian Romance Jul 29 2021

The renowned and illustrious tales of King Arthur, his knights and the Round Table pervade all European vernaculars, as well as the Latin

tradition. Arthurian narrative material, which had originally been transmitted in oral culture, began to be inscribed regularly in the twelfth century, developing from (pseudo-)historical beginnings in the Latin chronicles of "historians" such as Geoffrey of Monmouth into masterful literary works like the romances of Chrétien de Troyes. Evidently a big hit, Arthur found himself being swiftly translated, adapted and integrated into the literary traditions of almost every European vernacular during the thirteenth and fourteenth centuries. This Handbook seeks to showcase the European character of Arthurian romance both past and present. By working across national philological boundaries, which in the past have tended to segregate the study of Arthurian romance according to language, as well as by exploring primary texts from different vernaculars and the Latin tradition in conjunction with recent theoretical concepts and approaches, this Handbook brings together a pioneering and more complete view of the

specifically European context of Arthurian romance, and promotes the more connected study of Arthurian literature across the entirety of its European context.

Handbook of Medieval Culture May 07 2022

A follow-up publication to the Handbook of Medieval Studies, this new reference work turns to a different focus: medieval culture. Medieval research has grown tremendously in depth and breadth over the last decades. Particularly our understanding of medieval culture, of the basic living conditions, and the specific value system prevalent at that time has considerably expanded, to a point where we are in danger of no longer seeing the proverbial forest for the trees. The present, innovative handbook offers compact articles on essential topics, ideals, specific knowledge, and concepts defi.

Handbook of Medieval Studies Oct 12 2022 This interdisciplinary handbook provides extensive information about research in medieval studies and its most important results over the last

decades. The handbook is a reference work which enables the readers to quickly and purposely gain insight into the important research discussions and to inform themselves about the current status of research in the field. The handbook consists of four parts. The first, large section offers articles on all of the main disciplines and discussions of the field. The second section presents articles on the key concepts of modern medieval studies and the debates therein. The third section is a lexicon of the most important text genres of the Middle Ages. The fourth section provides an international bio-bibliographical lexicon of the most prominent medievalists in all disciplines. A comprehensive bibliography rounds off the compendium. The result is a reference work which exhaustively documents the current status of research in medieval studies and brings the disciplines and experts of the field together.

A Handbook of Middle English Studies May 15 2020 A Handbook of Middle English Studies

“This sharp-minded, coherent set of essays both maps and liberates: not only does it map the intellectual territory of contemporary cultural debate; it also liberates the extraordinary texts of later medieval England to move across that contemporary cultural terrain.” James Simpson, Harvard University “Marion Turner has skilfully choreographed an exciting ensemble of fresh accounts of the English Middle Ages. We see the period in a new light that shows with compassion and imagination, as well as thoughtful scholarship, how the literature of the past speaks to contemporary preoccupations.” Ardis Butterfield, Yale University “Strikingly original: theory-literate and materially-grounded ways of reading Middle English texts.” David Wallace, University of Pennsylvania A Handbook of Middle English Studies presents twenty-six original and accessible essays by leading scholars, analyzing the relationship between critical theory and late-medieval literature. The collection offers a range of entry points into the

rich field of medieval literary studies, exploring subjects including the depiction of the self and the mind, the literature of conquest, ideas of beauty and aesthetics, and the relationship between place and literature. Topics that have long been central to the field, such as authorship, gender, and race, feature alongside areas only recently coming under critical scrutiny, such as globalization, the environment, and animality. Collectively, the essays demonstrate that the manuscript culture of late medieval literature raises key theoretical issues concerning the relationship between authors, texts, and readers. A Handbook of Middle English Studies models diverse approaches to medieval texts and stakes a claim in debates about topics ranging from class to the canon, from imagination to nationhood, from sexuality to the public sphere.

