Jewels of Enlightenment represents over a millennium of wisdom from masters such as Milarepa, Gampopa, Machig Labdrön, Jigme Lingpa, Shabkar, Jamgön Kongtrül, and more on how to live a meaningful life. Unique original material on the phenomenon of the spirit-mediums of Upper Tibet, the men and women who channel the gods. With extensive interviews with members of this living tradition. Exploring the long history of cultural exchange between 'the Roof of the World' and 'the Middle Kingdom,' Buddhism Between Tibet and China features a collection of noteworthy essays that probe the nature of their relationship, spanning from the Tang Dynasty (618 - 907 CE) to the present day. Annotated and contextualized by noted scholar Matthew Kapstein and others, the historical accounts that comprise this volume display the rich dialogue between Tibet and China in the areas of scholarship, the fine arts, politics, philosophy, and religion. This thoughtful book provides insight into the surprisingly complex history behind the relationship from a variety of geographical regions. Includes contributions from Rob Linrothe, Karl Debreczeny, Elliot Sperling, Paul Nietupski, Carmen Meinert, Gray Tuttle, Zihua Yao, Ester Bianchi, Fabienne Jagou, Abraham Zablocki, and Matthew Kapstein. This groundbreaking book explores China's efforts to assimilate Tibet, in the process rewriting Tibetan history to conform to Beijing's goals. Warren W. Smith Jr. provides the historical context for understanding the current situation through an overview of China's actual—as opposed to its promised—policies toward Tibet over time. His clear-eyed appraisal of Chinese policy convincingly shows that the PRC's ultimate intention is assimilation rather than autonomy. The author argues that Beijing fears that any genuine autonomy or dialogue with the Dalai Lama will fuel renewed nationalism in "China's Tibet," as the Chinese leadership calls its possession. The book highlights China's past and current propaganda on Tibet to demonstrate China's sensitivity and defensiveness regarding the legitimacy of its rule. It traces the

history of Sino-Tibetan dialogue to show how China has tried to use it to defuse Tibetan exile and international criticism, while making no concessions in regard to Tibetan autonomy. In the absence of any solution, Smith advocates the promotion of Tibet's right to self-determination as the most viable strategy for sustaining international attention and maintaining the most essential elements of Tibetan national identity. Smith's thoroughly informed work will be valuable not only to Tibet experts and students, but also to the larger world of Tibet activists, sympathizers, and others attempting to understand China's policies. In this vivid memoir that has sold millions of copies worldwide, Heinrich Harrer recounts his adventures as one of the first Europeans ever to enter Tibet. Harrer was traveling in India when the Second World War erupted. He was subsequently seized and imprisoned by British authorities. After several attempts, he escaped and crossed the rugged, frozen Himalayas, surviving by duping government officials and depending on the generosity of villagers for food and shelter. Harrer finally reached his ultimate destination—the Forbidden City of Lhasa—without money, or permission to be in Tibet. But Tibetan hospitality and his own curious appearance worked in Harrer's favor, allowing him unprecedented acceptance among the upper classes. His intelligence and European ways also intrigued the young Dalai Lama, and Harrer soon became His Holiness's tutor and trusted confidant. When the Chinese invaded Tibet in 1950, Harrer and the Dalai Lama fled the country together. This timeless story illuminates Eastern culture, as well as the childhood of His Holiness and the current plight of Tibetans. It is a must-read for lovers of travel, adventure, history, and culture. A motion picture, under the direction of Jean-Jacques Annaud, will feature Brad Pitt in the lead role of Heinrich Harrer. Teaching Tibetan religious history to American undergraduates can be a tricky business. Separated from the peoples of Tibet by both geographic and cultural distance,

American students require concrete points of contact in order to enter into the worlds of meaning expressed by Tibetan religious traditions. It is one thing to engage the philosophical and theological ideas of a tradition through the reading of texts and the discussion of ideas. It is yet another experience entirely to physically encounter artwork and artifacts capable of directly catalyzing the expansion of human understanding. Fortunately for students at DePauw University we have the Bruce Walker '53 Collection of Tibetan Religious Art to help bridge the gap between the material culture of Tibet and the insularity of a classroom located in the cornfields of central Indiana. In this catalog, DePauw University's Director and Curator of Exhibitions and University Collections, Craig Hadley, has put together a valuable set of essays, commentaries, and descriptions that bring to light the cultural meaning and significance of notable works in our Tibetan collection. This gathering of specific descriptive information relating to the individual pieces of DePauw's collection along with ample contextual material ensures that students and teachers alike will have informed access to the Bruce Walker '53 Collection for many years to come. Based on the author's previous publication *The Encyclopedia of Tibetan Symbols and Motifs*, this handbook contains an array of symbols and motifs, accompanied by succinct explanations. It provides treatment of the essential Tibetan religious figures, themes and motifs, both secular and religious. Composed while its author was the ruler of Tibet, *Mirror of Beryl* is a detailed account of the origins and history of medicine in Tibet through the end of the seventeenth century. Its author, Desi Sangye Gyatso (1653 - 1705), was the heart disciple and political successor of the Great Fifth Dalai Lama and the author of several highly regarded works on Tibetan medicine, including his *Blue Beryl*, a commentary on the foundational text of Tibetan medicine, *The Four Tantras*. In the present historical introduction, Sangye Gyatso traces the sources of influence on Tibetan medicine to classical India, China,