Book of Beasts Feb 21 2021 A celebration of the visual contributions of the bestiary--one of the most popular types of illuminated books during

the Middle Ages--and an exploration of its lasting legacy. Brimming with lively animals both real and fantastic, the bestiary was one of the great illuminated manuscript traditions of the Middle Ages. Encompassing imaginary creatures such as the unicorn, siren, and griffin; exotic beasts including the tiger, elephant, and ape; as well as animals native to Europe like the beaver, dog, and hedgehog, the bestiary is a vibrant testimony to the medieval understanding of animals and their role in the world. So iconic were the stories and images of the bestiary that its beasts essentially escaped from the pages, appearing in a wide variety of manuscripts and other objects, including tapestries, ivories, metalwork, and sculpture. With over 270 color illustrations and contributions by twenty-five leading scholars, this gorgeous volume explores the bestiary and its widespread influence on medieval art and culture as well as on modern and contemporary artists like Pablo Picasso and Damien Hirst. Published to accompany an

exhibition on view at the J. Paul Getty Museum at the Getty Center May 14 to August 18, 2019.

The Medieval British Literature Handbook

Mar 05 2022 One-stop resource for courses in medieval literature, providing students with a comprehensive guide to the historical and cultural context; major texts and movements; reading primary and critical texts; key critics, concepts and topics; major critical approaches and directions of new research.

Handbook of Medieval Studies Feb 16 2023

This interdisciplinary handbook provides extensive information about research in medieval studies and its most important results over the last decades. The handbook is a reference work which enables the readers to quickly and purposely gain insight into the important research discussions and to inform themselves about the current status of research in the field. The handbook consists of four parts. The first, large section offers articles on all of the main disciplines and discussions of the field.

The second section presents articles on the key concepts of modern medieval studies and the debates therein. The third section is a lexicon of the most important text genres of the Middle Ages. The fourth section provides an international bio-bibliographical lexicon of the most prominent medievalists in all disciplines. A comprehensive bibliography rounds off the compendium. The result is a reference work which exhaustively documents the current status of research in medieval studies and brings the disciplines and experts of the field together.

Oxford Handbook of Medieval Central Europe Jan 23 2021 "The Oxford Handbook of Medieval Central Europe summarizes the political, social, and cultural medieval history of Central Europe (ca. AD 800-1600), a region long considered a "forgotten" area of the European past. The 24 cutting-edge chapters present up-to-date research about the region's core medieval kingdoms--Hungary, Poland, and Bohemia--and also their dynamic interactions

with neighboring areas. From the Baltic to the Adriatic, the handbook includes reflections on modern conceptions and uses of the region's shared medieval traditions. The volume's thematic organization reveals rarely compared knowledge about the region's medieval resources, its people and structures of power, social life and economy, religion and culture, and the images of its past"--

[The Oxford Handbook of Women and Gender in Medieval Europe](#) Jan 03 2022 The Oxford Handbook of Women and Gender in Medieval Europe provides a comprehensive overview of the gender rules encountered in Europe in the period between approximately 500 and 1500 C.E. The essays collected in this volume speak to interpretative challenges common to all fields of women's and gender history - that is, how best to uncover the experiences of ordinary people from archives formed mainly by and about elite males, and how to combine social histories of lived experiences with cultural histories of

gendered discourses and identities. The collection focuses on Western Europe in the Middle Ages but offers some consideration of medieval Islam and Byzantium. The Handbook is structured into seven sections: Christian, Jewish, and Muslim thought; law in theory and practice; domestic life and material culture; labour, land, and economy; bodies and sexualities; gender and holiness; and the interplay of continuity and change throughout the medieval period. It contains material from some of the foremost scholars in this field, and it not only serves as the major reference text in medieval and gender studies, but also provides an agenda for future new research.

The Good Wife's Guide (Le Ménagier de Paris) Mar 25 2021 In the closing years of the fourteenth century, an anonymous French writer compiled a book addressed to a fifteen-year-old bride, narrated in the voice of her husband, a wealthy, aging Parisian. The book was designed to teach this young wife the moral attributes,

duties, and conduct befitting a woman of her station in society, in the almost certain event of her widowhood and subsequent remarriage. The work also provides a rich assembly of practical materials for the wife's use and for her household, including treatises on gardening and shopping, tips on choosing servants, directions on the medical care of horses and the training of hawks, plus menus for elaborate feasts, and more than 380 recipes. The Good Wife's Guide is the first complete modern English translation of this important medieval text also known as *Le Ménagier de Paris* (the Parisian household book), a work long recognized for its unique insights into the domestic life of the bourgeoisie during the later Middle Ages. The Good Wife's Guide, expertly rendered into modern English by Gina L. Greco and Christine M. Rose, is accompanied by an informative critical introduction setting the work in its proper medieval context as a conduct manual. This edition presents the book in its entirety, as it