Central Asia, and beyond, providing life stories, extensive references to earlier Tibetan works on medicine, and fascinating details about the Tibetan approach to healing. He also provides a commentary on the pratimoksha, bodhisattva, and tantric Buddhist vows. Desi Sangye Gyatso's *Mirror of Beryl* remains today an essential resource for students of medical science in Tibet. * Thoroughly revised and updated new edition * Features one of the most detailed histories of Tibetan culture and geography available for travelers * Includes a new trekking route over a glaciated 19,300-foot pass used by Heinrich Harrer, author of *Seven Years in Tibet* In the new edition of this indispensable trekking guide to Tibet, travelers will learn the necessities of pre-trip planning and how to seek out the most rewarding treks in a region of the world few get to visit. New features of the 3rd edition include: > Expanded section on East Tibet > New five-day trek in the popular Lhasa region of the pilgrimage circuit of Lhamo Latsho > New trek route over a pass used by George Mallory in 1921 on his first reconnaissance of Everest > New two-day trek in the Shishapangma region > Four new treks in the Mount Kailash region I was lately reading the Holy Text of the Saḍḍharma-Puṇḍarīka (the Aphorisms of the White Lotus of the Wonderful or True Law) in a Samskr̥t manuscript under a Boḍhi-tree near Mṛga-Ḍāva (Sāranāṭh), Benares. Here our Blessed Lord Buddha Shākya-Muni taught His Holy Ḍharma just after the accomplishment of His Buḍḍhahood at Buḍḍhagayā. Whilst doing so, I was reminded of the time, eighteen years ago, when I had read the same text in Chinese at a great Monastery named Ohbakusang at Kyoto in Japan, a reading which determined me to undertake a visit to Tibet. It was in March, 1891, that I gave up the Rectorship of the Monastery of Gohyakurakan in Tokyo, and left for Kyoto, where I remained living as a hermit for about three years, totally absorbed in the study of a large collection of Buḍḍhist books in the Chinese language. My object in doing so was to fulfil a long-felt desire to

translate the texts into Japanese in an easy style from the difficult and unintelligible Chinese. But I afterwards found that it was not a wise thing to rely upon the Chinese texts alone, without comparing them with Tibetan translations as well as with the original Samskr̥t texts which are contained in Mahāyāna Buddhism. The Buddhist Samskr̥t texts were to be found in Tibet and Nepāl. Of course, many of them had been discovered by European Orientalists in Nepāl and a few in other parts of India and Japan. But those texts had not yet been found which included the most important manuscripts of which Buddhist scholars were in great want. Then again, the Tibetan texts were famous for being[vi] more accurate translations than the Chinese. Now I do not say that the Tibetan translations are superior to the Chinese. As literal translations, I think that they are superior; but, for their general meaning, the Chinese are far better than the Tibetan. "If any place deserves to be haunted it is the Potala. For amid the splendor of its myriad golden Buddhas set in a labyrinth of sacred ceremonial chambers, there have occurred more rich pageantry and arcane prophecies, more secret ceremonies and magical rituals, more sinister intrigue and mysterious happenings than the imagination can encompass."- Excerpt from The Splendors of Tibet"Asia has many surprises and Tibet is one of them. Audrey Topping has given us a wonderful introduction to the blend of mystery, splendor and sadness that is Tibet. The text benefits from the excitement of 'being there' which the Toppings are so good at sharing with readers. And these experienced authors did not let their engaging enthusiasm prevent them from alluding to the darker side of Tibet's life within the Chinese fold. No one else has matched this portrait of Tibet today."- Ross Terrill, Author of Mao: A Biography A beautiful but disquieting photo documentation of both the splendor and ruin that define contemporary Tibet. The third edition of Understanding Contemporary China retains all the useful features of the previous editions, but has been thoroughly updated to reflect such current