must have existed for its earliest readers. The Guide is now a treasure for the classroom, appealing to anyone studying medieval literature or history or considering the complex lives of medieval women. It illuminates the milieu and composition process of medieval authors and will in turn fascinate cooking or horticulture enthusiasts. The work illustrates how a (perhaps fictional) Parisian householder of the late fourteenth century might well have trained his wife so that her behavior could reflect honorably on him and enhance his reputation.

The Medieval Book Aug 18 2020 Originally published by Beinecke Rare Book and Manuscript Library, 1988.

Handbook of Medieval Culture Jun 20 2023 A follow-up publication to the Handbook of Medieval Studies, this new reference work turns to a different focus: medieval culture. Medieval research has grown tremendously in depth and breadth over the last decades. Particularly our understanding of medieval culture, of the basic

living conditions, and the specific value system prevalent at that time has considerably expanded, to a point where we are in danger of no longer seeing the proverbial forest for the trees. The present, innovative handbook offers compact articles on essential topics, ideals, specific knowledge, and concepts defining the medieval world as comprehensively as possible. The topics covered in this new handbook pertain to issues such as love and marriage, belief in God, hell, and the devil, education, lordship and servitude, Christianity versus Judaism and Islam, health, medicine, the rural world, the rise of the urban class, travel, roads and bridges, entertainment, games, and sport activities, numbers, measuring, the education system, the papacy, saints, the senses, death, and money.

The Routledge History Handbook of Medieval Revolt Dec 02 2021 The Routledge History Handbook of Medieval Revolt charts the history of medieval rebellion from Spain to Bohemia and from Italy to England, and includes

chapters spanning the centuries between Imperial Rome and the Reformation. Drawing together an international group of leading scholars, chapters consider how uprisings worked, why they happened, whom they implicated, what they meant to contemporaries, and how we might understand them now. This collection builds upon new approaches to political history and communication, and provides new insights into revolt as integral to medieval political life. Drawing upon research from the social sciences and literary theory, the essays use revolts and their sources to explore questions of meaning and communication, identity and mobilization, the use of violence and the construction of power. The authors emphasize historical actors' agency, but argue that access to these actors and their actions is mediated and often obscured by the texts that report them. Supported by an introduction and conclusion which survey the previous historiography of medieval revolt and envisage

future directions in the field, The Routledge History Handbook of Medieval Revolt will be an essential reference for students and scholars of medieval political history.

Handbook of European History 1400-1600: Late Middle Ages, Renaissance and Reformation Sep 18 2020 This work presents the state of our knowledge about the grand themes of European history in this era. It brings together the best scholarship into an array of topical chapters that present our current knowledge and thinking in ways useful to the specialist and accessible for students and the educated non-specialist. The articles are written by a distinguished international group of leading scholars in the field.

The Oxford Handbook of Medieval Literature in English Jan 15 2023 The study of medieval literature has experienced a revolution in the last two decades, which has reinvigorated many parts of the discipline and changed the shape of the subject in relation to the

scholarship of the previous generation. 'New' texts (laws and penitentials, women's writing, drama records), innovative fields and objects of study (the history of the book, the study of space and the body, medieval masculinities), and original ways of studying them (the Sociology of the Text, performance studies) have emerged. This has brought fresh vigour and impetus to medieval studies, and impacted significantly on cognate periods and areas. The Oxford Handbook of Medieval Literature in English brings together the insights of these new fields and approaches with those of more familiar texts and methods of study, to provide a comprehensive overview of the state of medieval literature today. It also returns to first principles in posing fundamental questions about the nature, scope, and significance of the discipline, and the directions that it might take in the next decade. The Handbook contains 44 newly commissioned essays from both world-leading scholars and exciting new scholarly voices.

Topics covered range from the canonical genres of Saints' lives, sermons, romance, lyric poetry, and heroic poetry; major themes including monstrosity and marginality, patronage and literary politics, manuscript studies and vernacularity are investigated; and there are close readings of key texts, such as Beowulf, Wulf and Eadwacer, and Ancrene Wisse and key authors from Ælfric to Geoffrey Chaucer, Langland, and the Gawain Poet.

The Oxford Handbook of Victorian Medievalism
Aug 30 2021 In 1859, the historian Lord John Acton asserted: 'two great principles divide the world, and contend for the mastery, antiquity and the middle ages'. The influence on Victorian culture of the 'Middle Ages' (broadly understood then as the centuries between the Roman Empire and the Renaissance) was both pervasive and multi-faceted. This 'medievalism' led, for instance, to the rituals and ornament of the Medieval Catholic church being reintroduced to Anglicanism. It led to the Saxon Witan being

celebrated as a prototypical representative parliament. It resulted in Viking raiders being acclaimed as the forefathers of the British navy. And it encouraged innumerable nineteenth-century men to cultivate the superlative beards we now think of as typically 'Victorian'—in an attempt to emulate their Anglo-Saxon forefathers. Different facets of medieval life, and different periods before the Renaissance, were utilized in nineteenth-century Britain for divergent political and cultural agendas. Medievalism also became a dominant mode in Victorian art and architecture, with 75 per cent of churches in England built on a Gothic rather than a classical model. And it was pervasive in a wide variety of literary forms, from translated sagas to pseudo-medieval devotional verse to triple-decker novels. Medievalism even transformed nineteenth-century domesticity: while only a minority added moats and portcullises to their homes, the medieval-style textiles produced by Morris and Co. decorated

many affluent drawing rooms. The Oxford Handbook of Victorian Medievalism is the first work to examine in full the fascinating phenomenon of 'medievalism' in Victorian Britain. Covering art, architecture, religion, literature, politics, music, and social reform, the Handbook also surveys earlier forms of antiquarianism that established the groundwork for Victorian movements. In addition, this collection addresses the international context, by mapping the spread of medievalism across Europe, South America, and India, amongst other places.

A Handbook of the Troubadours Jun 15 2020

This book is a reference volume and a digest of more than a century of scholarly work on troubadour poetry. Written by leading scholars, it summarizes the current consensus on the various facets of troubadour studies. Standing at the beginning of the history of modern European verse, the troubadours were the prime poets and composers of the twelfth and thirteenth

centuries in the South of France. No study of medieval literature is complete without an examination of the courtly love which is celebrated in the elaborately rhymed stanzas of troubadour verse, creations whose words and melodies were imitated by poets and musicians all over medieval Europe. The words of about 2,500 troubadour songs have survived, along with 250 melodies, and all have come under intense scholarly scrutiny. This Handbook brings together the fruits of this scrutiny, giving teachers and students an overview of the fundamental issues in troubadour scholarship. All quotations are given in the original Old Occitan and in English. The editors provide a list of troubadour editions and an index, and each chapter includes a list of additional readings.

Life in a Medieval City Dec 22 2020 From acclaimed historians Frances and Joseph Gies comes the reissue of their classic book on day-to-day life in medieval cities, which was a source for George R.R. Martin's Game of Thrones

series. Evoking every aspect of city life in the Middle Ages, *Life in a Medieval City* depicts in detail what it was like to live in a prosperous city of Northwest Europe in the twelfth and thirteenth centuries. The year is 1250 CE and the city is Troyes, capital of the county of Champagne and site of two of the cycle Champagne Fairs—the “Hot Fair” in August and the “Cold Fair” in December. European civilization has emerged from the Dark Ages and is in the midst of a commercial revolution. Merchants and money men from all over Europe gather at Troyes to buy, sell, borrow, and lend, creating a bustling market center typical of the feudal era. As the Gieses take us through the day-to-day life of burghers, we learn the customs and habits of lords and serfs, how financial transactions were conducted, how medieval cities were governed, and what life was really like for a wide range of people. For serious students of the medieval era and anyone wishing to learn more about this fascinating period, *Life*

in a Medieval City remains a timeless work of popular medieval scholarship.

Handbook of Medieval Culture Aug 22 2023

Thanks to extensive research, our understanding of medieval culture has virtually exploded over the last decades. Medieval society embraced a complex set of values that must be discussed from an interdisciplinary perspective. This new handbook offers articles on central topics defining the medieval world and culture. The topics covered are, for example, love and marriage, transportation, medicine, Church and religions, literature, and the arts.