issues and challenges as China's dynamic economic growth; its changing social and political culture; its growing international presence as a mediator, investor, and disbursing of foreign aid; recent developments in the standoff with Taiwan; and the ever growing impact of environmental degradation. Assuming no prior knowledge on the part of the reader, the book was designed as a core text for 'Introduction to China' courses and can also be used effectively in a variety of discipline-oriented curriculums (especially political science and sociology). Numerous maps and photographs enhance the text. The Silk Road Journey with Xuanzang tells the saga of the seventh-century Chinese monk Xuanzang, one of China's great heroes, who completed an epic sixteen-year-long journey to discover the heart of Buddhism at its source in India. Eight centuries before Columbus, this intrepid pilgrim traveled 10,000 miles on the Silk Road, meeting most of Asia's important leaders at that time. In this revised and updated edition, Sally Hovey Wriggins, the first Westerner to walk in Xuanzang's footsteps, brings to life a courageous explorer and devoutly religious man. Through Wriggins's telling of Xuanzang's fascinating and extensive journey, the reader comes to know the contours of the Silk Road, Buddhist art and archaeology, the principles of Buddhism, as well as the geography and history of China, Central Asia, and India. The Silk Road Journey with Xuanzang is an inspiring story of human struggle and triumph, and a touchstone for understanding the religions, art, and culture of Asia. From sacred mountains and places of pilgrimage to visions and out-of-body travel, this reference explores unusual and unexplained physical events, apparitions, and other phenomena rooted in religious beliefs. Each entry features a balanced presentation and includes a description of the phenomenon, the religious claims surrounding the occurrence, and a scientific response. Touring the world and history, this comprehensive reference includes entries on angels, comets, Marian apparitions, and religious figures such as Jesus,

Mohammad, and Lao Tzu. In *Water Touching Stone*, the sequel to the internationally acclaimed *The Skull Mantra*, Shan Tao Yun is cloistered in a remote Tibetan sanctuary when he receives shattering news. A teacher revered by the oppressed has been found slain and, one by one, her orphaned students have followed her to her grave, victims of a killer harboring unfathomable motives. Abandoning his mountain hermitage, Shan Tao Yun, a former Beijing police inspector who has been exiled to Tibet, embarks on a search for justice. Shadowed by bizarre tales of an unleashed 'demon,' Shan braces himself for even darker imaginings as he stalks a killer and fights to restore spiritual balance to the ancient and tenuous splendor of Tibet. "Some of the most inspiring verses ever written."—Geshe Thupten Jinpa, PhD, founder, Institute for Tibetan Classics

The Tibetan saint Tsongkhapa (1357-1419), the founder of the Dalai Lama's tradition of Tibetan Buddhism, was renowned for his vast learning, meditational achievements, influential writings on practice and philosophy, and reform of tantric religious practices. A deeply humble and religious man, he expressed himself in exquisite verse. Here, presented in both the original Tibetan and in English translation, are twenty-one devotional poems by Tsongkhapa. Each verse--dedicated to the Buddha, bodhisattvas, and lamas--illuminates some aspect of the Buddhist path. Gavin Kilty's commentary places each prayer into context, and his careful, artful translations will appeal to anyone with a love of poetry. For Yale University Press, which celebrates its hundredth birthday in 2008, the century has been an eventful one, punctuated with no few surprises. The Press has published more than 8,000 volumes through the years, scores of bestsellers and award-winners among them, and these books have come to fruition through the efforts of a host of colorful authors, editors, directors, board members, and others of intellectual and literary renown. With an ear always cocked for an interesting tale, one of today's best storytellers presents an anecdote-rich chronicle of

the Press's first 100 years. Nicholas Basbanes, whom David McCullough has called the leading authority of books about books, quickly convinces us that the Press's history, while bookish, is also lively and fascinating. Basbanes explores the saga behind the acquisition of Eugene O'Neill's blockbuster play, the all-time Yale bestseller *Long Day's Journey into Night*; the controversy sparked in 1965 by publication of *The Vinland Map*; the origins of the groundbreaking *Annals of Communism* series, initiated in the wake of the Soviet Union's demise; and many more highlights from Press annals. Basbanes looks at the reasons behind the publisher's remarkable financial success, and he completes *A World of Letters* with a glimpse at the new initiatives that will propel the Press into a second exciting century.