Prognostication in the Medieval World Nov 01 2021 Two opposing views of the future in the Middle Ages dominate recent historical scholarship. According to one opinion, medieval societies were expecting the near end of the world and therefore had no concept of the future. According to the other opinion, the expectation of the near end created a drive to change the world for the better and thus for

innovation. Close inspection of the history of prognostication reveals the continuous attempts and multifold methods to recognize and interpret God's will, the prodigies of nature, and the patterns of time. That proves, on the one hand, the constant human uncertainty facing the contingencies of the future. On the other hand, it demonstrates the firm believe during the Middle Ages in a future which could be shaped and even manipulated. The handbook provides the first overview of current historical research on medieval prognostication. It considers the entangled influences and transmissions between Christian, Jewish, Islamic, and non-monotheistic societies during the period from a wide range of perspectives. An international team of 63 renowned authors from about a dozen different academic disciplines contributed to this comprehensive overview.

Handbook of Medieval Culture Jul 21 2023 A follow-up publication to the Handbook of Medieval Studies, this new reference work turns

to a different focus: medieval culture. Medieval research has grown tremendously in depth and breadth over the last decades. Particularly our understanding of medieval culture, of the basic living conditions, and the specific value system prevalent at that time has considerably expanded, to a point where we are in danger of no longer seeing the proverbial forest for the trees. The present, innovative handbook offers compact articles on essential topics, ideals, specific knowledge, and concepts defining the medieval world as comprehensively as possible. The topics covered in this new handbook pertain to issues such as love and marriage, belief in God, hell, and the devil, education, lordship and servitude, Christianity versus Judaism and Islam, health, medicine, the rural world, the rise of the urban class, travel, roads and bridges, entertainment, games, and sport activities, numbers, measuring, the education system, the papacy, saints, the senses, death, and money.

The Thrifty Guide to Medieval Times Oct 20

2020 The kid-friendly series that makes history approachable, engaging, and funny! From the publishing house that brought you the Who Was? books. The Thrifty Guide to Medieval Times: A Handbook for Time Travelers is a snappy, informative, illustrated travel guide with everything the sensible time traveler needs to know, like: * Where I can find the best hovel? * What are my healthcare options if I catch the Black Plague? * How can I avoid being attacked by pillaging Huns? * And most importantly, why on earth would anyone want to travel back to medieval times? This book is designed as a parody of Fodor's guides, complete with humorous maps, reviews of places to stay and top attractions (don't miss a jousting tournament . . . but watch out for lances!), and tips on whom to have lunch with (murderous Queen Olga of Kiev, naturally--just don't eat or drink anything around her!). If you had a time travel machine and could take a vacation anywhere in history, this is the only guidebook series you would need.

The Westminster Handbook to Medieval

Theology Apr 18 2023 The theologians and major thinkers of the medieval period developed their thought in complicated ways, giving rise to the term scholasticism, which was the method of learning associated with the great schools of the period. Theology was the center of thought, and finding one's way through the many and complex theological ideas introduced during this era can be very difficult. This accessible reference work clarifies these ideas and provides an extensive guide to the main theological features of medieval theology. Author James Ginther provides clear and compelling discussions of major Christian thinkers, sociocultural developments, and key terms and concepts related to the period. Both students and scholars will find this an eminently useful resource for the study of medieval theology.

The Oxford Handbook of Later Medieval

Archaeology in Britain Aug 10 2022 The Middle Ages are all around us in Britain. The Tower of

London and the castles of Scotland and Wales are mainstays of cultural tourism and an inspiring cross-section of later medieval finds can now be seen on display in museums across England, Scotland, and Wales. Medieval institutions from Parliament and monarchy to universities are familiar to us and we come into contact with the later Middle Ages every day when we drive through a village or town, look up at the castle on the hill, visit a local church or wonder about the earthworks in the fields we see from the window of a train. The Oxford Handbook of Later Medieval Archaeology in Britain provides an overview of the archaeology of the later Middle Ages in Britain between AD 1066 and 1550. 61 entries, divided into 10 thematic sections, cover topics ranging from later medieval objects, human remains, archaeological science, standing buildings, and sites such as castles and monasteries, to the well-preserved relict landscapes which still survive. This is a rich and exciting period of the

past and most of what we have learnt about the material culture of our medieval past has been discovered in the past two generations. This volume provides comprehensive coverage of the latest research and describes the major projects and concepts that are changing our understanding of our medieval heritage.