Remembrance by His Holiness the Dalai Lama
Excerpts from the writings and autobiography of Khyentse Rinpoche and other teachers
Experience the spirit of Tibet through the vibrant pageantry of Tibetan religious life and culture, practiced amid the splendor of the Himalayas. Best-selling French photographer and writer Matthieu Ricard follows the journey of his teacher, the esteemed Khyentse Rinpoche-- poet, philosopher, and master of Tibetan wisdom. With a remembrance by His Holiness the Dalai Lama. This fourteenth-century Tibetan classic serves as an excellent introduction to basic Buddhism as practiced throughout India and Tibet and describes the process of entering the Buddhist path through study and reflection. It begins with setting forth the structure of Buddhist education and the range of its subjects, and we're treated to a rousing litany of the merits of such instruction. We're then introduced to the buddhas of our world and eon—three of whom have already lived, taught, and passed into transcendence—before examining in detail the fourth, our own Buddha Shakyamuni. Butön tells the story of Shakyamuni's past lives and then presents the path the Buddha followed (the same that all buddhas must follow). After the Buddha's story, Butön

recounts three compilations of Buddhist scriptures and then quotes from sacred texts that foretell the lives and contributions of great Indian Buddhist masters, which he then relates, concluding with the tale of the eventual demise and disappearance of the Buddhist doctrine. The text ends with an account of the inception and spread of Buddhism in Tibet, focused mainly on the country's kings and early adopters of the foreign faith. An afterword by Ngawang Zangpo, one of the translators, discusses and contextualizes Butön's exemplary life, his turbulent times, and his prolific works. Bordered by the Himalaya on the south and the Karakoram on the west, Tibet offers trekkers an experience like no other. In this updated edition of *Trekking in Tibet*, McCue prepares us for a sojourn into this mystical, other-worldly land presenting detailed discussions of pre-trip planning, the most rewarding treks, as well as an educational glimpse into the country's history and culture. This most current Tibetan-English dictionary surpasses existing dictionaries in both scope and comprehensiveness. Diana Lange has solved the mysteries of six panoramic maps of 19th c. Tibet and the Himalayas, known as the British Library's Wise Collection. The result is both a spectacular illustrated ethnographic atlas and a unique compendium of knowledge concerning the mid-19th century Tibetan world, as well as a remarkable account of an academic journey of discovery. This large format book is lavishly illustrated in colour and includes four separate large foldout maps. With unsurpassed honesty and humility, the highly influential meditation master Tulku Urgyen Rinpoche offers a glimpse into the remarkable reality of Tibetan Buddhism, as well as an in depth portrait of the lost culture of old Tibet. This grand narrative stretches across generations, providing an inspiring glimpse into a realm of remarkable human achievement quite different from our familiar, mundane world. Intimate in tone, these personal memoirs recount the influences and experiences that shaped one of the great spiritual teachers of our time. *Blazing Splendor* is of

both spiritual and historical importance. In 1891, the British public was horrified to learn that Sherlock Holmes had perished in a deadly struggle with the archcriminal Professor Moriarty at the Reichenbach Falls. Then, to its amazement, he reappeared two years later, informing a stunned Watson, 'I traveled for two years in Tibet, therefore, and amused myself by visiting Lhasa.' Nothing has been known of those missing years until Jamyang Norbu's discovery, in a rusting tin dispatch box in Darjeeling, of a flat packet carefully wrapped in waxed paper and neatly tied with stout twine. When opened the packet revealed Huree Chunder Mookerjee's (Kipling's Bengali spy and scholar) own account of his travels with Sherlock Holmes. Now for the first time, we learn of Holmes's brush with the Great Game and the world of Kim. We follow him north across the hot and dusty plains of India to Simla, summer capital of the British Raj, and over the high passes to the vast emptiness of the Tibetan plateau. In the medieval splendor that is Lhasa, intrigue and black treachery stalk the shadows, and Sherlock Holmes confronts his greatest challenge. "The mythologising of Tibet in the West and the Himalayan state's subsequent abandonment to China are recounted in this briskly-paced and revealing new history"-- Lying at the center of an ancient network of Buddhist temples in the Great Temple of Lhasa, the Jokhang Temple is the heart of spiritual and economic life in Tibet. This UNESCO World Heritage Site is the atmospheric focal point of Lhasa, from which bustling narrow lanes of commerce radiate outward in all directions. American ed. published by arrangement with Encyclopedia of China Publishing House. Shan Tao Yun, just released from the gulag, races to find the person responsible for murdering a Tibetan teacher and his students. Originally published in 1997, Religions of Tibet in Practice is a landmark work--the first major anthology on the topic ever produced. This new edition--abridged to further facilitate course use--presents a stunning array of works that together offer an unparalleled view of the Tibetan religious

landscape over the centuries. Organized thematically, the twenty-eight chapters are testimony to the vast scope of religious practice in the Tibetan world, past and present. *Religions of Tibet in Practice* remains a work of great value to scholars, students, and general readers. Renunciation is a core value in the Buddhist tradition, but Buddhism is not necessarily austere. Jewels—along with heavenly flowers, rays of rainbow light, and dazzling deities—shape the literature and the material reality of the tradition. They decorate temples, fill reliquaries, are used as metaphors, and sprout out of imagined Buddha fields. Moreover, jewels reflect a particular type of currency often used to make the Buddhist world go round: merit in exchange for wealth.