Handbook of Medieval Culture Nov 13 2022 A follow-up publication to the Handbook of Medieval Studies, this new reference work turns to a different focus: medieval culture. Medieval research has grown tremendously in depth and breadth over the last decades. Particularly our understanding of medieval culture, of the basic living conditions, and the specific value system prevalent at that time has considerably expanded, to a point where we are in danger of no longer seeing the proverbial forest for the trees. The present, innovative handbook offers compact articles on essential topics, ideals, specific knowledge, and concepts defining the medieval world as comprehensively as possible.

The topics covered in this new handbook pertain to issues such as love and marriage, belief in God, hell, and the devil, education, lordship and servitude, Christianity versus Judaism and Islam, health, medicine, the rural world, the rise of the urban class, travel, roads and bridges, entertainment, games, and sport activities, numbers, measuring, the education system, the papacy, saints, the senses, death, and money. *The Oxford Handbook of Medieval Philosophy* Jun 08 2022 This Handbook is intended to show the links between the philosophy written in the Middle Ages and that being done today. Essays by over twenty medieval specialists, who are also familiar with contemporary discussions, explore areas in logic and philosophy of language, metaphysics, epistemology, moral psychology ethics, aesthetics, political philosophy and philosophy of religion. Each topic has been chosen because it is of present philosophical interest, but a more or less similar set of questions was also discussed in the Middle

Ages. No party-line has been set about the extent of the similarity. Some writers (e.g. Panaccio on Universals; Cesalli on States of Affairs) argue that there are the closest continuities. Others (e.g. Thom on Logical Form; Pink on Freedom of the Will) stress the differences. All, however, share the aim of providing new analyses of medieval texts and of writing in a manner that is clear and comprehensible to philosophers who are not medieval specialists. The Handbook begins with eleven chapters looking at the history of medieval philosophy period by period, and region by region. They constitute the fullest, most wide-ranging and up-to-date chronological survey of medieval philosophy available. All four traditions - Greek, Latin, Islamic and Jewish (in Arabic, and in Hebrew) - are considered, and the Latin tradition is traced from late antiquity through to the seventeenth century and beyond. *The History of the Medieval World: From the Conversion of Constantine to the First Crusade*

May 27 2021 A masterful narrative of the Middle Ages, when religion became a weapon for kings all over the world. From the schism between Rome and Constantinople to the rise of the T'ang Dynasty, from the birth of Muhammad to the crowning of Charlemagne, this erudite book tells the fascinating, often violent story of kings, generals, and the peoples they ruled. In her earlier work, *The History of the Ancient World*, Susan Wise Bauer wrote of the rise of kingship based on might. But in the years between the fourth and the twelfth centuries, rulers had to find new justification for their power, and they turned to divine truth or grace to justify political and military action. Right thus replaces might as the engine of empire. Not just Christianity and Islam but the religions of the Persians and the Germans, and even Buddhism, are pressed into the service of the state. This phenomenon—stretching from the Americas all the way to Japan—changes religion, but it also changes the state.

Handbook of Medieval Sexuality Dec 14 2022

Like specialists in other fields in humanities and social sciences, medievalists have begun to investigate and write about sex and related topics such as courtship, concubinage, divorce, marriage, prostitution, and child rearing. The scholarship in this significant volume asserts that sexual conduct formed a crucial role in the lives, thoughts, hopes and fears both of individuals and of the institutions that they created in the middle ages. The absorbing subject of sexuality in the Middle Ages is examined in 19 original articles written specifically for this "Handbook" by the major authorities in their scholarly specialties. The study of medieval sexuality poses problems for the researcher: indices in standard sources rarely refer to sexual topics, and standard secondary sources often ignore the material or say little about it. Yet a vast amount of research is available, and the information is accessible to the student who knows where to look and what

to look for. This volume is a valuable guide to the material and an indicator of what subjects are likely to yield fresh scholarly rewards.

Handbook of Medieval Exchange Feb 04 2022