Regardless of whether the Buddhist community has theoretically transcended the need for them or not, jewels—and the paradox they represent—are everywhere. Scholarship has often looked past this splendor, favoring the theory of renunciation instead, but in this volume, scholars from a wide range of disciplines consider the role jewels play in the Buddhist imaginary, putting them front and center for the first time. Following an introduction that relates the colorful story of the Emerald Buddha, one of the most famous jewels in the world, chapters explore the function of jewels as personal identifiers in Buddhist and other Indian religious traditions; Buddhaghosa’s commentary on the Jewel Sutta; the paradox of the Buddha’s bejeweled status before and after renunciation; and the connection in early Buddhism between jewels, magnificence, and virtue. The Newars of Nepal are the focus of a chapter that looks at their gemology and associations between gems and celestial deities. Contributors analyze the Fifth Dalai Lama’s reliquary, known as the “sole ornament of the world”; the transformation of relic jewels into precious substances and their connection to the Piprahwa stupa in Northern India and the Nanjing Porcelain Pagoda. Final chapters offer detailed studies of ritual engagement with the deity known as Wish-Fulfilling Jewel Avalokiteśvara and its role in the new

Japanese lay Buddhist religious movement Shinnyo-en. Engaging and accessible, *Jewels, Jewelry, and Other Shiny Things in the Buddhist Imaginary* will provide readers with an opportunity to look beyond a common misconception about Buddhism and bring its lived tradition into wider discussion. Containing nearly 100 watercolour illustrations, this text reveals the elegance, variety, and originality of Tibetan architecture in all its splendour. Lama Govinda provides an exciting overview of contemporary Buddhist Philosophy for the modern student. He shares his insights into Indian and Tibetan Buddhist traditions concerning the nature of reality, the development of consciousness, death and rebirth, faith and tolerance, and the significance of meditative and ritual practices. In depicting the Tantric Buddhist approach that utilizes ancient mantras and mandalas to produce meditative absorption in a unified experience of sound, color and form, Lama Govinda pays homage to a spiritual edifice of great beauty and complexity. Lama Govinda invokes a multidimensional vision of Buddhist understanding that includes the rational perspectives of modern science and psychology, but goes far beyond them. In building a conceptual bridge between Eastern mysticism and Western philosophy, he discusses the work of Assagioli, Teilhard de Chardin and von Durkheim, among others. There are also chapters of concern to Western society, such as the expansion of consciousness through drugs and the nature of attachment and suffering in love relationships. The material presented here was gathered from lectures and articles written by Lama Govinda shortly before his death in 1985, providing readers a close look at his warmth and lovingness. Spiritual biography meets edge-of-your-seat undercover reporting: how an American Buddhist smuggled out hard evidence of abuse and torture in Tibet. For nearly a decade, Matteo Pistono smuggled out of Tibet evidence of atrocities by the Chinese government, showing it to the U.S. government, human rights organizations, and anyone who would listen. Yet Pistono did not originally intend to fight for social

justice in Tibet-he had gone there as a Buddhist pilgrim. Disillusioned by a career in American politics, he had gone to the Himalayas looking for a simpler way of life. After encountering Buddhism in Nepal, Pistono's quest led him to Tibet and to a meditation master whose spiritual brother is Sogyal Rinpoche, bestselling author of *The Tibetan Book of Living and Dying*. Pistono not only became the master's student but also couriered messages to him in Tibet from the Dalai Lama in India. This began an extraordinary, and ultimately vital, adventure. In *The Shadow of the Buddha* is a book about Tibet through the eyes of a devotee-a stranger hiding in plain sight. It's about how a culture's rich spiritual past is slipping away against the force of a tyrannical future. It's about how Tibetans live today, and the tenacity of their faith in the future in spite of dire repression and abuse. It's also about Pistono's own journey from being a frustrated political activist to becoming a practicing Buddhist mystic, a man who traveled thousands of miles and risked his own life to pursue freedom and peace.
